HANDS ACROSS THE SEA - - 1931-1932

OR thirty-five years I have written an annual greeting to our customers and although I have surrendered the actual details of management to the younger generation and am, at the time of writing, experiencing the rigors of an English winter, I feel that I am gaining experience that will be helpful to Australian gardeners.

One of my first activities on this side was to ascertain the most effective method in use for seed testing and as the result our firm has installed the most up-to-date Electric Seed Incubator in Australia which will enable us to retain and improve our record for supplying seeds of the best germinating quality as well as "honest-to-goodness" quality.

I have been enabled to visit many nurseries, experiment farms and trial grounds, and have secured several new varieties of vegetables and flowers, which after testing in Australia will be made available.

The recent world-wide slump in business has been felt severely in Australia but the Home Garden when manured, watered and cultivated still produces the same amount of food for the family in vegetables and fruit and should, in bad times be the more assiduously cultivated. In England an attempt is to be made to remedy the unemployment calamity by the extension of the garden plot system. In Australia the Land of Sunshine where vegetables will thrive the year round, one need never starve.

Garden Handbooks

WRITTEN BY HERBERT J. RUMSEY

The popularity of these helps to the gardener is daily increasing; many letters are received testifying to the assistance given by the books.

The New A.B.C. of Vegetable Growing

FREELY ILLUSTRATED

Posted 2/1.

42nd Thousand

PRICE: TWO SHILLINGS

Entirely re-written

This book has been of the greatest assistance to thousands of vegetable growers since its first publication in 1908. The matter was kept in type and revised for each edition until the 1927 edition, for which it has been entirely re-written, and much improved; between 6 and 7 copies of this book have been sold every working day for 20 years.

The Australian Book of Berries

The standard work on all small fruit culture, including:

STRAWBERRY, LOGANBERRY, RASPBERRY, GOOSEBERRY, CURRANT, &c.
6th Thousand. Revised and Enlarged. Price: ONE SHILLING. Posted, 1/1

The "A to Z" of Australian Fruit Growing

Over 250 Pages.

Many Full Page Illustrations

The aim of the author has been to make this book as helpful to the fruitgrowers as the vegetable book has been to the gardener. It deals with the culture of every variety of fruit suited to Australian conditions from "A to Z," including not only cultivation, but packing, drying, preserving, and bottling. The schedule of insect pests will be found very helpful. PRICE: TWO SHILLINGS; Posted 2/2.

The Garden Fair in Australia

This is a useful addition to the Garden Handbooks. It will be found to appeal to every flower and garden lover, dealing as it does with every aspect of the home surroundings.

Beautifully illustrated. Even the tennis court is not omitted. PRICE: 2/-; Posted, 2/1.

The Australian Tomato Book

The most complete work published in Australia on this most important crop, it will be found helpful to both amateur and professional and even as a cookery book will be worth its small cost. Second edition revised and enlarged, with chapter on tomato growing under glass. 2/-, posted 2/1.

The Australian Nut, and Nut Growing in Australia

This book opens up a new subject altogether, and treats at length on matters that have been too long overlooked.

PRICE: 2/-; Posted 2/1.

The Pommies, or New Chums in Australia

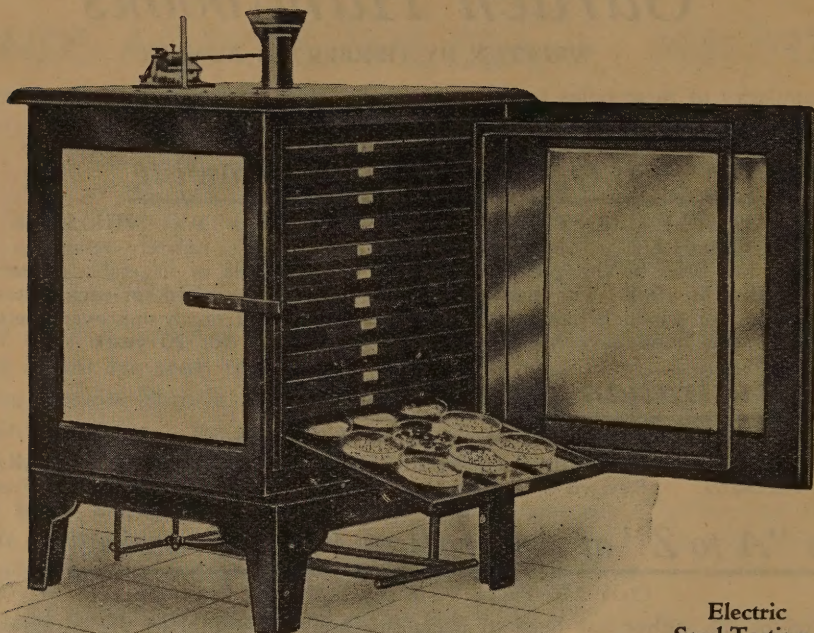

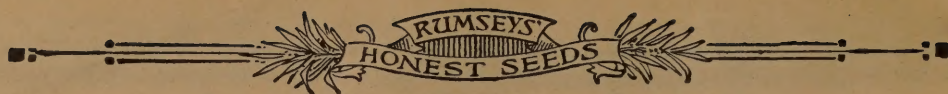

The circulation of this book should in itself do a great deal towards removing the sting that unthinking persons have placed in the word "Pommy." The word has been in use for over fifty years, and only recently has there been any objection to its use. Australia has been populated and built up by the pioneering spirit of the Pommies—ourselves, our fathers, or our grandfathers. The story is interesting, and just the thing to send home. Price 2/6—posted 2/7.

We will send any of the books at the prices named or when two or more are ordered at the same time they will be sent at the published prices without the extra charges for postage.

FROM ALL BOOKSELLERS AND THE PUBLISHERS.

Page One

Electric
Seed-Testing
Incubator

The installation of this most modern machine is a further protection for users of "Rumsey's Honest Seeds." We can now test quickly and effectively all seed as it comes into stock, and at various times throughout the year. The old dish system was too slow and not nearly so effective.

Although at time of sale our seeds comply fully with the provisions of the Agricultural Seeds Act, 1921 (N.S.W.), there are certain things beyond our control which may affect growth. Therefore for our protection against unscrupulous persons all goods are sold subject to the following conditions :

CONDITIONS OF SALE.—We believe that all Seeds, Bulbs, and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs, or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us.

Here's Value—15 Packets for 5/-

POSTAGE PAID

- 1 pkt., Cabbage, Allhead Early.
- 1 pkt., Beet, Turnip Rooted.
- 1 pkt., Carrot, Improved Intermediate.
- 1 pkt., Cucumber, Apple.
- 1 pkt., Cucumber, White Spine.
- 1 pkt., Lettuce, Wonderful.
- 1 pkt., Marrow, Bush Scaloped.
- 1 pkt., Marrow, Long White Bush.

- 1 pkt., Parsnip, Hollow Crowned.
- 1 pkt., Pumpkin, Triamble.
- 1 pkt., Radish, Mixed.
- 1 pkt., Squash, Hubbard Mixed.
- 1 pkt., Tomato, Sunnybrook Earliana.
- 1 pkt., Tomato, Matchless.
- 1 pkt., Turnip, White.

Our special collection of vegetables for Spring sowing will suit all districts.

Collections are made up to save time in handling orders during the rush season—we cannot therefore alter them to suit individual tastes of clients without charging full catalogue prices.

For Autumn Collection — See "Autumn List" in January.

Vegetable Seeds

Varieties with ☉ are those we specially recommend.

ALL SEEDS ARE POST PAID AT PRICES QUOTED

$\frac{1}{2}$ -lb., lots supplied at 1-lb., rate; $\frac{1}{2}$ -oz., at 1-oz., rates (subject to minimum charge of 1/- per item) unless quoted otherwise.

Artichoke

Large Green Globe

Pkt., 6d.; $\frac{1}{2}$ -oz., 3/6; oz., 6/-.

Asparagus

Mary Washington

A new asparagus that has proved to be nearly rust free.

Pkt., 6d.; oz., 2/-; $\frac{1}{4}$ -lb., 6/-.

Conovers Colossal

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 3/-.

Long and Half Long Beet

Long beet require deep soils, cool climate and autumn planting.

Long Smooth Blood Red—☉

Largest, and best cropper for deep soils. Roots 12 inches, very dark flesh.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 1/9; lb., 5/6.

Half Long Blood—☉

Of much better quality than the flat or turnip beets. The roots grow to a length of about 8 inches in suitable soil.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/-; lb., 6/-.

Obelisk

The colour and flavor of this beet leave nothing to be desired and the shape makes it particularly fine for slicing.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/6; lb., 7/6.

Silver or Spinach Beet

Silver beet, from its continuous cropping habit, has taken the place of spinach.

Lucullus—☉

Large ruffled leaves, broad mid-rib.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/-; lb., 6/-.

Fordhook Giant

The rich blue-green leaves are very crinkled and grow up to 10 inches in width and 2 $\frac{1}{2}$ feet in height. The leaves are thick and fleshy and cook well. The stems are pearly white, 2 $\frac{1}{2}$ inches wide, thick and succulent.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ -lb., 4/6; lb., 12/6.

Dark Green Broad Rib

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/-; lb., 5/6.

Turnip Rooted Beet

Turnip-rooted beet may be sown in rows or transplanted almost any month of the year.

Columbia—☉

A fine early main-crop beet, turnip-rooted, smooth and free from all rootlets.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/-; lb., 6/-.

Crimson Globe

Sweet and tender.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 1/9; lb., 5/-.

Improved Detroit Dark Red—☉

A pure line strain of this remarkable market variety. Fine dark colour.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 1/9; lb., 5/-.

Egyptian Turnip-rooted

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 1/9; lb., 5/-.

Eclipse

Early Globe shaped, small top.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 2/-; lb., 6/-.

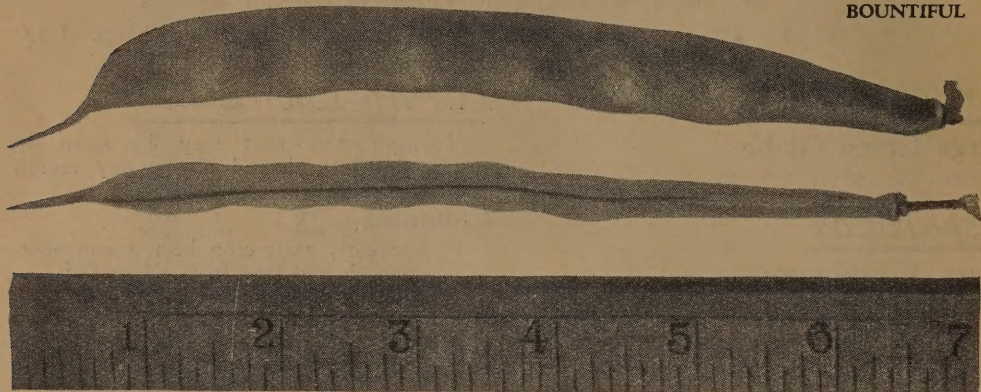

GIANT
FORDHOOK

Beans

The prices of Beans is for postage paid in N.S.W. The higher rate of postage to the other States makes it necessary to add 6d. per lb. to Interstate Orders for 1lb. or over

BOUNTIFUL

Bush French Beans

Burpee's Stringless Green Pod—

Tender, straight, fleshy pods, two weeks earlier than Canadians. The best home garden dwarf french.

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/6; lb., 2/9.

Canadian Wonder

Best market bean, very hardy.

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/6; lb., 2/6.

Bountiful—

A very good early bean. Pods brittle and stringless. One of the best allround beans in cultivation.

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/6; lb., 2/9.

Tweed Wonder

A disease resistant variety of Canadian Wonder, introduced by the Department of Agriculture.

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/9; lb., 3/-. Stock limited.

Improved White Navy

The best of all beans for baked bean industry. Resistant to rust and black spot.

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/6; lb., 2/9.

Bush Butter Beans

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/9; lb., 3/-.

Brittle Wax

The best of all the wax or butter beans, of typical bush growth, with rich green leaves. Beans round and fleshy, stringless and tender. The beans retain their yellow colour when cooked, and are of super-fine flavour.

Rustproof Golden Wax

Stringless, handsome, prolific.

Startler Wax

Crops heavily, bearing large, round, fleshy, stringless beans of fine flavour.

Climbing French Beans

Pkt., 9d.; $\frac{1}{2}$ -lb., 1/6; lb., 2/9 post free.

Rumsey's Giant Round Pod—

Known also as Kentucky Wonder. Free-growing, prolific, deliciously flavoured, and tender.

Epicure—

A flat bean, enormous cropper, and delicious cooked.

Climbing Stringless Green-pod—

Uniformly straight pods, 6 to 8 inches in length, rich green, and very meaty, entirely stringless and of good quality. The white beans are fine for winter use. Sometimes called White Seeded Kentucky Wonder, which is nearer to correct than White Seeded Epicure, another local name.

Scarlet Runner

Bears enormous pods, 12 to 18 inches long.

Yard Long or Snake

Fleshy Beans 18 to 20 inches long.

Pkt., 6d.; $\frac{1}{2}$ -lb., 2/6; lb., 7/6.

Climbing Butter or Wax

Golden Cluster—

Stringless, seeds white. Sweet, tasty, and brittle, climbs well, is hardy, vigorous and very productive. Pods $6\frac{1}{2}$ to $7\frac{1}{2}$ inches in length, perfectly straight and flat.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/9; lb., 3/.

Bush Lima Beans

Fordhook Bush—

Pkt., 9d.; lb., 3/.

Beans are rather thicker and larger than any other sort; great croppers.

Climbing Lima Bean

Burpees Giant Podded—

Pkt., 9d.; lb., 3/.

Early, prolific, handsome, of delicious flavour.

Perennial Climbing Bean

Tongan Bean

Pkt., 6d.

Black seeds; runs 20 to 30 feet, broad, tender pods, stringless.

It should be understood that these beans are perennial only in a mild climate, such as the N.S.W. coastal districts.

Broad Beans

Sow Broad Beans in autumn and early winter.

Pkt., 9d.; lb., 2/3.

Early Long Pod

Best early.

Edible Podded

This is a very useful variety of broad bean, the pod being free of the fibrous cartilage, is tender and of good flavour.

Broad Windsor

Good cropper.

Leviathan Long Pod—

Large pods.

Borecole or Kale

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 5/.

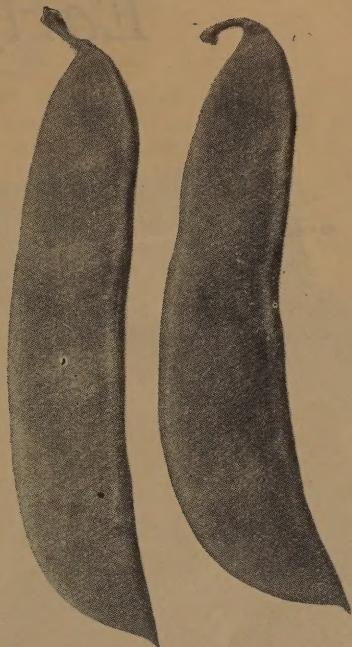

In this country where cabbages grow so freely from Autumn to Spring the borecoles, kale and spinach are not much in demand for culinary use.

Thousand-Headed

Winter cattle feed.

Marrow Stem (Chou Mollier)

Used for poultry greens.

BUSH LIMA BEAN

New Broccoli

Perennial Nine Star

This is one of the greatest novelties for the vegetable garden that has been introduced for many a day. Plants put out from autumn to spring, will stool out, and produce from five to a dozen small cauliflower-like heads that are most delicious. As the plant is perennial, crop after crop comes along giving a perpetual supply of vegetables after every rain or by regulating the water supply the succession of heads may be controlled.

Pkts., 1/; 2/6, 5/; $\frac{1}{2}$ oz., 20/.

Broccoli

Pkt., 6d.; oz., 5/; $\frac{1}{4}$ lb., 15/; lb., 45/.

A cold climate winter cauliflower.

Early White

Nearly like cauliflower.

Late White

Extra fine white heads.

(See also Cauliflowers)

Brussels Sprouts

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/.

Kelway's Prolific

A fine vegetable for the cooler districts. Sow seed in early autumn or late summer.

Early Cabbage

Allhead Early ☼

ALLHEAD EARLY

The earliest large market cabbage. For 25 years our sales of this variety of cabbage seed have increased year by year, until they have at last eclipsed the popular Succession cabbage. The large heads of All-head Early, grow very quickly, and form compact cabbages, free from spreading leaves.

The deep flat heads are very solid and it has proved to be one of the very best to grow for market.

Seed can be sown both in autumn and spring, in fact, at almost any time of the year. It stands the heat of early summer much better than any other variety, unless it is World-beater, which is a

larger, coarser cabbage.

Queensland growers have realised £150 per acre from this variety.

St. John's Day Large

A popular home garden sort.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/3; lb., 10/6.

Copenhagen Market ☼

About 12 years ago we first introduced this cabbage into Australia as a very early large solid cabbage of fine quality. It rapidly obtained a place amongst growers who wanted a quick maturing product for marketing. It grows up to 8-lb. in weight and we have matured it as quickly as Jersey Wakefield.

Pkt., 6d.; oz., 3/6; ¼-lb., 8/6; lb., 25/6.

Langport Market

A very fine, English type of Early Drumhead. Bearing enormous heads on very short stems.

Pkt., 6d.; oz., 3/6; ¼-lb., 9/6.

Early Flat Dutch

This is a popular market gardeners cabbage.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/6; lb., 15/6.

Prices for All-head Early.

American grown 6d. per pkt., 2/- per oz., 6/6 per ¼-lb., 22/6 per lb.

Danish grown, 6d. pkt., 2/- per oz., 6/6 per ¼-lb., 20/- per lb.

COPENHAGEN MARKET

More Cabbages

Surehead

SUREHEAD

This is another very popular market and home cabbage. We have grown it up to 18lb. in weight, and the quality is good. Having so few outer leaves, it can be grown closely where the soil is rich enough, and will give a very great weight of cabbages per acre. Large round flattened, extra firm. Keeps well.

Price : Pkt., 6d.; oz., 2/6;
¼-lb., 7/6; lb., 22/6.

Early Jersey Wakefield—

The best and sweetest small early cabbage for home use.

Pkt., 6d.; oz., 2/6; ¼-lb., 7/6.

Short-Stem Drumhead—

A fine large cabbage. Grows close to the ground, and makes very heavy heads. A good autumn cabbage. This cabbage is also sold under the name of Early Drumhead.

Pkt., 6d.; oz., 1/3; ¼-lb., 3/6; lb., 10/.

World-Beater or Autumn King

Very large, stands late summer heat, and matures early winter.

Pkt., 6d.; oz., 2/6; ¼-lb., 6/6.

Hundredweight Drumhead

Very large hardy, fair quality.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/3.

Danish Roundhead

A solid, keeping-cabbage of fine quality for cold climates; hearts beautifully white.

Pkt., 6d.; oz., 2/6; ¼-lb., 6/.

Danish Ballhead

About two weeks longer in maturing than roundhead, of the same type, but larger.

Pkt., 6d.; oz., 2/6; ¼-lb., 6/.

Succession

In spite of all the new cabbages introduced during the last twenty years, the sales of Succession, or Henderson's Succession as it is sometimes called, have increased from year to year.

Most market growers include Succession as one of their varieties, as it is one of the most dependable to head and makes very uniform heads. We take the greatest care to have the best strains of seed obtainable, and as a rule have found no difference in quality between the best strains of European and American seed, and we stock nothing but the best. In ordering, customers should state if they prefer American or Danish seed.

SUCCESSION

American grown : 6d. per pkt., 2/6 per oz., 7/6 per ¼-lb., 22/6 per lb. Danish grown : 6d. per pkt., 1/9 per oz., 5/6 per ¼-lb., 15/- per lb.

PE TSAI

Chinese Cabbage

The Chinese or Celery Cabbage is coming largely into use in Australia. Its first requirement is either a cool climate or cool season. For that reason seed should be sown about February or March. In the mountains and cooler districts the seed may be sown again under shelter about July.

The plants develop quickly, forming large, tightly folded heads of tender leaves, beautifully blanched in the heart. Chinese cabbage is used sliced raw as a salad like lettuce, or is delicious when boiled.

Pe Tsai—☉

The variety best known to Europeans, with large leaves of a light green colour, tender stalks and heart. It makes larger and narrower heads than Wong Bok, and matures a few days later. Pkt., 6d.; oz., 1/6; ¼ lb., 4/3.

Wong Bok

A new variety of Chinese cabbage with broader and shorter heads than Pe Tsai. The leaves are tightly folded and well blanched, the ribs juicy and agreeably pungent. Pkt., 6d.; oz., 2/6; ¼ lb., 7/6; lb., 22/6.

Red Cabbage

Mammoth Rock Red—☉

Solid, dark red heads, good for pickles, or for cooking.

Pkt., 6d.; oz., 2/6; ¼ lb., 6/6; lb., 20/6.

Savoy Cabbage

Perfection Savoy

Good for winter growth in the cold districts; much improved by good frosts after maturing.

Pkt., 6d.; oz., 1/6; ¼ lb., 4/3; lb., 12/6.

Sweet Corn

Pkt., 9d.; ½ lb., 1/9; lb., 3/6. Add 6d. lb. for postage on Interstate orders.

Every garden should have a row of this delicious vegetable. Sown every two weeks in spring and early summer.

"The Burpee" (New)

Rich and sweet heavy cropper larger and earlier than our famous Golden Bantam.

Golden Bantam—☉

Early, delicious flavoured; prolific; ripe seed is golden yellow.

Stowell's Evergreen

Grain and cob white.

Country Gentleman

Large handsome ears.

Page Eight

Pop Corn

Pkt., 6d.; ¼ lb., 1/6; lb., 3/6. Add 6d. lb. to Interstate orders.

Popping Pop Corns is quite an interesting pastime for Winter evenings in front of the fire. Place a handful of the corn in a dry frying-pan covered with an enamel plate. Rotate pan to keep corn moving until it pops.

White Rice—☉

A most prolific variety, bearing 3 or 4 little ears to a stalk. The grains are pearly white, pointed, and not unlike rice grains in shape.

Queen's Golden

The stalks grow to a height of 6 feet with a number of large ears. Pops perfectly white.

Table Carrots

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/9; lb., 5/3, except where quoted otherwise.

Sow carrot seed in both spring and autumn and sow plenty, as the carrot is a wonderfully fine food plant.

Chantenay or Model

A fine half long table carrot, up to 6 inches in length, tapering from about 2 $\frac{1}{2}$ inches at the top to a stump root.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

Early Nantes—

This is the most popular of all the carrots on our list. It is a handsome half-long variety, with a stump root and a fine tap-root. The roots average about six inches in length, and 1 $\frac{1}{2}$ inches in thickness. The colour is bright orange outside and a rich orange-red in the centre.

James' Scarlet Intermediate—

Has a long pointed well coloured root with stout neck, productive and a good market variety.

St. Valery—

An intermediate carrot with long tapered roots, quite smooth and regular in growth. Two to three inches in diameter at the top and to 10 inches in length. The flesh is a deep rich orange-red, with a soft centre of rich orange-yellow.

Celery

Golden Phenomenal (New)

Heavy, compact and full-hearted; intermediate height. A top price market variety.

Pkt., 1/-; $\frac{1}{2}$ oz., 10/-; oz., 17/6.

White Plume—

The earliest and most easily blanched of the celeries, of delicious nutty flavour. Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 7/6.

Fordhook—

A new hardy variety of outstanding merit. Of dwarf type, the stalks smooth and very thick. The colour snow-white, the heart tinged with yellow. Flavour, nutty and crisp.

Pkt., 6d.; $\frac{1}{2}$ oz., 4/-; oz., 7/6.

(See Illustration)

Golden Self-branching

Attractive waxy golden colour; large nutty and crisp.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 7/6.

Celeriac

Turnip rooted, used for soups.

Pkt., 6d.; oz., 1/6.

Soup Celery

Non germinating. For flavouring only.
 $\frac{1}{4}$ lb., 1/-.

Red Cored Chantenay

A new carrot of extra fine quality of rich orange colour, with core almost the same colour as the flesh and of equal quality, stump rooted, uniform and delicious.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/-.

White Intermediate

Best white carrot for table use, good flavor.

Manchester Table

A good half-long medium sized variety of extra fine quality for the home garden.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/-.

Early Shorthorn

A fine variety for quick growth and for shallow soils, roots up to three inches in length and 1 $\frac{1}{2}$ inches in diameter, of a rich deep orange colour and sweet flavour.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

Coreless Long Red—

A stump-rooted carrot much longer than Early Nantes, but equally symmetrical. The flesh is fine coloured, very melting and sweet, an extra fine home garden variety.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/3; lb., 7/6.

FORDHOOK

Burpee's Best Early Cauliflower

A Fine Early Quick Growing Variety

Is a splendid variety both for market and the home garden. It is a $3\frac{1}{2}$ month cauliflower, and sowings should be made in time to plant out not later than March or April August in the mountain and in the coastal districts, and cooler parts.

The plants are of strong growth with upright pointed

dark green leaves growing closely about the head. It is a sure header and in good soil grows to 8 or 10 inches in diameter. The compact curd is snowy white making the heads most attractive.

Our illustration, from a photograph, is a good representation of what may

be expected from this variety. Seed sown in March and April will mature in the warmer parts, and July and August seed will produce heads in the mountains and cooler parts.

Prices:—Pkts., 1/- and 2/6; $\frac{1}{2}$ -oz., 6/6; oz., 12/6.

Dry Weather Cauliflower—

This variety produces large pure white solid heads about a week later than the extra early varieties, such as Best Early. Its drought resisting qualities make it a very fine variety for Australian conditions, and many gardeners who do not as a rule succeed with cauliflowers will find it something worth while.

Pkt., 1/-; $\frac{1}{2}$ -oz., 6/6; oz., 12/6.

Early Greenleaf (or Green Glazed)

This cauliflower is quite distinct, having dark green leaves with a shiny surface. It is sometimes called "aphis proof" from its resistance to those pests. The heads are very fine, and of fair size, maturing in about 4 months.

Pkt., 1/-; $\frac{1}{2}$ -oz., 6/6; oz., 12/6.

Early Cauliflowers

Cauliflower seeds should be sown from December to March in the warmer parts and January, February, August and September in the cooler districts. Manure heavily before planting out; irrigate well or apply water before they get too dry.

Boronia Giant—

This is one of the Broccoli-Cauliflower crossbreds that has proved so suitable for the coastal districts and warmer parts of N.S.W. The Chinese gardeners for many years held a monopoly of the seed and each grew his own supply and only sufficient for his own needs. We have, however, after a long series of experiments, succeeded in growing limited supplies for our customers.

Boronia Giant, planted out about the end of January or early February, will produce large snow-white heads about June, and in suitable localities, later planting will give equal results in 4 to 4½ months from planting out.

Pkt., 1/-; ½-oz., 6/6; oz., 12/6.

White Queen or Early Erfurt—

A very early dwarf; reliable header. Extra select strain.

Pkt., 6d.; ½-oz., 5/6; oz., 10/-; ¼-lb., 30/-

Early London

Very hardy, quick growing under suitable conditions.

Pkt., 6d.; oz., 5/-; ¼-lb., 15/-.

Cape Gooseberry

Golden Nugget

This is the result of over twenty years selection. An enormous yellow fruit bursting out of the husk. It sometimes reaches two inches in diameter.

The fruit makes a splendid jam or preserve, either by itself or with Jelly Melon.

The plants are enormously prolific.

Pkt., 6d.; ½-oz., 4/-; oz., 7/6; ¼-lb., 22/6.

The Wonderful—

A good early cauliflower, with a fine white, broad solid head. Remarkable for even growth and productiveness.

Pkt., 6.; oz., 2/6; ¼-lb., 7/6.

Mid-Season Cauliflower

Gilt Edge

Handsome variety, large size; stands well.

Pkt., 6.; oz., 2/6; ¼-lb., 7/6.

Late Cauliflowers

Veitch's Autumn Giant—

The standard main crop cauliflower takes about 5 months to mature; our strain is noted for its reliability. Special stock strain selected seed.

Pkt., 6d.; ½-oz., 2/9; oz., 5/-; ¼-lb., 15/-

Late Metropole

A very late, large and very white cauliflower; vigorous and hardy. The head is well protected by the inner leaves. The heads grow to 18 or 20lb. in weight. It takes about 7 months to mature after planting out.

Pkt., 6d.; oz., 3/6.

No grower of cabbages or cauliflowers who has water available can afford to overlook the Skinner System of Irrigation.

Common Cape Gooseberry

(Physalis edulis). This variety is a biennial, and in mild climates produces its best crop of fruit during the second season.

Pkt., 6d.; oz., 4/6.

Husk Tomato

(Physalis pubescens). Quite different from either the above or the common Cape Gooseberry. The vines are trailers, and it is very prolific. This is the best flavoured variety for eating raw. The berry is small and sweet.

Pkt., 6d.; oz., 5/-.

Cucumber

Early Fortune

Said to be the finest type of the well known white spine varieties. Early, disease resistant, and immensely productive. Fruits grow up to 9 inches in length, and set freely.

The colour of the skin is a rich dark green and the flesh is pure white, firm and crisp; delicious flavor.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 12/6.

Commercial

or Fordhook White Spine—

A perfectly shaped cucumber of medium length and large diameter, quite smooth, and remaining green after being picked; very productive. This cucumber has by far the largest sale on the markets.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 12/6.

Fordhook Famous

An extra long variety of White Spine; 12 to 17 inches in length. The thick flesh is remarkably juicy, yet crisp and of a pleasing and delicious flavour.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 13/6.

Long Green Prickly

An old favourite.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6.

Livingston's Evergreen

Stands drought well; good cropper.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/6.

Short Green Prickly

Early and prolific.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6.

Fordhook Pickling

Best for pickling whole.

Pkt., 6d.; oz., 1/6.

Apple Shaped—

Quite distinct; best for home use; very prolific, and not indigestible. During the last few years this cucumber has obtained a place on the market, and those growers who have learnt the proper stage to market it have had fine returns. The apple shaped cucumber is at its best when the outer skin is almost white, before it starts to turn yellow.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 12/6.

Crystal Apple

New strain same shape as old apple, but skin is pure white with no trace of green or yellow.

Pkt., 6d.; oz., 3/6; ¼-lb., 10/6; lb., 30/6.

White Wonder

A pearly white cucumber of fine quality. Averages 8in. long, 2½in. thick; skin thin, but tough. Carries well.

Pkt., 6d.; oz., 2/6.

White Early—

A new, long, white cucumber, growing 10 to 12in. long, and 3in. in diameter. Pale green while young, turning to a porcelain white.

Pkt., 6d.; oz., 2/6.

African Horned—

Unique, very late, enormously prolific. Fruit while young may be eaten freely as apples; when ripe, with a spoon like passion fruit.

Pkt., 6d.; oz., 2/6.

Gherkin

A very small type of Cucumber, used only for pickling whole.

Pkt., 6d.; oz., 2/6.

Collards

Georgia

Delicious greens taking the place of spinach and cabbage in hot climates.

Pkt., 6d.; oz., 1/6; ¼-lb., 3/6; lb., 9/6.

Page Twelve

Cress

Pkt., 6d.

Triple Curled, or Land Cress

This is used as a salad with mustard Water

Grows well in running water.

Kohl-Rabi

Pkt., 6d.; oz., 1/3; ¼-lb., 3/6.

Large Purple

A fine, tender variety.

Early White Short Top

Crop failed. We can supply large green in place of white if preferred to purple.

Herbs Pkt., 6d.

Parsley

Extra dark moss curled. Oz., 1/.

Sage

Best broad leaved. Oz., 2/.

Thyme

Best green leaved. Oz., 4/.

Marjoram

Sweet or knotted. Oz., 2/.

Pot. Pkt., 6d.

Thyme, Sage and Marjoram,

Mixed

Pkt., 6d.; oz., 2/.

Other Herbs

The following can be supplied in 6d. packets only—Anise, Balm, Basil, Borage, caraway, Chervil, Coriander, Dill, Hysop, Lavender, Rue and Savory.

Plants of Thyme, Parsley, Sage, Marjoram and Mint, 6d. each, post paid.

Endive

Green Curled

When well blanched, makes an improvement on lettuce.

Pkt., 6d.

Egg Plant

Pkt., 6d.; oz., 4/.

New York Improved Large

Purple—

A fine large variety.

Burpee's Black Beauty

Rich purplish black.

White Chinese

A fine white variety.

Leek

Musselburgh—

A well-known, good, and hardy sort.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/3; lb., 12/6.

Kelway's Prodigy

A favorite for market gardens as well as home use.

Pkt., 6d.; oz., 3/; ¼-lb., 9/.

London Flag

A very popular variety.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/3; lb., 12/6.

Lettuce

The Deacon

Large creamy yellow, buttery.
Pkt., 6d.; oz., 1/-; ¼-lb., 3/.

California Cream Butter

The largest of the butter
lettuces.
Pkt., 6d.; oz., 1/-; ¼-lb., 3/.

Iceberg—☉

Handsome curly leaves, very
solid.
Pkt., 6d.; oz., 1/-; ¼-lb.,
3/3; lb., 10/.

Drumhead

The old favorite.
Pkt., 6d.; oz., 1/-; ¼-lb.,
2/3; lb., 7/.

BRITTLE ICE

Brittle Ice—☉

A fine extra crisp variety, quick growth.
Pkt., 6d.; oz., 1/-; ¼-lb., 3/3; lb., 10/.

SPECIAL STRAINS OF WON- DERFUL OR NEW YORK

Imperial No. 2

Similar appearance to regular New York,
but more spreading habit; larger and
slightly coarser. Good Autumn and
Winter lettuce. Resistant to brown blight.
Pkt., 6d.; oz., 2/-; ¼-lb., 6/.

Paris White Cos

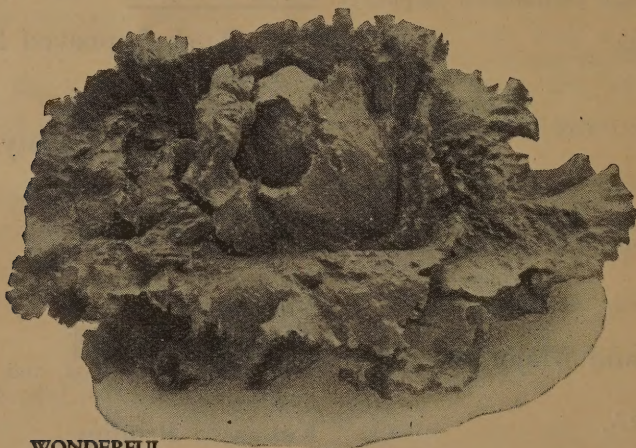

The Cos lettuces are quite distinct; they
require tying up to blanch the centre
leaves.
Pkt., 6d.; oz., 1/.

Hanson

A variety that heads well in hot weather
—large, crisp and tender.
Pkt., 6d.; oz., 1/-; ¼-lb., 3/-; lb., 9/6.

Mignonette

A crisp curly, small brown lettuce that
succeeds in Fiji, and very hot climates.
Pkt., 6d.; oz., 1/3; ¼-lb., 4/-; lb., 12/6.

WONDERFUL

New York Special No. 41

A selection in which leaves fold over and
protect the heads preventing fog and
sunburn.

Pkt., 6d.; oz., 2/-; ¼-lb., 6/.

Wonderful or New York—☉

Select strain. The hardiest and largest of
head lettuces; rich dark green; heads stand
hot weather.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/-; lb., 12/.

Onions

Prizetaker—

This onion has done well in all parts of Australia, and in very different classes of soil; for transplanting it is one of the best. It is a very large onion, often going to 4lb. in weight, and frequently measures over four inches in diameter. The skin is a beautiful golden brown, and the flesh very white, solid, crisp, juicy and mild.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 13/6.

Australian Brown—

An American strain of our Early Brown Globe. A splendid keeping sort.

Pkt., 6d.; oz., 1/6; ¼-lb., 3/6; lb., 10/6.

Brown Spanish—

The standard keeping onion. Hard to beat for general market purposes. Best select strain.

Pkt., 6d.; oz., 1/6; ¼-lb., 3/6; lb., 9/6.

Brown Globe

Another good local sort preferred by many as a market keeping onion.

Pkt., 6d.; oz., 1/6; ¼-lb., 3/6; lb., 10/6.

Giant Rocca

A large reddish brown onion; a quick grower for autumn or spring.

Pkt., 6d.; oz., 2/3; ¼-lb., 6/6; lb., 20/.

White Queen—

A very early white onion, good for home or early market. Small, pure white and flat. Not a good keeper. Resembles Early Barletta.

Pkt., 6d.; oz., 1/6; ¼-lb., 5/6; lb., 15/.

White Portugal or Silverskin

The well-known white pickling onion. Medium size, flat and pure white. Flesh firm and hard, late ripening and a good keeper.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/6; lb., 15/.

Silver King

White skinned onion of excellent flavour.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 13/6.

PRIZETAKER

Odourless

A recently introduced variety of the type of Giant Rocca. A mid-season variety, producing large bulbs suitable for eating raw.

Pkt., 1/6; oz., 4/6; ¼-lb., 13/6; lb., 40/.

Southport White Globe—

The bulbs have a bright paper white skin, with white flesh.

Pkt., 6d.; oz., 2/3; ¼-lb., 6/6; lb., 20/.

Southport Red Globe—

A fine bright red onion for show purposes. Flesh white, tinted with pink near the crimson skin.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/3; lb., 12/6.

Southport Yellow Globe—

The colour of the skin is a rich golden yellow, and the flesh white.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/3; lb., 12/6.

Okra Pkt., 6d.

Dwarf Prolific

The young pods on this plant are very largely used in the Southern states of America as a vegetable, and for flavouring soups and stews. Also used for mixed pickles.

SPECIAL OFFER

4 OZ. " " " " " " " ..	12/6

Cassabas or Winter Rock Melons

Pkt., 6d.; oz., 1/6; ¼lb., 4/6; lb., 12/6.

Allen's Superb or Winter Pineapple

Snow white flesh, and a crepy green skin; shaped like a mason's maul.

Golden Beauty

Fine quality, said to look like a plum pudding tied in a bag; yellow flesh, and of fine flavour.

Honey Dew—☉

A new Hybrid Cassaba of delicious flavour; fine grained and melting; keeps for months.

The Cassabas differ greatly from the ordinary rock melons. They may be sown late and put on a big crop towards autumn. If picked when just turning, they may be put away in a cool place to keep through the winter.

Preserving Melons

Pkt., 6d.; oz., 1/6; ¼lb., 3/6; lb., 10/6.

Colorado Citron—☉

An immense round melon with firm white flesh.

Red Seeded Citron

Medium size, good quality.

Long Green Pie

Very prolific.

Pkt., 6d.; oz., 1/3; ¼lb., 3/6; lb., 10/-

GREEN FLESHED VARIETIES

Montreal Nutmeg

Thick flesh, light green, flavour simply delicious. Fruits 6½ inches diameter and very heavy—from 11 to 22 lb.

Matchless—☉

Oval melons, about 2lbs. in weight; small seed cavity; firm sugary flesh, thin rind.

Netted Gem or Rocky Ford—☉

This is the most popular small variety of Rock Melon for packing in cases for market as well as a good home garden type. The skin is green turning to grey as it is ripe for market. Very prolific.

Extra Early Hackensack

An old favorite, good flavor, hardy and prolific.

SALMON FLESHED VARIETIES

Pollock—10-25

An early melon of the solid netted type. A splendid keeper, carries well—fine quality.

Spicy Canteloupe—☉

Fine large melons of exquisite flavour; stringless. Prolific and of vigorous growth.

Sydney Market

Fruit of medium size, with a fine heavy netting, and fairly distinct ribs. Averages about 5lb. in weight. The flesh is bright salmon pink, and of excellent flavour.

Emerald Gem

A handsome small melon carries well; early and prolific.

Fordhook—☉

A most delicious variety, for market and home use. Round, flat, well ribbed and heavily netted; the skin is thin, but

Snow Melon

The seed is contained in the central cavity like a vegetable marrow, making it very easy to prepare for jam, for which it is very fine.

Pkt., 6d.; oz., 3/-.

Watermelons

Sow in Spring after all danger of frost is over, in well drained soil containing plenty of well decayed organic manure. Sow groups of 5 or 6 seeds half inch deep at intervals of six to eight feet each way.

Early Watermelons

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/6; lb., 7/6.
Except where stated.

Baby Delight

Just big enough for one; 3 to 6 pounds; early, and beautifully sweet.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 4/9; lb., 13/-

Fordhook Early—☉

The very best early market melon; quality good, carries well. Does well in mountains and cooler parts. Size up to 35lb.

Halbert Honey—☉

The melons are large. It is sweet and tasty, melting in the mouth like honey, and leaving no fibre.

Cole's Early

Very early home garden variety of medium size.

Chilian Black Seeded

The black seeded melons sell better in slices, and when cut. Medium sized melon, flesh bright red and of delicious quality. Seeds should be soaked before sowing.

Late Watermelons

Pkt., 6d; oz., 1/-; $\frac{1}{4}$ lb., 2/6; lb., 7/6; except where stated.

Stone Mountain

A new variety of merit. Round and slightly ribbed. The smooth skin is light green and flesh deep crimson. Average weight, 45lb.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/-; lb., 9/-.

Angelino

Another recently introduced good quality oval shaped melon. Black and white seeded varieties stocked.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/-.

Tom Watson—☉

A fine quality melon with tough skin that enables it to be shipped to distant markets. Large melons 10 to 24 inches in length and 10 to 12 inches in diameter, up to 50 or 60lb. in weight. Rind dark green.

Shaker Blue

A very large white seeded melon of fine quality, worth placing in any collection, for home or market.

Kleckley Sweets

Delicious; another home garden melon.

Sugar Stick

Almost as good as the two previous melons, but carries better.

Ice Cream

The very name is cooling. Large and prolific.

Cuban Queen

Very large; carries anywhere.

Irish Gray

A new market garden melon, with light green rind, which is very tough. The red flesh is of fine melting flavour.

Klondyke

Another new melon from California. A good home garden and local sale variety. Flesh brittle, few seeds, shape oblong.
Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 4/9; lb., 13/-

Mushroom Spawn

Small Bricks of Mushroom Spawn
9d. each. Postage paid.

These may be planted in the open garden in autumn and winter, or at any time in a cave or dark place where the temperature ranges between 50 and 60 degrees. See "A.B.C. of Australian Vegetable Growing," price 2/1, postage paid, for full cultural directions.

Mustard

Pkt., 6d.

This is usually grown with cress

White

The old English variety; seed used for making the well-known condiment.

Fordhook Fancy—☉

The most beautifully curled and crested leaves; fine for garnishing.

RICHARD SEDDON

Sugar Peas

Pkt., 9d.; lb., 3/-. Post free in N.S.W.

Tall

Requires staking like beans.

Dwarf

Very fine quality.

Winged Asparagus Pea

A most prolific pea, delicious when cooked like beans. When ripe, shelled seeds make a rich vegetable jelly.

Small packets only 6d.

Peas

Pkt., 9d. Post paid.

Quarter bushel and bushel prices on application.

In the coastal and warmer climates peas are best treated as a winter crop, sown in Autumn. In the cooler and mountain climates spring sowing is best.

Little Marvel

A fine early dwarf with large green pods, well-filled.

lb., 2/3; 5lb., 8/-; 10lb., 13/6. Carriage paid in N.S.W.

Richard Seddon—☉

The best main crop pea for market or home use. The heaviest cropper of all peas, 2ft. high.

lb., 2/-; 5lb., 7/6; 10lb., 12/6, carriage paid in N.S.W. Add 6d. per lb. on Interstate orders.

Yorkshire Hero

Old standard market variety; hardy and carries well.

lb., 1/9; 5lb., 6/6; 10lb., 11/- carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Greenfeast—☉

This shares with Richard Seddon the honor of ousting the old Yorkshire Hero from the position of the market gardener's pea; it is a better pea, and always sells at a higher price than the Yorkshire.

lb., 2/-; 5lb., 7/6; 10lb., 12/-; carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Stratagem

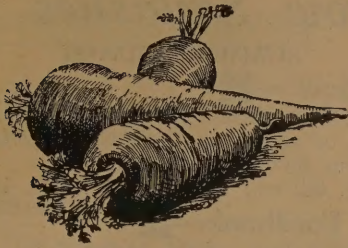

A favourite for garden and market; does well with good care.

lb., 2/-; 5lb., 7/6; 10lb., 12/-; carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

American Wonder (Improved)

An early home garden variety, superceded for market by Richard Seddon and Greenfeast. 1ft. high.

lb., 2/-; 5lb., 7/6; 10lb., 12/6, carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Parsnips

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/6; lb., 4/-.

Hollow Crowned—☉

The standard market variety.

Improved Guernsey

Rather shorter, but of finer quality.

Peanuts

Pkt., 6d; lb., 2/6.

Small Spanish, White

6d. per packet.

A Standard variety; good cropper; hardy.

Virginian

Larger and longer pods.

Peppers

6d. per packet.

Chinese Giant—☉

As big as a quart pot; very mild; delicious stuffed. Oz., 2/6.

Birdseye

Small, intensely hot; good for pickles and sauces.

Long Red Cayenne

Hot and pungent.

Ruby King

Sweet and mild.

Golden Queen

Large, sweet, yellow.

Sweet Genoa

Sweet and mild. Heart shaped bright red.

Mixed Peppers

A mixture of various shapes and colours.

Radishes

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/6; lb., 4/6.

White Icicle ☉

Fine long white, maturing 20 to 25 days.

Early Long Scarlet

(Short Top)—Early, crisp and fine flavour.

White Chinese—☉

These grow to a great size and in China and Japan are cooked like a turnip. Best sown in early autumn.

Improved Chartiers—☉

A dainty crimson, long radish, with a white tip, very delicious.

White Wonder

Or Three Weeks—Nice size and shape.

French Breakfast—☉

Olive shaped. Bright rose scarlet, white tipped. Fleshwhite, firm, crisp, juicy and tender.

Mixed Turnip

Red, yellow and white.

Mixed Long

A good assortment of the best radishes.

Surprise Mixture

A mixture of all sorts short, long and medium.

Rhubarb

Pkt., 6d; oz., 1/6; $\frac{1}{4}$ lb., 5/-; lb., 15/-.

Sydney Winter—☉

The wonderful winter growing rhubarb, treated as an annual, sown in February or March, yields all winter in coastal districts, and very early spring in colder parts.

Victoria

The large standard summer rhubarb.
For roots see vegetable plant list

Rosella

The Rosella is a hot climate plant, much more tender than the tomato, and requires about four months' hot weather to mature. The beautiful red seed bracts are used for making jelly and summer drinks.

Pkt., 6d.

Marrows and Marrow Squashes

All the summer squashes and vegetable marrows should be cooked while the outer skin is tender enough to scratch with the finger nail, and should be cooked without peeling.

VEGETABLE MARROW

Long Green (Trailing)

Tender and prolific.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Italian Green Striped (Bush)—☉

Very prolific, and one of the best of marrows for cooking while young.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Long Cream (Trailing)

Good cropper.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Long White (Trailing)

A fine variety, tender.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Long White (Bush)—☉

Very prolific.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

SUMMER SQUASH

Fordhook—☉

If gathered while still immature, no marrow or squash can approach this for delicious flavour; very prolific.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Bush Fordhook—☉

A bush form of the above.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Early White Bush Scalloped—☉

The very best of this type.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 4/6; lb., 12/6.

Golden Custard (Bush)

Small flat marrows in profusion.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Mammoth White Bush

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/.

Mixed Scalloped

A mixture of the patty pan type of marrow or summer squash.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/9; lb., 10/6.

Pumpkins and Pumpkin Squashes

Crown

A standard table variety.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Triamble—☉

Triangle or Shamrock—A very small pumpkin, but the best table pumpkin now grown.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Small Sugar

The earliest of all pumpkins, ready three months from seed.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 9/6.

Turk's Cap

A red skinned variety of good quality.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 4/6; lb., 12/6.

Queensland Blue

A new table pumpkin cheese shaped, of fine quality and flavour, of the type of the old ironbark.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Hubbard Squash—☉

Equal in quality to ironbark pumpkin.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Red or Golden Hubbard

Very good. Pkt., 6d.; oz., 1/3.

Page Twenty

New Blue Hubbard

A new Hubbard squash, with a rich blue-green skin and the quality of an ironbark pumpkin. Pkt., 6d.; oz., 1/3.

Warted Hubbard

Equal if not superior to original Hubbard. Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6.

Banana

A fine flavoured winter squash.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Trombone or Rio Gramma—☉

Best of all pie pumpkins or squashes.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 5/3; lb., 15/.

Japanese Pie

Similar to the above; very solid.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 3/9.

Golden Oblong

Fine oblong pie pumpkins, about 10 inches in diameter and 15 inches long.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3.

DELICIOUS and JONATHAN also stocked.

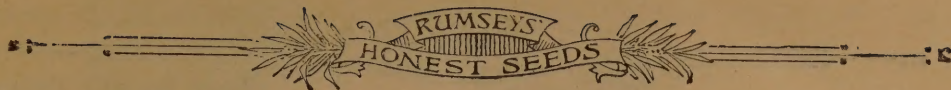

Large Pumpkins

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Globe Mammoth

Hundredweight

Mammoth Whale (Squash)

Forcing Tomatoes

The extra early tomatoes of the cluster fruiting type are a fair marketable size, though not large.

Helvetia—☐

This tomato is gaining in popularity every year.

Helvetia is a red cluster tomato producing fruit of a commercial size, up to two or three inches in diameter. It is an enormous cropper and if the fruit is systematically thinned they reach a fair size. Helvetia has proved not only a good early spring crop, but in the coastal districts it is unsurpassed for autumn planting, and may be put out several weeks later than Earliana and Early Pride class of tomato.

Helvetia is thus concisely described by an enthusiastic gardener. "It is a most prolific setter of fruits at any old time and under any old conditions."

Pkt., 6d.; $\frac{1}{2}$ oz., 3/6; oz., 6/- post paid.

Walker's Selected Recruit

This tomato is of a similar type to the Helvetia. It is a large fruiting prolific sport from an English tomato, known as the Recruit.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Victoria Whole Salad

As many as 373 tomatoes have been counted on one plant at a time. The size is from two to two and a half inches in diameter, and the weight up to three to four ounces each.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Commercial

The variety has proved very popular, and is being largely grown for early and late markets.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/-.

Adelaide Dwarf Or Chinese

This is the variety that is largely grown in South Australia for the early market. The colour is a bright red.

Pkt., 6d.; oz., 4/6; $\frac{1}{4}$ lb., 12/6.

Early Tomatoes

Sunnybrook Earliana—☐

See illustration inside front cover.

Produces large smooth fruits of great uniformity. During recent years this variety has become the most popular for early market in N.S.W. Ripens fine smooth scarlet fruits fully 5 days earlier than other strains. Fruits are of high quality, fleshy and juicy.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/-; lb., 30/-.

Early Pride—☐

A pink Earliana, but better than any Earliana, more prolific, better fruit, more even in shape and size. Three-quarters of an acre yielded 7 tons, and sold for £180 at Inverell.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/-; lb., 30/-.

Avon Early

An early scarlet fruited tomato of the Earliana type, differing very slightly from that well-known variety.

Pkt., 6d.; oz., 3/6; 4 oz., 10/6; lb., 32/6.

Burbank

We have grown a number of plants of this tomato and find it to be the earliest large tomato and one of the most productive. Most of the fruits are quite round and smooth. The flesh is firm and of good quality.

Pkt., 6d.; oz., 3/6; 4 oz., 10/6; lb., 32/6.

Earliana

A very productive, even-shaped red variety.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Kondine Red

Extra early of bunch type, grown largely under glass.

Pkt., 6d.; oz., 5/-.

Eldorado

A very large English show tomato with skin like enamel, good under glass.

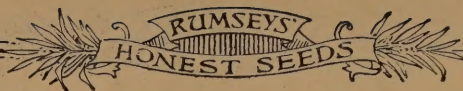

Pkt., 1/-; $\frac{1}{2}$ oz., 7/6; oz., 12/6.

"THE AUSTRALIAN TOMATO BOOK"

(By Herbert J. Rumsey)

The most complete work published in Australia on this most important crop. Deals with all phases of growing and harvesting. Even as recipe book it is worth its small cost.

Second edition revised and enlarged, 2/1, postage paid.

Second Early Tomatoes

FINE NEW TOMATO "IDEAL"

This is a red skinned Livingstons Globe, suitable for both garden and greenhouse culture, showing resistance to Fusarium Wilt. The globe shaped fruits are medium size, bright scarlet, about the same season as Bonny Best. Recommended for canning, home garden and market.

Packets only 1/- and 2/6

Bonny Best—

An early smooth scarlet tomato of good size, solid, meaty, and of good flavour. A good cropper. Since we first introduced this tomato in 1915 its popularity has increased every year. It is now one of the most popular market varieties being the standard sort for Bathurst district. Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/-; lb., 30/-.

John Baer

Practically the same as Bonny Best. Pkt., 6d.; oz., 3/-.

Chalk's Early Jewel—

One of the best acquisitions of recent years. Fruit, red, meaty. Very good cropper.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Collossal

Is a large red tomato more prolific than Ponderosa, and of even large size, very solid, and free from core.

Pkt., 6d.; oz., 4/-.

Burwood Prize

Our specially selected strain of this tomato is very fine, yielding fine fruit very free from blight. The potato leaved foliage makes it very handsome as a plant.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Fordhook First

Large round, deep purple; does well on heavy soils.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 9/-.

Livingston's Globe—

Of distinct Globe shape, and occasionally slightly elongated. A beautiful early purple variety, fine for slicing, smooth, firm, and ripens evenly.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Main Crop Tomatoes

Livingston's Manifold—

Said to be the earliest of the big red sorts, and is red both inside and out, red to the very core. It ripens five or more to the cluster.

Pkt., 6d.; oz., 5/-; $\frac{1}{4}$ lb., 16/-.

Matchless—

This is the largest and best of the late red tomatoes. The illustration on cover gives a true representation of this tomato at its best. It is a heavy cropper, and a good market variety, ripening very evenly if picked when commencing to change colour. Specimens frequently reach 12 to 18 ounces in weight.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Livingston's Beauty

Large, solid smooth purplish pink.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Ponderosa

This tomato may be relied upon to give some enormous specimens, large late red tomatoes, probably the largest of any sort, but it is hardly to be classed as a reliable market sort.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Livingston's Stone—

The standard late sort for canning and jam factories. Immense cropper, fine flavoured, bright red, perfectly smooth.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Dwarf Stone

A bush type of the above well-known tomato.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

San Jose Canner

A super-selected strain. Bred for smoothness, weight, solid flesh, and brilliant scarlet fruits.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Buckeye State

The largest perfectly smooth tomato; fruit forms and ripens in large bunches; skin tender, making it liable to crack with changes of weather.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Trucker's Favourite

Fine large, purplish-red, best for northern climates.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Burpee's Dwarf Giant

A dwarf *ponderosa*, fruit large and meaty, rich purplish crimson.
Pkt., 6d.; oz., 7/6; $\frac{1}{4}$ lb., 20/-.

New Tomato Oxheart

A large meaty tomato, quite distinct from any other sort.
Pkt., 1/-; oz., 7/6.

Livingston's Coreless—

About the finest flavoured dessert tomato. Good for slicing; very solid; good market sort.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/-.

Resistant Tomatoes

The following varieties have been bred for their resistance to *Fusarium* wilt—one of the most troublesome of the tomato pests. So far no varieties have been found entirely resistant to Bronze or spotted wilt.

Rumsey's Greenhouse Special

A variety for growing under glass. In shape, similar to Bonny Best and said to be 100 per cent. resistant to *Fusarium* wilt. The vine is vigorous, without a super-abundance of foliage.
Pkt., 1/-; $\frac{1}{2}$ oz., 5/6; oz., 10/-.

Marvana

The earliest of the varieties of tomato, specially selected for their resistant properties. The vine is similar to Earliana being rather open and flat, and not large. It is claimed to be a cross between Marvel and Earliana.
Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Bowen Buckeye

A Queensland variety which is a prime favourite with growers in that state and largely used for shipping in early spring.
Pkt., 6d.; oz., 6/6; $\frac{1}{4}$ lb., 20/-.

Dennisonia

Another production of the Queensland Agricultural Department which has proved to be a wilt resister and very prolific; it is almost apple-shaped.
Pkt., 6d.; oz., 6/6; $\frac{1}{4}$ lb., 20/-.

Marglobe—

A variety specially bred for resistance to *fusarium* wilt. A main crop scarlet smooth solid and globe shaped. A very fine variety for market.
Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 32/6.

Norton—

This tomato is causing a lot of attention in America on account of its wilt-resisting qualities. It is a variety very similar to "Livingston's Stone" tomato that has been greatly in favour amongst our customers.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/-.

Yellow Tomatoes

Pkt., 6d.; oz., 4/6; $\frac{1}{4}$ lb., 12/6.

Livingston's Golden Queen—

This is a fine, large, smooth variety, of a bright yellow colour, and fine flavour.

Yellow Prince

Dwarf type. Fruits large and smooth

Yellow Ponderosa

A large yellow tomato, of the *Ponderosa* type, having a very meaty fruit.

Small Fruited Tomatoes

Pkt., 6d.

King Humbert

Immense bunches of prune-shaped fruit; disease resistant.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb. 10/6.

Yellow Pear

Red Pear

Yellow Cherry

Yellow Plum

Red Peach

Red Cherry

Spinach

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/6; lb., 4/-.
(See also Spinach Beet).

Round Seeded

For Spring planting.

Prickly Seeded

For Autumn planting.

New Zealand or Sydney Harbour

Large leafed; hardy.

Scorzonera

A root vegetable not unlike Salsify. Perennial. Pkt. 6d.

Salsify (Oyster Plant)

Sandwich Island Mammoth

A delicious vegetable grown like parsnip. The boiled roots have a distinct oyster flavor.

Pkt., 6d.

Swede Turnips

Special quote for larger quantities.

Laing's Garden Swede—

Best and sweetest. A small swede for home use.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

Danish Bangholm—

The best flavoured and most nutritious of the swedes. Purple top.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/9; lb., 5/-.

Imperial Purple Top

Large size, and good quality.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/-.

Champion Purple Top—

Yellow flesh, first class quality.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/-.

Elephant or Monarch

Very large heavy cropper.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/9; lb., 4/6.

Kelway's Perfect Model

A very fine English variety of Swede turnip, good for table or stock use, very tender.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/9; lb., 8/6.

White Fleshed Neckless

Skin and flesh white. Roots large and solid. Good table variety.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

White Turnips

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/6; lb., 6/-.

White Stone—

Good early sort.

White Nepal

Early, flat-shaped.

Early White Model

Small tops, a perfect gem.

Jersey Lily, or Snowball

Perfectly round, snow-white, and very early.

Orange Jelly—

The best of all this class of turnip, flesh yellow, and not strong flavoured.

The Favorite

Flesh white firm, and sweet.

Vine Fruit

Under this heading we are placing several more or less different things that are often grown in the vegetable garden.

Gourds

Mixed Ornamental Gourds

They are in some cases useful as well as ornamental.

Large Mixed 6d.; Small Mixed 6d., pkt.

Pipe Gourd, or Calabash

This is the gourd from which the Calabash pipes are made.

Pkt., 6d.

Page Twenty-Four

Loufa

The fibrous skeleton of this gourd is used as a bath sponge.

Pkt., 6d.

Gauda Bean

Not a bean, but a cucumber-like gourd, growing to a great size in warm situation.

Pkt., 6d.

Nest Egg

A small hard shelled egg shaped whitish gourd, about the size of an egg. Pkt. 6d.

Melon Peach

Not unlike a Rock Melon, may be sliced and fried like Egg Plant. or made into preserves. Pkt., 6d.

Vine Fruits (cont'd)

Passion Fruit

The passion fruit has become a very important commercial crop. As a money maker the common passion planted out in frost free localities, in late spring for a winter crop is unrivalled. Our seed stock is the best available for this purpose.

Common Passion

(*Passiflora edulis*).—Best winter fruiting strain.

Pkt., 6d.; oz., 2/6.

Plants:—1/- each, 3 for 2/-; 5/- doz., post paid in N.S.W.

Mammoth Passion

These are free-growing vines, producing enormous fruit, but are not so much in demand as the common passion.

Pkt., 1/-; ¼-oz., 3/6; Plants 1/6 each, 3 for 3/-, post paid in N.S.W.

Banana Passion

(*Tacsonia mollissima*).—This fine popular fruiting vine produces large crops of white fruit, that are greatly in demand for fruit salads. It is doubtful if the large quantities sold of the common passion will be equalled by this fruit, but so far it is a paying proposition. Banana passion is quite as hardy as the common passion.

Pkt., 1/-; ¼-oz., 2/6; Plants 1/3; three for 2/6, post paid in N.S.W.

Improved Banana Passion

(*Tacsonia Taylori*).—Much harder than the ordinary Banana passion, and suitable for really cool localities; the fruit is larger than the ordinary Banana and very fine. Seed when available.

Plants 2/- each. Post paid in N.S.W.

The Choko

A climbing vine of the cucumber family, doing well in the warmer districts. The fruit is somewhat like a rough lemon. It can be used boiled or baked as a vegetable, or with fruit flavouring for jam or tarts. We had over 300 fruits from one plant in one season.

The plants die down in winter and shoot again from the roots in early spring, lasting in this way for several years. The whole fruit must be sown to get a plant. Ready MAY to AUGUST.

1/6 each; 3 for 3/-, post paid. ORDER EARLY.

Strawberry Seed

It is very interesting to raise strawberry plants from seed, but as plants carry anywhere by mail, it is of no advantage for the average grower. We have seed in stock of the following varieties, all grown in France—

Large Fruited, Mixed.

Alpine Bush, Red; Alpine Bush, White. All 6d. packet post paid.

MALABAR MELON (or Angel's Hair)

(*Cucurbita ficifolia*)

This quaint squash or gourd is not edible, or at any rate sufficiently tempting to warrant it being grown as a food plant. It is, however, an interesting novelty.

The fruit is oval, from eight to ten inches in length, and six to seven inches in diameter, with a very smooth, glossy skin of a dark green colour, striped and mottled with greenish white.

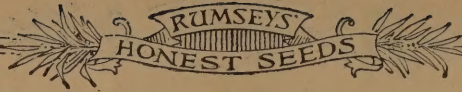

After being boiled, the thread-like pulp, or skeleton of the fruit, may be dressed in different ways. In the Spanish American countries of South America, it is largely grown under the name of "Cabellos de Angel" or Angel's Hair.

This is a very interesting plant for the children to grow, it would induce them to take an interest in growing things, which, once implanted in them, will probably stick to them through life.

Per pkt., 6d. Post paid.

THE CHOKO

Potatoes

Grasses and Farm Seeds

Where prices are given they are freight or postage extra. For rates see page 76.

Owing to constantly fluctuating prices for farm seeds we cannot quote prices in this our annual catalogue except for a few special lines.

We will always be pleased to quote customers current rates by return mail. Our quotes include bags, but not freight.

SOMETHING SPECIAL IN SEED POTATOES

We have this year made special arrangements to procure our stocks from crops certified free from virous diseases and of high average yield. It is to your advantage to procure the best. As supplies will be limited orders should be booked early to avoid disappointment. Factors, (almost identical with Up-to-Date), Early Rose, Carman and Satisfactions. Available from June.

Lawn Grasses

2-lb. Seed required per 100 square yards.

We can supply heavily re-cleaned seeds specially for lawns as follows:

Lawn Couch—3/- lb.

Couch Grass roots—12/6 sack.

Special Evergreen Lawn Mixtures—3/- and 4/- lb.

Buffalo Grass (Roots Only)—2/6 100; 17/6 1,000.

Kikuyu Grass (Roots only)—7/6 100; 52/6 1,000.

The following are also supplied in season—all re-cleaned and tested seeds.

Hunter River Lucerne

This is by far the most valuable fodder plant we have and should be grown everywhere. It requires lime and plenty of water to succeed. In fact, in few parts of Australia is there sufficient water from annual rainfall to get the best results this plant is capable of.

Nearly five hundred poultry farmers and others have installed Skinner system on small plots of lucerne for feed purposes. The results have been almost phenomenal. A few larger growers have also realised the value of the system for securing six or seven cuts of lucerne per annum.

BEST BROADLEAF GIANT

2/- per lb.; 28-lb. at 1/9, freight extra.

Clovers (Varieties)

Other Leguminous Crops

Cow Peas, Soy Beans, Velvet Beans, Field Peas, Kudzu Vine, Lupins, New Zealand Blue.

Other Farm Seeds

OATS—Varieties.

PASTURE GRASSES

Rye, Cocksfoot, Prairie, Rhodes, Paspalum, Phalaris, Kentucky Blue, Fescue, Timothy, and others.

MILLETS.

RAPE.

SEED WHEAT—Varieties.

BARLEY—Varieties.

SUGAR BEET—(Wanzleben).

SUNFLOWER—Large Russian.

SUDAN GRASS—Guaranteed free of Sorghum hybrids, etc.

SORGHUM.

MANGOLD.

SEED MAIZE.

Flower Seeds

LEAFLET ON HOW TO RAISE SEEDLINGS ON REQUEST

H.A.—Hardy Annual; sow February to April, and August to October.

H.P.—Hardy Perennial; sow March to May, and September to November.

T.P.—Tender Perennial. Plants for bush-house and verandah culture. Sow in Spring.

H.B.—Hardy Biennial, sow March to May, and September and October.

T.A.—Tender Annual; sow September and October, and later in warm climate.

Abronia, H.P. (Trailer). 6d.

Verbena like flowers, sweet scented. Sometimes called "Sand verbena."

Acroclinium, H.A. 3d.

DOUBLE—Dwarf, mixed colours.

DOUBLE WHITE—Useful for wreaths.

Ageratum, H.P. (Border Plant).

MEXICANUM—Showy plants growing up to two feet in height, with clusters of lavender blue flowers. 3d.

TOM THUMB—Dwarf mixed. A fine bedding variety. 6d.

Amaranthus, T.A. (Foliage Plant).

TRICOLOUR (Joseph's Coat)—Yellow, red and green. Pkt. 3d.

COLEUS LEAVED—Very brilliant colors. Pkt. 3d.

CAUDATUS—(Love lies bleeding). Pkt., 3d.

COMBUSTION—The latest and most showy of all the Amaranthus tribe, with iridescent fiery rosy crimson foliage. Pkt., 6d.

Alyssum, H.A. (Sweet Alice). 3d.

LITTLE GEM—Bedding Plant, white fragrant.

LILAC QUEEN—Beautiful soft lilac flowers changing to white as they age. A free and continuous bloomer of trailing habit. Pkt. 6d.

COMPACT YELLOW—Fine for edging. Perennial.

Ammobium, H.P. (Everlasting). 3d.

ALATUM—Large white flowers.

Anchusa, H.A. & P. (Bugloss)

BLUEBIRD—A new annual variety. Somewhat resembles Forget-Me-Not. Pkt., 1/.

Anemone, H.P. (Windflower). 6d.

CORONARIA—Well-known spring bulb.

ST. BRIDGID—The Irish Poppy Anemone.

Antirrhinum—See Snapdragon.

Aquilea, H.P. (Columbine)

Mrs. SCOTT ELLIOT HYBRIDS—An exceptionally fine, free blooming strain of varied colours. Pkt., 1/.

LONG-SPURRED HYBRIDS—Wonderful profusion of colours from blue to chocolate, pink and scarlet. Pkt. 6d.

CHOICE MIXED—Very fine double variety. Pkt. 3d.

Arctotis, H.A. Blue-eyed African Daisy

GRANDIS—White, centre blue, bud lilac-blue. About two feet high, stands dry weather. Pkt. 6d.

Balsam, T.A. (Ladies' Slipper).

DEFIANCE—The finest strain of large double flowers. Good for borders or verandah plants. Pkt. 6d.

CAMELLIA FLOWERED—Large size, and fine form. Mixed pkt., 3d.

Bartonia, H.A. (Gold Star). 3d.

AUREA—Thistle-like downy leaves, yellow flowers, two and a half inches in diameter.

Begonia, T.P. (Bedding, Mixed).

Beautiful everblooming herbaceous plant, suitable for bushhouse or verandah. Pkt., 6d.

Boronia, H.P. (Scented). 1s.

MEGASTIGMA—The well-known Brown Scented Boronia, sometimes called "Melbourne Boronia" though it is a W. Australian native.

Brachycombe, H.A. (Swan River Daisy). 6d.

IBERIDIFOLIA—Blue and White Flowers.

Calceolaria

HYBRIDA MIXED—Pkt., 2/6.

Calendula, H.A. (English Marigold).

CAMPFIRE—Brilliant Orange with crimson or scarlet sheen. Pkt., 1/.

RADIO—Quilled petals—quite a novelty, deep-orange in color. 6d. pkt.

ORANGE KING—Rich orange flowers, fully double, well rounded. Pkt., 6d.

LEMON QUEEN—Double to the centre, on long stems. Pkt., 6d.

DOUBLE MIXED—Golden striped flowers. Pkt., 3d.

Calliopsis, H.A. (Coreopsis). 3d.

Fine single flowers for cutting, blooms for many months. Plant out in shaded positions.

DWARF COMPACT—10 to 12 inches high.

DRUMMONDI (Golden Wave)—Dark Brown centre.

CORONATA—Bright yellow, maroon spots.

Campanula, H.B. (Canterbury Bells).

SINGLE MIXED—Various colors; free bloomers. Pkt., 3d.

DOUBLE MIXED—Very showy. Pkt., 6d.

CALYCANTHEMA—Cup and Saucer. Mixed colours. Pkt., 6d.

Candytuft, H.A.

GIANT HYACINTH FLOWERED—Magnificent spikes of pure white flowers. Pkt., 6d.

GOOD MIXED—A fine assortment. Pkt., 3d.

Canna, Herb. P. (Indian Shot). 6d.

CHOICE MIXED—Handsome ornamental foliage plants. A fine assortment may be grown from seed.

Snapdragons (*Antirrhinum*)

TALL LARGE-FLOWERING GIANTS

Separate colors or mixed, 6d. pkt. Trade pkt. 2/6.

We have tried to give some idea of the grace and beauty of these wonderful snapdragons in the colour plate on the inside back cover, but although it depicts the natural colours as well as the artist can paint them, nothing but the flowers themselves will give any idea of the great improvements made recently in these most useful flowers.

Our sales of this snapdragon have been phenomenal. We have not only sold hundreds of packets to private gardeners, but such varieties as Sunnybrook and Fordhook Rose have been in great demand for the cut-flower trade.

Apple Blossom

A delicate apple blossom pink with a contrasting yellow lip. A magnificent variety with well shaped flowers of immense size. Borne in long, solid spikes.

Sunnybrook

One of the richest and brightest of the giants. A blend of deep golden yellow, salmon and light orange. Solid and heavy spikes of massive blooms.

Fordhook Rose

A beautiful pink with a yellow spot on the lip.

Canary Bird

A popular and showy variety. Bright canary yellow, with a golden touch on the lip.

Orchid

A unique shade of lovely mauve-pink, with a touch of yellow on the lip.

Ruby

The darkest of this series. A distinct shade of deep glowing ruby-red. The tube is shaded with deep purple-carmine. The rich colours give it quite a velvety appearance.

Wallflower

Rich coppery crimson and yellow, reminding us of its namesake. Giant flowered and free blooming.

Giant Mixture

A fine blend of all the colours illustrated and many others. Quite satisfactory as the named sorts for the small garden.

Splashed and Striped Mixed

Very pleasing variety of colours. Pkt. 6d. Page Twenty-Eight

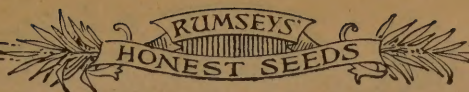

COLOR PLATE COLLECTION

One packet of each of the named sorts illustrated, six packets for 2/6. See inside back cover.

DWARF VARIETIES

DWARF MIXED—Compact habit, brilliant flowers. 3d. per packet.

New Majestic (Semi Tall Snapdragons)

These produce giant flowers on half dwarf stems. For florists work they are unexcelled.

Pkt., 1/-. Trade pkt., 2/6.

Majestic Delight

Flowers salmon pink shading to apricot with golden yellow centre.

Majestic Sunset

Shades from bright terra-cotta to lovely salmon.

Majestic Twilight

A true gem. Delicate apricot with gold centre and salmon shading.

Majestic Orange King

Flowers are a lovely blend of rich terra-cotta shades. Choice.

MAJESTIC COLLECTION

One packet of each of the above four varieties for 3/-.

INTERMEDIATE VARIETIES

White Rock

An immense flower of exquisite texture pure white. Pkts., 1/- and 2/6.

Philadelphia Pink

This ranks among the best of the Intermediate varieties. Massive spikes covered with rich silver-pink flowers. Florists variety

6 pkt. Florists pkt., 2/6.

Half Dwarf Fancy Mixed—Includes beautiful rich scarlet, fiery vermilion, rich rose, soft pink, salmon, buff, yellow, golden chamois and others, flowering profusely. The half-dwarf varieties are about the best for bedding and bordering purposes, and produce stems of flowers long enough for cutting, though not as large as the giant varieties. Our mixture contains nearly thirty varieties of shade and colour. 6d., per pkt. Bedding packet, 2/6.

Kelway's Up-to-Date.—A new strain of intermediate snapdragon of uniform height, and habit of growth. The range of colours is very varied, and the blossoms very fine for cut flower work. 6d. per packet.

Asters

NEW CALIFORNIA SUNSHINE ASTERS MIXED.—You should try these bright subject this season. Good for cutting. Pkt., 1/-.

CREGO GIANT or IMPROVED COMET.—Very vigorous, producing flowers of immense size, up to four or even five inches in diameter, and long stems, up to twelve inches. Their season is between the early and late varieties. Crego flowers keep well, and are very fine for table decoration. The petals are curled and twisted like chrysanthemums.

The colours are, shell-pink, rose, lavender, white, purple, crimson, and mixed. Six separate colors 2/-. Pkt., 6d.; Trade Pkt., 2/6.

AMERICAN LATE BEAUTY.—A distinct type they are more dahlia-like in form, and make a fine rounded bush from 2½ to 3 feet in diameter. They are, most of them, much later than other varieties of aster, and come into bloom after the others have finished. The wonderfully fine blooms are carried on strong stems, making them invaluable for cut flowers.

The colours are carmine, rose, purple, shell-pink, white, peach blossom, crimson, azure and mixed. Pkt., 6d. Trade Pkts., 2/6. Six separate colors for 2/-.

TASMANIAN BRANCHING MIXED.—These aster plants are well branched as their name implies, growing to two feet or more in height and covered in blooms of the short straight petalled type. Pkt., 6d. Trade packet, 2/6.

ROCHESTER MIXED.—These are an early flowering strain of the comet type. Pkt., 6d. Trade pkts, 2/6.

IMPROVED CALIFORNIA GIANTS.—This is an extra robust strain. It is noted for its immense flowers on long stems. The colours offered are peach-blossom, deep rose, light blue, white, dark purple and mixed. Price 1/- and 2/6 pkt. Three colours (our selection) for 2/6.

AMERICAN LATE BRANCHING, MIXED.—A splendid upright growing type, 2 to 3 feet tall, branching freely, forming fully double large round blooms, almost globular. Very fine for cutting. Pkts., 6d. and 2/6.

HEART OF FRANCE.—A ruby-red aster, flowers of excellent size and perfect formation. Flowering on long and strong stems. Plant two feet high. Pkt., 6d.

KING ASTERS MIXED.—Flowers of large size good substance with long narrow petals. The plants are very erect and two feet high. They are good for cutting and last a long while in water. Pkt., 6d.

SINGLE ASTERS.—Flower lovers are fast realising the value of the single flowers for decorative purposes, and large numbers of single asters are being grown for their graceful beauty. The single flowers vary from white, rose, pink, purple and crimson. Mixed, Pkt. 6d.

BORONIA MIXTURE.—This is a special mixture made up of most of the best varieties of aster for the small cut-flower grower or the home gardener, who wants a big bed for cutting. Pkt. 6d. Large Pkts. 2/6 and 5/-.

FORDHOOK FAVORITES.—An American selection of all the best types and colours of double Asters. Pkts. 6d.; Florists Pkts. 2/6.

Carnations, H.P. (Marguerite)

The Marguerite Carnations are the most satisfactory variety to grow from seed; they flower in from three to four months, and quite a large percentage are double.

ENFANT DE NICE—The result of crossing Improved Chabaud and Perpetual varieties. This is the last word in annual carnations. Many flowers are 2½ inches across and about 90% are doubles. 2/6 packets only.

CHABAUD GIANT IMPROVED—A new carnation of the marguerite type coming into bloom 6 months from seed and producing very large flowers highly clove scented. About 90 per cent of the flowers come double. Pkt., 1/6.

CHOICEST MIXED—A very fine strain of American seed. Pkt., 6d.

GOOD MIXED—A fine selection. Pkt., 3d.

CHABAUD GIANT IMPROVED

Celosia, T.A. (Plumed). 6d.

MAGNIFICENT—Each branch or stem of this beautiful shrub is tipped with a pointed head of richly coloured bloom which later develops into a loose, plumed head of the most brilliant colours; shades of orange and yellow, pink, scarlet and crimson.

DWARF FEATHERED VARIETIES, MIXED—A fine collection.

PLUMOSA, or CHINESE WOOLFLOWER—We first saw this quaint new celosia at Floral Park, near New York, and greatly admired the beautiful ball-like heads of flower produced in profusion every tip of every plant. Pink, Crimson and Yellow Mixed Pkt. 6d.

Celosia, T.A. (Cockscomb). 6d.

MAGNIFICA CRISTATA—Immense velvety heads very suitable for borders.

Centaurea, H.A.

IMPERIALIS—Beautiful for cut flowers; plants three feet high. Graceful and beautiful. Fine mixture. Pkt., 6d.

AMERICANA—Unique, thistle-like flowers, light lilac colour; very desirable for table decorations. Pkt., 6d.

SAUVOLENS—Brush-like, large yellow flowers Pkt., 6d.

CYANUS (Corn Flower) Double Blue—Pkt., 3d. Double Mixed 3d.

MARGUERITE—Double white, deliciously scented. Pkt., 3d.

Chrysanthemum. (Annuals)

INODORUM—Double white flowers; fine for cutting. Pkt., 6d.

TRICOLOUR, Annual—Single "Painted Daisies." Pkt., 3d.

CORONARIUM—Double Mixed annuals various colours. Pkt., 6d.

Chrysanthemum. (Perennial)

The results of growing the double Chinese and Japanese Chrysanthemum from seed are usually so poor that we advise customers to purchase plants of named sorts.

Cineraria

These were at one time looked upon as plants for the Greenhouse, but in our genial coastal climate they make fine bedding plants.

HYBRIDA CHOICE MIXED—Seed from a very fine collection of this beautiful flowering plant. Pkt., 1/6.

Coleus, T.A.

These also do as well in the garden, especially during summer, but as pot and house plants they may be grown indoors or on sheltered verandahs during the winter.

FINE MIXED—Various colours. Pkt., 1/6.

FANCY FRINGED—Beautiful large leaves, cut and fringed on the borders. Pkt., 1/6.

Corn—Burbank's Rainbow, T.A.

Leaves are beautifully striped like ribbons, in crimson, yellow, white, green, rose, and bronze. They retain colour when dried and pressed. Pkt., 6d.

Cosmos, H.A.

GIANT MIXTURE—Large, graceful flowers on immense bushes. Pkt., 6d.

EARLIEST MIXED—Fine, large, very early flowers, with a large number of colours and shades. Pkt., 6d.

DOUBLE CROWN—The flowers come in all types of double and semi-double, some like miniature dahlias, others like asters, and any of them forming the daintiest decorative flowers imaginable. Some of the best of these set so few seeds that it is almost impossible to reproduce them in quantities sufficient to offer separately. Pkt., 6d.

Clarkia, H.A. 6d.

DOUBLE MIXED—Rosy purple, rose, salmon white, etc.

Cleome, T.A. (Spider Flower). 6d.

These make a delightful annual hedge when planted out in spring about four feet apart. They are wonderful honey plants.

PUNGENS—Purple.

Clianthus

DAMPIERII—This is the well-known Desert Pea. Its huge, unique flowers are particularly striking. Pkt., 1/6.

PUNICEUS—New Zealand Glory Pea. Pkt., 1/6.

Cyclamen, P.B.

Beautiful verandah plants. Pkt. 1/.

Dahlia. (Perennial Bulb)

Dahlias give very satisfactory results when grown from seeds. The little plants nearly all flower the first season, but it is not until the second season that they reach full perfection.

DECORATIVE MIXED—Choice strain; best show types. Pkt. 1/.

POM POM—Small, neat, double flowered. Pkt. 6d.

CACTUS FLOWERED—Choice strain from double flowers. Pkt. 1/.

COLLARETTE—Doubles and semi-doubles; very handsome. Pkt. 6d.

PAEONY FLOWERED—A choice strain of this popular type. Pkt. 6d.

SINGLE MIXED—Useful for cut flowers. Pkt. 3d.

BORONIA MIXED—All types in mixture. Pkt. 6d.

Daisy, H.P. (Bellis Perennis). 6d.

FINE DOUBLE MIXED—Fine for borders.

Daisy, H.P. (Shasta). 6d.

ALASKA—Best florists strain. Fine large flowers with small centres. Pkt., 6d.; 1/2 oz., 3/; oz., 9/.

Datura, H.A. (Angel's Trumpet) 6d.

CORNUCOPIA (Horn of Plenty)—The Mouth of the trumpet is a creamy white, and the outside marbled with deep purple. Double mixed, Pkt. 6d.

Delphinium, H.P. (Perennial Larkspur)

Most beautiful spikes of flowers, ranging from white through all shades of blue to the deepest indigo, some of them with shadings of bronze. Once established they are a thing of beauty and a joy for ever.

HOLLYHOCK STRAIN MIXED—Wonderful type with stately spikes of large single, semi-double and double blooms. Pkt., 2/.

BELLADONNA IMPROVED—Greater than the old strain of this popular blue variety. Flowers larger and brighter. Pkt., 1/.

GOLD MEDAL MIXTURE—A splendid assortment, including the fine indigo blues, as well as the lighter colours. Best New Zealand seed in mixture. Pkt. 1/.

BLUE BUTTERFLY—A new neat and distinct class of delphinium, free blooming and a great acquisition. Pkt. 6d.

Diascia Barbarae, H.P.

A lovely dwarf plant with flower spikes 12 to 18 inches high. Rose pink blossoms with tint of salmon. Yellow throat dotted with apple green. Pkt. 1/.

Didiscus (Blue Lace Flower), H.H.A.

COERULEUS—A native of Western Australia. Very dainty. Pkt., 6d.

Dianthus, H.A. & P. (Pinks)

Some of the old favourite pinks have been improved, and new ones added to the list, making a wonderful variety of these deliciously scented flowers.

LACINIATUS MIRABILIS—Deeply fringed petals, two or three inches across; blotched and fringed. Pkt. 3d.

PICOTEE—A sweetly-scented, old fashioned type of Dianthus or Carnation. Very free flowering Pkt. 6d.

CHINENSIS (Chinese Pinks)—Clusters of small flowers mostly edged with white. Pkt. 3d.

SNOWBALL—Large white double flowers with a delicious fragrance. Double, Pkt. 6d.

FORDHOOK FAVOURITES—An American selection of the largest and best single and double flowers. Pkt. 3d.

ALLWOODII—A recent English introduction of perennial double carnation-like dianthus, that blooms right through the season. All the flowers, which are of many colours, are deliciously scented. Pkt. 2/.

Digitalis, H.P. (Foxglove). 3d.

FINE MIXED—Immense spikes carrying a solid mass of beautifully spotted flowers.

Dimorphotheca, H.A., 6d.

AURIANTIACA—The Golden Orange Daisy. Large daisy-like flowers of a coppery gold colour.

AFRICAN DAISY HYBRIDS—A score of new colours of the above.

EKLONIS—A perennial type commonly called Egyptian daisy. Flowers white with blue eye. Pkt. 1/.

Dolichos (Bush). 6d.

WHITE—This is a true bush form of the beautiful "Daylight" climbing vine.

Eschscholtzia (California Poppy)

SUNSET MIXTURE—A blend of all the most recent colours and shades, including orange-king, rose cardinal, scarlet and yellow, yellow and orange-red, primrose and pure white. Beautiful new colours. Pkt. 6d.

Freesia (Hardy Bulb). 6d.

LORENYIANA HYBRIDS MIXED—A beautiful selection of color. Easily grown.

Forget-Me-Not, H.A. (Myosotis)

DWARF MIXED—Pkt. 6d.

PALUSTRIS—The true Forget-me-not. Pkt. 1/.

Gaillardia, H.P. (Blanket Flower).

PICTA LORENZIANA—Large, gay-coloured double flowers. Pkts., 3d.

FINE MIXED—Large single flowers in blendings of red, scarlet, yellow and orange. Pkt. 3d.

KELWAY'S EXHIBITION—This variety is entirely distinct from the old race of Gaillardia. It has an enormous flower on long stems, and is very fine for cut-flower work. Our collection is saved from 12 different varieties. Mixed, 1/- per packet.

PORTOLA HYBRIDS—A new type of Gaillardia, golden yellow, marked with rich scarlet. Strong growth; free flowering. Pkt., 1/.

Geranium, H.P.

FLORADALE FANCY—The flower trusses of this fine variety are from 4 to 6 inches in diameter, and the individual flowers are often 1 1/2 inches across. This strain is one of the finest obtainable, and the variation in colours is very large. Pkt. 1/.

Geum, H.P.

MRS. BRADSHAW—A pretty perennial shrub, with orange-scarlet flowers. Pkt. 1/-.
LADY STRATHEDEN—Beautiful semi-double bright yellow flowers carried on well branching plants. Pkt. 6d.

Godetia, H.A. 3d.

FINEST MIXED—Charming annuals with flowers like azalias in lovely shades of rose, carmine, pink, and white.

Gomphrena (Globe Amaranth)

GLOBOSA, Mixed—Purple everlasting flowers, often used for edging. Pkt. 3d.
DWARF COMPACT—A superior strain. Flowers of many colours. Pkt. 6d.

Gilia, H.A.

TRICOLOUR—Dwarf free-flowering plants. Pkt. 3d.

Gloxinia, T.P.

GRANDIFLORA HYBRIDS MIXED—Finest selection. Large blooms. Must be grown in bushhouse or frame. Pkt., 2/6.

Gladiolus (Hardy Bulb).

FORDHOOK HYBRIDS—A most glorious collection of these beautiful flowers. We have flowered them in four months, from seed; most of the seedlings flower the first year, but the blooms improve in the second year. We could occupy a whole page in describing these flowers without doing full justice to them. Pkt. 1/-.

Gypsophylla, H.A. (Baby's Breath)

ELEGANS—Rose-coloured flowers. Pkt. 6d.
COVENT CARDEN—Sprays of wee, white flowers used for making up bunches of sweet peas and other lowers. Pkt. 6d.

Heuchera, H.P. (Coral Bells)

SANGUINEA SPLENDENS—Spikes of bell-shaped flowers coral red in color. Excellent border plant. Pkt. 1/-.
HEUCHERA—A superior strain. Flowers of many colours. Pkt. 6d.

Heliotrope, H.P. (Cherry Pie)

LEMOINE'S GIANT HYBRID—Of wonderful size and rare beauty. Colours from white through all shades of violet and blue to deep indigo. Pkt. 1/-.
HELIOTROPE—A superior strain. Flowers of many colours. Pkt. 6d.

Helianthus (Sunflower)

NEW RED—Chestnut red, tipped with yellow. Pkt. 6d.

CHRYSANTHEMUM FLOWERED—Perfectly double. Pkt. 6d.

SEEDLINGS OF STELLA—Diversified in form and habit; fine markings, primrose and lemon. Pkt. 6d.

MULTIFLORA, Double—Very showy; tall. Pkt. 6d.

SILVER LEAFED—Pretty foliage. Pkt. 6d.

MINIATURE—Useful for cut flowers. Pkt., 3d.

LARGE RUSSIAN—Pkt. 3d. For large lots see farm seeds.

Helychrysum, H.A. (Everlasting).

MONSTROSUM, Mixed—Hardy, free-blooming useful. Pkt. 3d.

Hibiscus, H.P.

GIANT MIXED—Moscheutos hybrids are very hardy and form large flowers on canes, 4 to 6 feet long. Bloom throughout summer. Pkt., 6d.

Hollyhock

SINGLE MIXED—The single varieties flower more continuously than the doubles, and are very showy in the border. All colors mixed. Pkt. 6d.

CHATERS DOUBLE—Beautiful long spikes, crowded with double flowers, three to four inches across, all of the brightest colours. White, light pink, maroon, rose, scarlet and yellow mixed. Pkt. 6d.

ALLEGHENY MIXED—Flowers are distinct in having edges of the petals finely fringed. They are large sized, semi-double, and show effectively the fringed character of the petals; a good range of soft rich colourings. Pkt. 1/-.

Honesty, H.B. (Satin Flower). 6d.

The silvery centre of the seed pods is used for decorative purposes.

Hunnemania, H.P. (Santa Barbara Poppy) 6d.

FUMARIAEFOLIA—Single, poppy-like flowers. Fine for cut flowers.

Iris (Hardy Bulb). 6d.

KAEMPFERI—The beautiful Japanese Iris.

Kaulfussia, H.A. 6d.

AMELLIODES—Blue; good for edging.

Kochia, H.A. (Mexican Fire Plant)

GIANT CHRISTMAS—A larger, bushier form, staying green much longer. Pkt., 6d.

Lavandula (Lavender)

VERA—True lavender. Pkt., 6d.

SPICA—Common lavender. Pkt. 6d.

Lobelia, H.A. (Edging Plant). 6d.

Lovely bedding plants with blue flowers.

Leptosyne, H.P. (Yellow Marguerite) 6d.

MARITIMA—Showy border plant; large flowers.

Lilium (Bulb)

REGALE—Royal lily of Thibet. White flowers flushed canary in throat with pink reverse to petals. Large blooms and many to each stem. Pkt. 1/-.

Linaria, H.A. (Toad Flax). 6d.

EXCELSIOR MIXED—New hybrids of this remarkable Lobelia-like flower.

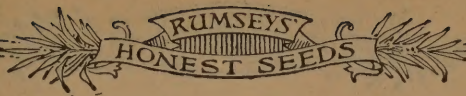

Linum, H.A. & P. (Flax). 3d.

GRANDIFLORUM RUBRUM—Annual crimson flax; beautiful and very showy.

PERENNE SIBIRICUM—Blue.

Lychnis, H.P. (Chinese Catchfly)

CHALCEDONICA—Bright scarlet; good for borders and shrubberies; also for cut flowers. Pkt., 6d.

Larkspur, H.A.

DOUBLE DWARF ROCKET—The branching spikes are thickly set with fine double flowers in varied colours. Pkt., 3d.

TALL BRANCHING—Double stock flowered. The old larkspur with its rather straggly flower spikes has never been very popular as a cut flower, but by careful breeding and selection new varieties have been evolved which are a great improvement. The colours are more varied and the individual florets larger and more beautiful.

Separate Colours—Dark blue, Lilac, Lustrous Carmine, Exquisite Pink Improved, Sky Blue and White, all at 6d. per packet.

Mixed Colours—Small packets of all the above colours mixed. 3d. packet.

Collection.—1 packet of each separate colours for 2/6.

LARKSPUR TALL-BRANCHING

African Marigolds, H.A. (Tall). 6d.

LEMON BALL—Petals heavily rolled, and flowers ball-like in form; very beautiful.

ORANGE BALL—A rich, brilliant orange.

French Marigolds, H.A.

GIANT TREE—(4ft. High). Hardy and very free flowering. Good cut flower line. Pkt., 6d.

LEGION OF HONOR—Bright single flowers. Pkt. 3d.

DOUBLE MIXED—All colours. Pkt. 3d.

Lupin, H.A. & P.

CRUICKSHANKI HYBRID—One of best annual blue lupins for cutting. Pkt., 6d.; oz., 2/6.

YELLOW TREE—A distinct variety, very hardy. Pkt., 6d.

ANNUALS MIXED—Fine for cutting. Pkt. 6d.

PERENNIALS, MIXED—Producing fine spikes of flowers. Pkt. 6d.

GIANT PEARL LUPINS

Pkt., 6d.; oz., 2/6.

Pink Pearl—One of the best things in cut flower line we have ever introduced. Sown about February, this beautiful annual will flower right through the winter in all but the colder localities.

White Pearl—Equal to Pink Pearl for size of bloom.

Blue Pearl—Similar in size and form to the Pink Pearl, but blue in colour.

MIXED—Pink, Blue and White

Marguerite Daisy, H.P. 6d.

CHRYSANTHEMUM FRUTESCENS — Bushy perennials; showy flowers.

Mathiola Bicornis (Evening Scented Stock). 3d.

Fragrant pink and lilac flowers, opening at night.

Matricaria, H.A. (Feverfew) 6d.

PARTHENIUM—Double White.

GOLDEN BALL—Fine yellow variety.

Mesembryanthemum, H.P.

CRYETALLINUM—Ice Plant.—Used for hanging baskets. Pkt., 6d.

TRICOLOR MIXED—Trailers, having flowers of various shades of pink, carmine and red. Excellent for rockery work, and are at their best during hot weather. Pkt., 6d.; ½ oz., 3/6.

Mignonette, H.A.

WHITE PEARL—Large, white sweet scented trusses. Pkt., 6d.

GOLIATH—Robust growth, spreading form; the large spikes frequently measure five inches in diameter. Pkt. 6d.

MACHET—Deliciously scented grey flowers. Pkt. 3d.

GOLDEN QUEEN—Florets golden yellow; scented. Pkt. 3d.

FORDHOOK MIXTURE—Embracing some of the finest types. Pkt. 3d.

Mimulus (Musk), Tender Pot Plants.

MOSCHATTS—Well known perennial. Pkt. 1/6.

TIGRINUS—Monkey Musk; annual; flowers tiger spotted and blotched. Pkt. 6d.

Dwarf Nasturtiums

DAVID BURPEE—Quite a distinct type of the dwarf Nasturtium. The plant makes a symmetrical bush of perfectly round formation. Pkt., 6d.
GORGEOUS MIXTURE—Dwarf; brilliant flowers. This mixture includes all the showy varieties of dwarf Nasturtiums with both light and dark foliage. Pkt., 6d.

Tall Nasturtiums, H.A.

FORDHOOK FAVOURITE MIXTURE—A truly giant race, comprising a large variety of colours in flowers of fine size. Pkt., 6d.
IVY LEAFED—Distinct in both flower and leaf. Mixed. Pkt. 1/-.
ORNAMENTAL LEAVED—Foliage yellow, white and green; flowers many bright, charming colours. Pkt. 1/.

Nemesia, H.A. 6d.

Dainty, compact growing annuals, flowering freely in many colours—white, pale yellow, purple, blood-red, rich orange, carmine, pink, rose, red, scarlet and crimson, spotted and blotched.

Nemophila, H.A. 3d.

MIXED—Shade loving plants, dainty sky blue flowers.

Nigella, H.A. (Love-in-a-mist) 6d.

MISS JEKYLL—A beautiful double cornflower blue.
DOUBLE WHITE—The best white, flowers peering from beautiful graceful foliage.

Oenothera (Evening Primrose) 3d.

MIXED—Free flowering bright flowers.

Pentstemon, H.P.

FLORADALE FANCY—A most beautiful collection of this Gloxinia-like flower, producing large flower spikes of beautiful colours, both light and dark, and twice the size of the older strains. Pkt. 1/-.
GOOD MIXED—A choice assortment. Pkt. 6d.

Perilla, H.A. 3d.

Beautiful dark-leaved foliage plants.

Phacelia, H.A. 6d.

CAMPANULARIA—Beautiful blue flowers.

Pansies, H.A.

MASTODEN MIXTURE—The Mastoden Pansies are of enormous size, and of great variety. They include white and dark centre, dark blue centre, and light blue centre, pure white, black, lavender, violet, blue, bronze, Royal purple, rose, cerise red, red with silver rim, mahogany, yellow, wine-coloured, red and gold, lavender and gold, with many varieties in each colour. Packets at 1/- and 2/6.

MASTODEN MASTERPIECE—A race of giant ruffled pansies, in rich, dark shades, blotched and marbled. Pkts., 2/- and 5/-.

LARGE FRENCH STAINED—A fine strain of exhibition pansies with beautiful markings and rich colours. Pkt., 1/.

EXTRA FINE BEDDING MIXED—Bloom profusely, and for a long time. Includes a large range of colours. Pkt. 6d.

GOOD MIXED—A fine mixture. Pkt. 3d.

Petunias, H.P.

DEFIANCE PETUNIA

SELECTED DOUBLE—A good, French strain. Showing a small percentage of doubles which should be propagated from cuttings when proved. Pkt. 2/-.

LARGE FLOWERING DEFIANCE—Flowers up to 5 inches in diameter, indescribably rich and varied. Pkt. 1/6.

ROSY MORN—A beautiful flower with a silvery white throat shading to rose pink on the edges. Pkt. 2/-.

ENCHANTRESS MIXTURE—A mixture of all the best varieties of bedding petunia. Pkt. 6d.

GOOD MIXED—Ordinary petunias in good mixture. Pkt. 3d.

Physalis Francheti, H.P.

CHINESE LANTERN PLANT—This ornamental variety of Cape Gooseberry is very useful and bears numerous fruits carried in a red husk giving them the appearance of Chinese Lanterns.

Physostegia, H.P.

VIRGINICA (Obedient Plant)—Does well in sandy loam in partial shade. Pretty pink flowers on spike 2ft. high. Pkt. 1/.

Polyanthus, H.P.

The old favourite of English gardens. Mixed colours 6d.

Portulacca, H.H.A.

DOUBLE MIXED—A fine strain, with very brilliant flowers in many colours. Fine for bedding. Pkt. 1/-.

GIANT PARANA—A quite distinct colour from other portulaccas. Bright bluish rose, making a most effective display through the summer. Pkt. 6d.

SINGLE MIXED—Various colours Pkt. 3d.

Primula, H.H.A.

MALACOIDES—This half-hardy Primula has been largely used as an edging or bedding in the garden, particularly in the coastal and warmer portions of New South Wales. It makes a very fine, showy bed, and does not grow too large. Mixed colours. Pkt., 6d.

SINENSIS—The Chinese primula is hardier than the English primrose in our warm climate and makes a very fine pot-plant for winter flowering or for bedding. It does best in a shady position. Mixed colours. Pkt. 1/.

SINENSIS STELLATA MIXED—A very pretty starred form of the Chinese Primula. Pkt. 1/-.

PHLOX DRUMMONDI

Apricot

A truly glorious shade of chamois-rose with a pure white eye in the centre.

Fordhook Crimson

A beautiful shade of crimson which combines well in mixed beds with other colours. Immense flower heads.

Fordhook Lilac

A bright soft lilac, set off by a white eye in centre of the flower.

Splendens

A brilliant variety of bright rich red with a contrasting small white eye in the centre of each floret. Excellent for bedding or cutting.

Giant White

Magnificent heads composed of many white flowers. A very useful variety.

Violet

Large flowers of a uniformity coloured bright violet. A free and continuous bloomer.

Colourplate varieties 6d. and 2/6
packet

One packet of each colour for 2/-

Fordhook Finest Mixed

A blend of the tall annual phloxes on the opposite page as well as other shades. Pkt., 6d.

Drummond Choice Mixed

A good assortment of the older type of phlox in various colours. Pkt., 3d.

Starred and Fringed

A large variety of these quaint hairy looking flowers in many colours. Pkt., 6d.

Pyrethum, H.P.

ULIGINOSUM—Bright shining white variety useful for cutting. Pkt. 1/-.
AUREUM (Golden Feather)—Pretty foliage plant. Pkt. 3d.
ROSEUM—Pretty single flowers of various colours. Pkt. 6d.
ROSEUM DOUBLE—A magnificent collection of new types of the hybrid perennial double pyrethums. Pkt. 1/-.
Ranunculus. (Hardy Bulb).
GIANT HYBRIDS MIXED—A beautiful new strain of this splendid spring flowering bulb. 6d.
Rhodanthe H.A. 3d.
MIXED—Everlastings in various colours.
Rudbeckia, H.P. (Cone Flower) 6d.
SPECIOSA BICOLOUR—Large flowers on long stems.
Salvia, H.P. (Flowering Sage)
The well-known, startlingly brilliant hedge plant or border bush.
FARCINACEA—Blue. 1/-.
SPLENDENS—The most vivid scarlet. 6d.
We can also supply **Blood Red**, 6d., and **Bonfire**, 1/- pkt.
PAEONY FLOWERED DOUBLE MIXED—Large flowers in a variety of color, grow to 3ft. Pkt. 3d.
AMERICAN LEGION (New Shirley)—The bright scarlet-red blossoms are most brilliant in full sunshine, a popular shade. Pkt., 3d.
DANISH FLAG—Striking single red flowers with attractive fringed edges, four white spots in centre form a white cross on a scarlet field. Pkt. 3d.
SHIRLEY (Re-selected)—All who have admired the delicate beauty of the Shirley Poppy will be delighted with this re-selected strain, of the finest colour. Pkt. 3d.
TULIP—Intense scarlet; enormous. Pkt. 6d.
DOUBLE CARNATION FLOWERED—Of dazzling richness, and in great variety of colours, white rose, scarlet, lilac, steel blue, and mahogany. Mixed, Pkt. 3d.
FORDHOOK FAIRIES—Beautiful Double Poppies. Pkt. 3d.
PERENNIAL HYBRIDS—Fine flowers for cutting shades of yellow and white, keep well in water. Pkt. 6d.

Poppies, H.A. & P.

Iceland Poppies

This beautiful variety of perennial poppy has proved very suitable for bedding, and cut flowers in our climate.

SUNBEAM—An extra fine strain of Iceland Poppy, particularly fine for cut flowers. The long stems and large blooms are quite distinctive. Pkt., 1/-.
COONARA PINKS—An Iceland Poppy of exceptional value to florists. Colour bright pink. Pkt. 1/-.
SUNBEAM GIANT ORANGE—A fine new cut flower-growers poppy, not only larger than ordinary, but the stems are long, and the flowers have up to eight petals, giving them a double appearance. There are various shades of orange blending well together. Pkt., 1/-. Florists pkts., 2/6.
GOOD MIXED—Special giant flowered strain. White, Pink and Yellow, mixed. Pkt., 6d.
Salpiglossis, H.A. (Velvet Flower)
EMPEROR—Very large, petunia shaped flowers with brilliant veinings. Many colours. 6d.
Sanvitalia Procumbens
A very charming little annual of dwarf growth, producing double flowers not unlike yellow zinnias. Pkt. 6d.
Schizanthus (Butterfly Flower)
"The poor man's orchid."
GIANT HYBRIDS—An exceptionally fine strain growing to 2ft. tall with a profusion of gaily coloured blooms. Pkt. 1/-.
WISETONIENSIS HYBRIDS—Most beautiful pot plants for the verandah or bush house; great variety of flowers. 3d.

Scabiosa H.A. & P. (Pincushion)

The Pincushions or Mourning Bride are amongst the most useful and hardy of cut flowers

Separate Colours 6d. pkt.

CANARY—Sulphur Yellow.

PEACH BLOSSOM—Pink,

SHASTA—White,

TALL DOUBLE ROSE—A delicate shade of rich rose, an unusual colour in scabiosa.

DOUBLE BLACK—A tall variety with deep blackish purple flowers and white pistils, very free bloomer.

DOUBLE RED—A very rich red, large and double.

AZURE FAIRY—Beautiful double flowers of a sky-blue colour.

TALL DOUBLE MIXED—Pkt., 3d. and 2/6.

DOUBLE DWARF MIXED—Fine for bedding. 3d.

CAUCASIA—A perennial with flowers of a very pleasing light blue in colour. Plants 2ft. high. 6d.

SCABIOSA COLLECTION

1 packet each of 7 separate colors for 2/6.
Post Paid

Sidalcea, H.P.

STARK'S HYBRIDS—Does best in cool districts. Pkt., 1/6.

Stevia, H.P. 6d.

SERRATA—Tiny star-shaped, pure white flowers.

Statice, H.P. (Sea Lavender). 6d.

Everlasting flowers; fine for cutting. We can supply Rose, True Blue, White and mixed.

Stokesia, H.P. 6d.

CYANUS (Cornflower Aster)—A very fine plant producing an abundance of lavender flowers.

Sunflower—See Helianthus.

Sweet Peas—See pages 38 and 39

Sweet Sultan—See Centaurea

Large Flowering Stocks

We do not offer any cheap seed of this favourite flower, it is difficult enough to secure a supply of doubles from the best seeds without spending time and money on what may prove a disappointment.

Ten Weeks Varieties—

We are stocking three separate strains American, English and French, the best available of each, and would advise customers who want to secure a fine assortment of the best doubles, to get a packet of each.

LARGE FLOWERING AMERICAN DWARF, Double—Including White, Canary-Yellow, bright pink, light red, light blue and purple. Packets 6d and 2/6.

KELWAY'S SPECIAL—A special selection of the best English variety of double ten weeks stock in a large variety of colours, 1/6 and 2/6.

LARGE FLOWERING FRENCH DOUBLE TEN WEEKS—A mixture from a collection containing blood red, bright rose, brown, red, carmine red, chamois, cropper carmine, copper rose, dark blood red, dark violet, grey red, light violet, pure white, rose, rosy white, and violet rose. 6d. and 2/6.

INTERMEDIATE VARIETIES

MAMMOTH BEAUTY OF "NICE"—These are the finest of all the stocks for cut flowers; they produce a very large percentage of double flowers, and although they will frequently flower the second year, they are best treated as annuals.

Colours:—White, Rosy Lilac, Light Blue, Flesh Pink, Crimson, Canary and mixed. 6d. packet.
Page Thirty-Six

Early Varieties—

GIANT PERFECTION DOUBLE—A fine group, especially for florists. Very early and free blooming. Produces a high percentage of doubles. We can supply Rose, Silvery Lilac, Canary Yellow, Blood Red, Snowdrift, Flesh, Violet and mixed. 6d. packet.

GIANT PERFECTION COLLECTION

1 packet each of the above seven separate colors for 2/6

DOUBLE GIANT IMPERIAL—Also known as Improved Bismark. Of branching habit, growing 24 to 30-inches tall. Produces a high percentage of doubles.

Colours:—Golden Rose, Antique Copper, Royal Purple. 1/6 pkt., 3 pkts for 2/6.

Late Variety—

BROMPTON—Extra choice. Some of the best varieties for flowering for several years in succession. 6d.

MAMMOTH NICE COLLECTION

1 packet each of the 6 separate colors for 2/6

Sweet William, H.P. (*Dianthus Barbat* *us*)

The old fashioned Sweet Williams should be in every garden, and particularly in the cooler districts, where they are very hardy. They produce the greatest variety of colour imaginable, and keep on flowering for a long time.

ANNUAL NEW—An entirely new type of Sweet William. Blooms freely first year from seed sown in early spring. Includes a wide range of colours. 6d.

CHOICE SINGLE—Mixed colours. Pkt., 3d.

DOUBLE MIXED—Many colours. Pkt., 6d.

Thalictrum (Herb. P.) 6d.

DIPTEROCARPUM (Lavender shower bush.)—Herbaceous perennial shrub, with ornamental leaves and lavender or purple flowers on long stems. It makes a good showy verandah plant.

ADIANTIFOLIUM—The flowers are pale yellow, with dainty fern like foliage.

Tithonia

SPECIOSA (Mexican Sunflower), 6d.

Torenia, Fournieri: T.A.

A very charming plant seldom seen, but very useful for beds or borders, or even for pot culture. The flowers are a velvety blue, with three large spots of darkest blue, and a bright yellow throat. 1/6 packet.

Tritoma, H.P. (*Kniphofia*)

EARLY PERPETUAL HYBRIDS—Massive orange scarlet flowers, spikes 3ft. tall. Pkt. 1/6.

Viola, H.A.

The old-fashioned Heartsease or Viola has come back into favour again, it makes a fine winter flowering bedding or border plant and does well in summer in the highlands. Mixed colours. 6d.

Verbena, H.P. (Trailing Plant)

FORDHOOK FAMOUS—A fine American collection of seeds in many colours, and of very fine size and brilliancy. Pkt. 3d.

HYBRIDA GRANDIFLORA ROYALE—Rich deep royal blue large creamy yellow eye. Enormous size individual florets, measure up to 1½ ins. across. Pkt. 6d.

HYBRIDA GRANDIFLORA ETNA—Large trusses of intense geranium red, small creamy yellow eye. Pkt. 6d.

Virginia Stock, H.A. (*Hesperis*)

MIXED—Red and white, 6d.

Vinca, H.P. (*Periwinkle*) 6d.

Splendid bedding or verandah plants.

Viscaria, H.A.

MIXED—Suitable for beds or borders. Showy five petalled flowers in many colors. Pkt., 6d.

Wallflower, H.B.

KELWAY'S Magnificent—Prize Double 1/6.

SINGLE MIXED—Various shades of yellow, red and brown. Pkt., 6d.

DOUBLE MIXED—A very fine collection. 6d.

AURICULA EYED—Distinct and beautiful. 6d.

Zinnia, H.A.

(See Illustrations Back Cover)

GIANT DAHLIA FLOWERED—Flowers of immense size, born on good sturdy stems. Plants make a compact bush 2ft. tall. A decided improvement on old types of Zinnia.

Separate Colors—See Color Plate. Exquisite rose; Dream, deep lavender; Canary Bird, primrose; Polar Bear, white; Crimson Monarch; Oriole, golden orange. Pkts. 1/6 and 2/6; ½ oz., 7/6; oz., 13/6.

Special Mixed—A fine assortment of the best colours. Pkts., 1/6 and 2/6; ½ oz., 5/6; oz., 10/6.

DAHLIA FLOWERED COLLECTION

1/6 pkt. of each of 6 colors for 4/6.
(See Color Plate)

NEW GIANTS OF CALIFORNIA—A magnificent new strain of Zinnias having large symmetrical flowers differing from the Giant Mammoth type, in that they are more loosely petalled, and more flattened in the centre. A very vigorous type, bushes growing 3 to 4 feet tall and 2 to 3 feet in diameter.

Enchantress—Rose-pink, Scarlet Gem, Rose Queen, Orange King, Purity-white, Lemon Queen. Pkt., 1/6 ½ oz., 4/6; oz., 7/6. Mixed, Pkt., 6d.; ½ oz., 3/6; oz., 6/6.

GIANTS OF CALIFORNIA COLLECTION

1 packet each of above 6 separate colors for 4/6.

GIANT MAMMOTH MIXED—Glorious huge flowers in bright colors. Fine for cutting. Pkt., 6d.; ½ oz., 3/6; oz., 6/6.

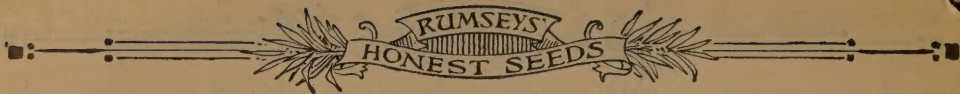

CHOICE DOUBLE MIXED—Various colours. 3d.

DOUBLE STRIPED or ZEBRA—Fine large blooms. 6d.

DOUBLE POMPOM—Mixed colours; choice. 6d.

MEXICAN—This is quite a new race of small Zinnias of great beauty. For bedding and bordering purposes they are unsurpassed. While sufficiently of the form of the old Zinnias to indentify them, they are dwarf, and quite distinct from them and they vary in colour and markings, being mostly yellow and orange, but many having quite distinct purple markings. Pkt. 6d.

JUMBLE PACKET—A mixed packet of flower seeds containing over 200 varieties. Suitable for children's gardens and waste corners. Pkt., 6d.

Sweet Peas

Early or Winter Flowering Spencers

*For best results sow from January to June
and have blooms throughout Winter and Spring*

Outstanding

Introductions for 1931

1 Packet of each for 5/-

RED BIRD—Uniform bright crimson red with velvety sheen. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

SILVER KING—Charming light Campanula blue and long stemmed. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

EARLY PAL—Long stem. Pleasing rich rose crimson. Vigorous and free flowering. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

APOLLO—Long stem. Soft salmon cerise. Very large flowers, splendidly waved. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

FORTYNINER—Strong growing orange with long stems. Much more vigorous than any as yet introduced. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

SPARKLE—Bright clear vivid sunproof scarlet. An early flowering Royal Scot. Pkt., 1/-; $\frac{1}{2}$ oz., 5/6.

DUPLEX FANDANGO—Bright rose-coloured flowers on long stiff stem. Pkt., 1/6; $\frac{1}{2}$ oz., 10/-.

Recent Introductions

1 Packet of each for 5/-

BLUE BONNET—Large fine deep blue. Not the slightest trace of mauve. Vigorous, long stemmed with many fours. Pkt., 1/-; $\frac{1}{2}$ oz., 3/6.

MRS. HERBERT HOOVER (The California Blue)—True blue colour, even better than Bluebird. Introduced by Burpee this year. Awarded gold medal, two silver medals and certificate of merit. Pkt., 1/-; $\frac{1}{2}$ oz., 5/-.

VALENCIA—Bright orange. Differs from other varieties of this colour in being vigorous, and large flowers are on long stems. Claimed to be sunproof. Pkt., 1/-; oz., 6/6.

BURPEE'S LAVENDER—Combination of length of stem, size of flower, purity of colour, and vigor, makes this great for cutting. Pkt., 1/-; oz., 5/-.

DUPLEX GEM—A soft rose pink on flesh ground, made more lovely by the duplex effect. Enormous flowers. Pkt., 1/-; $\frac{1}{2}$ oz., 4/6.

DUPLEX PIONEER—Another rose pink double flower with a profusion of flowers on long stems. Pkt., 1/-; $\frac{1}{2}$ oz., 4/6.
Page Thirty-Eight

General List

ORANGE KING—A beautiful glowing orange, and practically sunproof. The flowers are produced in bunches of four on long stems. A spray of this variety under artificial light is glorious. The richest and deepest orange-coloured winter sweet pea yet introduced. Pkt., 6d.; oz., 4/-.

SUPERIOR PINK—Beautiful rose pink, slightly flushed with salmon and without blue tints. Pkt., 6d.; oz., 3/6.

SNOWSTORM—This is by far the finest of all white winter flowering varieties. The flowers are extra large and of fine form. Pkt., 6d.; oz., 3/6.

MISS LOUISE GUDE—The colour of this lovely variety is a charming shell-pink throughout. Pkt., 6d.; oz., 3/6.

CHEVALIER—A true rose colour with just a suspicion of yellow toward the base. The flowers are of extreme size and well waved. Pkt., 6d.; oz., 3/6.

BLUEBIRD—This is a charming shade of blue, large and exquisitely waved. Blooms freely and continuously. Pkt., 6d.; oz., 3/6.

LAVENDER KING—A rich true deep lavender throughout. The fragrant flowers are of large size and beautifully waved form. Pkt., 6d.; oz., 3/6.

GLITTERS—Glitters and scintillates, with a fire-like sheen radiating over the flowers. The standard is a bright fiery orange and the wings are deep orange. Pkt., 6d.; oz., 3/6.

FLAMINGO—The broad and well waved standard is light orange with a suffusion of bright salmon. The wings are orange-pink. Pkt., 6d.; oz., 3/6.

VULCAN—Dazzling scarlet cerise—a colour sure to become very popular on account of its richness. The whole flower is suffused orange. Pkt., 6d.; oz., 3/6.

CRIMSON QUEEN—The best of all crimson varieties. Pkt., 6d.; oz., 3/6.

GRENADIER—Large flowers of rich poppy scarlet—long stems. Pkt., 6d.; oz., 4/-.

GLEAM—Large flowers of Geranium pink with an effusion of cherry pink. Pkt., 6d.; oz., 4/-.

ORIENTAL—Clear, deep cream blooms on long stems; many fours. Many standards are duplex, so that smaller number necessary to make a bunch. Pkt., 6d.; oz., 4/-.

MARINE—Largest true blue introduced. Standard, over 2½ inches; good stems; certificate of merit. Pkt., 6d.; oz., 4/-.

SUNRAY—Soft orange cerise on cream ground; stems long; well into season. Pkt., 6d.; oz., 4/-.

BEST 15 COLLECTIONS

1 packet of each of the above for 5/-

$\frac{1}{2}$ -oz. of each of the above for 20/-

Sweet Peas—continued

Winter Flowering

Sweet Peas

SPRINGSONG—A rich rose pink flushed with salmon. Beautifully waved or frilled. Pkt., 6d.; oz., 4/.

AMERICAN CHARM—A rich rose pink with sheer of salmon. A florists flower. Pkt., 6d.; oz., 4/.

GLORIOUS—Charming warm rose-purple, long stems. Pkt., 6d.; oz., 3/6.

PINK CHEROKEE—A variety of surpassing beauty; a fine pink suffused with salmon on a deep cream ground of vigorous, robust habit. Pkt., 6d.; oz., 3/6.

WHITE HARMONY—Stems long, flowers large and pure white, of grand substance. Pkt., 6d.; oz., 4/.

BRIGHT LIGHT—Flaming self scarlet, sun proof. Pkt., 6d.; oz., 3/6.

GIANT ROSE—Immense rose coloured flowers, as many as 5 on a stem. Pkt., 6d.; oz., 3/6.

SUNLIGHT—Bright rose-pink on cream-ground. The standard is an intense pink with a slightly richer tone in the wings. A most admirable flower. Pkt., 6d.; oz., 3/6.

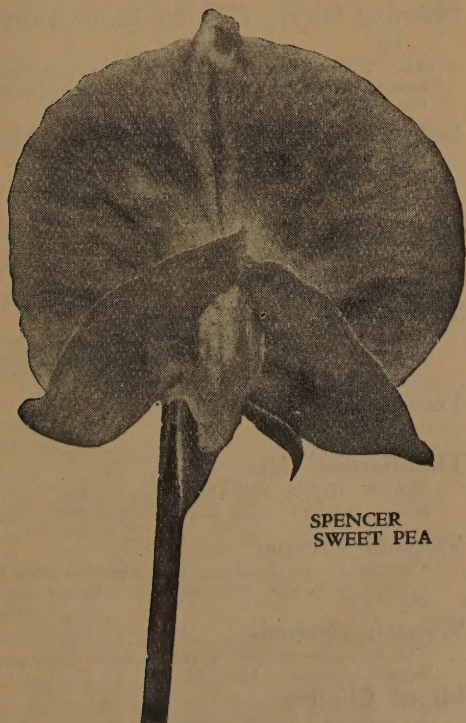

AUSTRALIAN WINTER MIXED—Packets 1/; oz., 3/.

PEACH BLOSSOM—Very showy, amaranth pink. Pkt., 6d.; oz., 4/.

AUSTRALIAN WINTER MIXED—Packets 1/ oz., 3/.

AMERICAN WINTER MIXED—Packets 6d. 2/6.

MASCOT MIXTURE—6d.; oz., 2/6.

SPENCER
SWEET PEA

Late Flowering

Spencers

These are still the best sweet peas for spring sowing in the mountains and cooler parts of Australia.

Will produce magnificent flowers right up to Christmas from Spring planting. From later planting they will keep a succession until late Autumn.

In coastal districts sow in April for Spring blooms.

Price:—Pkt., 6d.; oz., 2/6.

King White

Remarkable for the glistening purity of its whiteness and perfect finish of its mammoth size flowers.

Picture

A charming combination of cream and pink shades with a deeper flush on the wings. Large, well rounded, and beautifully waved blooms.

Mrs. Tom Jones

A bright Delphinium blue with flowers of large size and substance.

Powerscourt

A pure lavender variety with flowers of mammoth size yet refined and well placed on long stems. We recommend this as one of the best.

Royal Scot

A popular sweet pea with brilliant and lustrous orange-scarlet flowers with a deep cerise sheen. Large, well waved of good proportions.

Charity

The blooms are rich brilliant crimson, a colour which does not fade in the sun.

SUMMER FLOWERING COLLECTION

1 packet of each of six separate colours for
2/-. (Post Paid).

Burpee Blend

Summer flowering Spencers. A very fine mixture of all the best sweet peas of this type. There are hundreds of varieties in the collection from which this mixture is made. 6d per packet. Oz. 2/.

Sunset Mixture

A good assortment of different colours. 3d. per packet. Oz., 1/6.

Cupid Mixed

Dwarf growing sweet peas for borders. Pkt., 6d.; oz., 1/6.

SWEET PEA CULTURAL LEAFLET
SUPPLIED ON REQUEST

Seeds of Climbing Plants

Aristolochia (Dutchman's Pipe)

SIPHO—Yellow and purple. Pkt., 6d.
ELEGANS—Large variety, flowers purple and white. Pkt. 1/-.

Asparagus

Fern-leaved, a mixture of several of these hardy foliage plants. Pkt. 6d.

Balloon Vine

CARDIOSPERMUM or "Love in a Puff"—A graceful climber of rapid growth. Pkt., 6d.

Begonia Tweediana, H.P.

CHICKEN'S CLAW—Large yellow trumpet flowers and long seed pods. Evergreen. Pkt., 6d.

Cardinal Climber. (Ipomea cardinalis.)

The most beautiful annual that has been introduced for many a year.
 The vines grow rampantly, and are always covered with a wealth of the beautiful blossom; as fast as one flower dies, there is another to take its place. Seed, Pkt. 6d.
 Plants, from October to January, 6 for 2/-, post paid.

Canary Bird Creeper

A handsome climber with handsomely fringed yellow flowers and delicate foliage. Pkt., 6d.

Centrosema

BUTTERFLY PEA—A graceful creeper with pretty sweet pea like flowers. Pkt., 6d.

Coboea Scandens

A rapid growing climber, with large bell-shaped flowers of a deep purple colour. Pkt., 6d.

Convolvulus

MINOR—Pretty low trailing plant. Pkt., 3d
MAJOR—A very showy annual. Pkt., 3d.

Cypress Vine

A pretty creeper with delicate fern-like foliage and beautiful star-shaped flowers. Pkt., 6d.

Dolichos

DAYLIGHT—Fine spikes of snow white flowers. Pkt. 6d.

DARKNESS—Flowers reddish violet; pods same colour. Pkt. 6d.

LIGNOSUS—About the most rampant perennial climber and freest bloomer there is; useful for covering sheds.
 Pink and White. Pkt., 6d.

Eccremocarpus

A very fast, free-flowering creeper, graceful and beautiful. Pkt., 6d.

Ipomea

Mixed kinds, free flowering, convolvulus-like climbers. Pkt., 6d.

Kennedya

MONOPHYLLA—A native trailer with sarsaparilla-like leaves and blue flowers. Perennial and hardy. Pkt., 6d.

RUBICUNDA—A red flowering variety. Pkt., 6d.

Kudzu Vine, H.P. 6d

Grows to a great height; both useful and ornamental.
 Page Forty

Lathyrus Latifolius

Perennial Pea. Live year after year, bearing beautiful clusters of flowers; mixed. Pkt., 6d.

Lathyrus Pubescens

A beautiful blue perennial pea. Free climber. Pkt., 1/-.

Linaria Cymbalaria

Kenilworth Ivy. Trailing perennial. Used for hanging baskets. Pkt., 6d.

Loposphorum Scandens

One of the most beautiful climbing annuals; graceful fox-glove like flowers, rich rosy purple. Pkt., 6d.

Mandevilla

A hardy climber, with large snow-white jessamine like flowers, deliciously scented. Pkt., 6d.

Maurandia

Elegant alike in flower and foliage; suited for vases hanging baskets and light trellises. Pkt., 6d.

Mediola Asparagoides

SMILAX—A very graceful climber, the foliage useful for cut flowers. Pkt., 6d.

Mina Lobata

A truly gorgeous flowering annual vine; flowers cream and red. Pkt., 6d.

Moonflower. (Sky-Blue). 6d.

Immense sky-blue flowers cover the plant from top to bottom in a very short time from planting.

Morning Glory. (Double Snow Fairy) 6d.

The flowers appear like beautiful snow-white tassels, sometimes inside and sometimes outside the cone of the old single flower.

Friiled and Fancy Morning Glory, H.A. 6d.

Fancy ruffled and fringed flowers in great profusion

Passiflora

Varieties of passion flower, various coloured flowers. Pkt., 6d.

Snail Creeper

A free growing, hardy useful vine; covers fences with a leafy growth, and curious snail-like flowers. Pkt., 1/-.

Tecoma (Wonga Vine)

Crop Failed.

Thunbergia Alata

BLACK EYED SUSAN—Mixed colors, white, yellow and buff, with black centres. Pkt., 6d.

Virginia Creeper

The well-known deciduous vine which enlivens the autumn landscape with its gay coloured leaves. Pkt., 6d.

Wistaria Sinensis

This favourite creeper is easily grown from seeds, flowers lavender. Pkt., 6d.

Mixed Climbers

A generous packet, containing a good assortment of beautiful climbers. Pkt., 1/-.

Seeds of Australian Trees, Shrubs and Flowering Plants

Sow in well drained beds of sandy loam and keep shaded with brush or hessian until established. Soak Acacia seeds overnight in warm water before sowing to soften hard seed coat.

Most varieties listed are stocked regularly each season, but some have to be collected as required.

Acacia

Full List of Acacia on request.

ACCOLA—15ft.—Very ornamental and shapely. Pkt., 6d.; oz., 3/6.

BAKERI—Rare small growing species. Pkt., 1/-.

BUXIFOLIA (Box Leaved) 10ft.—Very suitable for tall hedges. Hardy. Pkt., 6d.; oz., 3/6.

DEALBATA (Silver Wattle)—Similar to black wattle in growth, but young foliage has an ashy hue. Pkt., 6d.; oz., 1/6.

DISCOLOR—15ft.—Sunshine Wattle. Pkt., 6d.; oz., 2/6.

ELATA—60 to 80 ft.—Cedar Wattle, very handsome tree in flower and foliage. Pkt., 6d.; oz., 3/6.

ELONGATA—10ft.—Handsome shrub. Pkt., 6d.; oz., 3/6.

ITEAPHYLLA—20ft.—Very symmetrical tree from Kangaroo Is. Hardy. Pkt., 6d.; oz., 5/6.

JONESI—6ft.—Very rare, most beautiful dwarf growing species, excellent for greenhouse culture in cold countries. Quite hardy at 2,000 ft. in N.S.W. Pkt., 1/-; oz., 5/6.

KETTLEWELLII—10ft.—Rare shrub, exceptionally hardy, growing on rough mountain-sides at 2,000 ft. in N.S.W. Recommended. Pkt., 1/-; oz., 6/6.

LEPROSA—8ft.—Hanging blossoms. Pkt., 6d.; oz., 3/6.

OBTUSATA—6 to 8 ft.—A shrub of great possibilities, producing a mass of bloom in the middle of winter in mountain districts of N.S.W. Recommended for indoor work. Pkt., 6d.; oz., 2/6.

PUBESCENS—12ft.—One of the most graceful varieties. Unexcelled for indoor work. Seed scarce. Packets only, 2/6 and 5/6.

Actinotis

HELIANTHI—2ft.—Flannel Flower—Herbaceous perennial white flowers. Pkt., 1/-.

Angophora

LANCEOLATA—100ft.—Good shade tree. Pkt., 6d.; oz., 3/6.

Angiozanthus

MANGLESII—Kangaroo Paw—Small plant with handsome velvety green and red flowers. Pkt. 1/-.

Araucaria

BIDWILLI—150ft.—Queensland Bunya Bunya, 10 seeds 1/-, post paid in Australia. 100 seeds 6/-, 1000 seeds 50/-, freight extra.

Brachychiton

ACERIFOLIUS—50ft.—Flame Tree. Pkt., 6d.; oz., 3/6.

DIVERSIFOLIA—60ft.—Kurrajong. Pkt., 6d.; oz., 2/6.

Callistemon

LANCEOLATUS—8ft.—Crimson Bottle brush. Pkt., 6d.; oz., 3/6.

Ceratopetalum

GUMMIFERUM—30ft.—N.S.W. Christmas Bush. Excellent for garden specimens or tall hedges. Pkt., 1/-; oz., 5/6.

Callitris

MUELLERI—35ft.—Cyprus Pine. Pkt., 6d.; oz., 2/6.

CALCARATA—80ft.—Black Murray Pine. Pkt., 6d.; oz., 2/6.

ROBUSTA—100ft.—Western White Pine. Pkt., 6d.; oz., 2/6.

CUPRESSIFORMIS—40ft.—Very ornamental. Pkt., 6d.; oz., 2/6.

Casuarina (Australian Oaks)

Several varieties. Pkt., 6d.; oz., 2/6.

Eleocarpus

CYANUS—30ft.—Blueberry Ash or Lily of the Valley Tree. Extremely ornamental and will stand close cutting for hedge purposes. Pkt., 6d.; oz., 2/6.

Eucalyptus

We can supply over 60 varieties of Australian gum trees. List posted on request. Following are most popular:

CORYNOCALYX—100ft.—Sugar Gum. Planted for breakwinds and timber. Pkt., 6d.; oz., 2/6.

SIDEROXYLON—120ft.—Ironbark. Timber of great strength. Pkt., 6d.; oz., 3/6.

LARGE FLOWERED EUCALYPTUS including *E. ficifolia* (Scarlet), *E. calophylla rosea* (rose) and *E. Leucoxydon rosea*, 1/- pkt.

Grevillea

ROBUSTA—60ft.—Silky Oak. Pkt., 6d.; oz., 4/6.

OTHER VARIETIES, including low growing species, 1/- pkt.

Melaleuca

Flowering Tea Trees, 1/- pkt.

Macadamia

TERNIFOLIA—25ft.—The Australian Nut. The world's finest nut, useful and ornamental. Hand picked selected seeds. 1/2 lb. 1/6, post paid. 1 lb. 2/-, 100 lbs. 1/6 lb. Freight extra.

Macrozamia

SPIRALIS—Burrawang Palm. One of the most ornamental Cycads. 10 seeds 1/6, 100 seeds 15/-, post paid.

Sterculia

See Brachychiton.

Syncarpia

LAURIFOLIA—200ft.—Turpentine tree. Pkt., 6d.; oz., 3/6.

Telopea

SPECIOSISSIMA—10ft.—N.S.W. Waratah. Glorious shrub for specimens or group planting. Pkt., 1/-; oz., 10/6.

Tristania

CONFERTA—150ft.—Brush Box. Shade and shelter tree. Pkt., 6d.; oz., 3/6.

"Blighty"

(COPPER CARBONATE OR BURGUNDY MIXTURE)

We have obtained the sole rights to manufacture this very efficient fungicide for Australia and N.Z.

For Wheat

Blighty has proved itself to be the best fungicide on the market for treating wheat for Bunt and Smut.

For Other Seeds

If gardeners would get into the habit of dusting all seeds before planting, in the same way that the wheatgrower treats his wheat with Blighty, he would hear of less losses from wilts, spots, and other results of fungous blights.

For Fruit Trees

Blighty is a powdered form of Burgundy mixture, which has proved the best spray for fungous diseases in fruit trees. It does no harm to the fruit or leaves, and is the most economical of all sprays for fungus.

For Potatoes and Tomatoes

Blighty is the most effective spray for preventing Irish Blight, fusarium wilt, black spot and all other fungous diseases of these plants.

For Other Vegetables

Blighty has been used with success on celery, beet, pumpkins, melons, squashes, and many other varieties of vegetables.

PRICES:—1lb., 1/9; 5lbs., 8/-; 10lbs., 15/- (post or freight extra).

1lb., trial package 2/9 post paid in N.S.W.; 3/3 post paid to Queensland, Victoria and Tasmania; 3/9 post paid to South Australia and West Australia.

DESCRIPTIVE CIRCULAR—FREE

"Snuffotine"

For about 25 years we have been supplying our customers with "Snuffotine." Very little advertising has been done outside our annual seed catalogue, yet the sales have increased year by year until very few cabbage growers on a large scale attempt to get on without it.

For Aphis, Slugs, Snails, Thrip and similar insects it means death. Many other insects dislike it so much that they will not come near it to lay their eggs. For the Bush-house flower garden and nursery it is indispensable.

Protection for Nothing

The most extraordinary thing about "Snuffotine" is that its protection against insect pests costs nothing but the labour of putting it on, as its manurial value in the garden equals its cost.

"Snuffotine" which is a tobacco waste specially treated, is the richest natural fertiliser known in plant form. It contains 2 to 3 per cent of nitrogen, 3 to 5 per cent phosphoric acid, and 3 to 8 per cent potash. Much richer than low grade fertilisers, and being rich in organic matter, has a greater value than most of them.

"Snuffotine" for Tomato Wilt

We do not pretend that "Snuffotine" will cure tomato wilt, it will not, but as it has been proved that the wilt is carried from plant to plant by the thrip insect, and the thrip is kept away by "Snuffotine," there is every chance of keeping the wilt away by using it freely.

"Snuffotine" should be dusted on while the plants are wet with dew in the early morning, or 1½lb. boiled in a gallon of water may be sprayed on plants.

PRICES:—1lb., 4d.; 7lbs., 2/-; 14lbs., 3/6; 28lbs., 5/-; 56lbs., 8/-; cwt., 15/-; (freight extra).

Trial packet 3lbs., post paid N.S.W., 2/6; Queensland, Victoria and Tasmania, 3/-; South Australia and West Australia, 3/6.

Vegetable Plants and

Roots

Postage extra to other States

All prices on this page are post extra unless otherwise stated.

It is always safest and best to grow vegetable garden seedlings on the spot, so that they may be transplanted in suitable weather without risk. However, for the convenience of those customers who have not suitable conditions for raising their own seedlings, we try to keep a stock of the most popular varieties ready to send out by mail or rail. We pack these as carefully as possible, so that in most cases, they arrive in good order. If, however, from delays in the mail, rough handling or any other cause, they are not delivered in good order we take no responsibility, and cannot undertake to refill orders without charge.

Artichokes

(Jerusalem).—May to August.
1/6 per lb., post paid.

The value of the artichoke for both human consumption, and as a stock feed is becoming yearly more recognised. Its sugar contents are so great that before long it will be very extensively grown for the extraction of leucose which is of much more concentrated sweetness than cane sugar.

Asparagus

June, July, August, 25 for 3/6; 10/- per 100.
Freight extra.

Beet

(January to August).
Turnip Rooted, Spinach Beet.
9d. for 25, 2/3 100, post paid.

Cabbage

(January to December).
9d. for 25, 2/6 per 100, post paid.
Copenhagen Market. Allhead Early.
Succession. Drumhead.
Surehead. Red Cabbage.
Mixed (Early and late).
Quotations given for large quantities.

Cape Gooseberry

Golden Nugget. (November to January).
1/6 doz., post paid.

Cauliflower

(December or January to May)
9d. for 25, 2/6 100, post paid.
Autumn Giant. Early London.
White Queen.

Celery

(October to January). Good sorts, 9d. for 25,
2/9 per 100, post paid.

Chokos

(See Vine Fruit). 1/6 each, post paid.

Dasheen and Taro

Tropical plants for wet places. Yield heavy crops of tubers, which are cooked like potatoes.
1/6 each, post paid.

Eschallots

During winter and spring.

LARGE RUSSIAN

The most popular variety, very hardy and prolific.
Good for pickles. 1/6 lb., post extra.

Herbs

Majoram, Thyme, Sage and Mint.

3d. per clump, 2/6 per doz. Postage 3d. each,
1/- dozen extra.

Parsley

2/- doz., post paid.

Horse Radish

6d. each; 4/6 per doz.; postage 3d.; each, 1/-
doz., extra.

Lettuce

(Jan. to Dec.), Drumhead, Wonderful, Iceberg.
9d. for 25, 2/3 per 100, post paid.

Onions

9d. for 25, 2/3 per 100, post paid.
Brown Spanish. Prizetaker.
White Onions. Southport Globe.
(Special quote for thousand lots.)

Tree Onions

Tops and bottoms, usually available about February and March. 2/- per lb., post extra.

Sweet Potatoes

Rooted cuttings, 1/6 doz.; 8/6 100. Post paid.
These may be planted in moist ground or holes filled with water any time up to January in the warmer parts. Hardy plants available November to January.

Winter Rhubarb

Seedlings for the new Rhubarb culture are available from March to June.
Seedlings, 1/6 doz.; post paid. Large roots, 4/- to 6/- doz., freight extra.

Summer Rhubarb

The large roots of this are obtainable all the year round, but are best planted from May to November. Roots 6/- doz., freight extra.
Seedlings (May to August), 1/6 doz. Post paid.

Tomato Plants

Tomato plants are tender, and only carry safely by post when outdoor grown, and very hardy. We prefer not to send any by mail before early in September. Clients ordering to be sent before that time take extra risks of plants arriving in poor condition.

The extra early Tomatoes mature in 90 days from planting; early sorts, 100 days, second early, 125 days; late take 150 days.

We usually have plants in season of Helvetia, Sunnybrook Earliana, Early Pride, Chalk's Early Jewel, Livingston's Coreless, Burwood Prize, Marglobe, Golden Queen and Matchless.

(August and September). 1/3 doz., 7/6 per 100 post paid. Oct. to Jan. 1/- per doz. 6/- per 100, post paid.

Quotations given for large quantities.

NEW ZEALAND FLAX

Used for tying bunched vegetables. Grows very quickly in a moist situation. Good, strong, pot-grown plants 2/- each. Post paid in N.S.W.

We do not supply flower garden seedlings.

Ferns and Palms

FREIGHT OR POSTAGE EXTRA—See rates, Page 76.
Small plants 2lb. packed.

Hardy Ferns

There are a number of ferns that will be found useful for verandah and Bush house cultivation. These may be taken indoors for a day or two occasionally, but it should be the aim of the gardener who uses his ferns and palms for indoor work to have sufficient specimens to change daily. The dry atmosphere of the house will then do the plants no harm.

Adiantum

Gracillimum.—A fine frond hardy maiden-hair fern, 1/6.

Cuneatum.—A beautiful maiden-hair fern, 1/6.

Asplenium

Nidus.—The bird-nest fern. A most useful and hardy variety. Will grow in a hollow log or bucket. 1/6 to 10/.

Bulbiferum.—Though closely allied to the nest fern it is quite different. The young fern-lets grow from the tips of the old fronds. 1/6.

Cyrtomium Rockfordii

The Holly Fern. Beautiful dark green foliage, very hardy. 1/6.

Davallia

The haresfoot fern. A hairy climbing or clinging fern. 2/6.

Dicksonia

Antarctica.—Large growing tree fern. From 2/.

Gymnogramma

Chrysophylla (Golden Fern).—The most heavily powdered golden fern. 2/6.

Lygodium

Scandens.—Graceful climbing fern. 2/ each.

Polypodium

KNIGHTII 2/.

Pteris

Winsetii.—The tassel fern. Hardy. The fronds split and branch at the tip. A handsome fern. 1/6.

Major.—The large pteris or Covent Garden fern. These are sold very largely in England. 1/6.

Alsophila

Tree Fern Trunks:—These are obtainable at prices from 2/- upwards according to size. Freight extra.

Nephrolepis amerpholi
Philadelphia Lace Fern

Nephrolepis

The *Nephrolepis* ferns are obtainable at from 1/6 to 5/- each, according to size.

Amerpholi.—Philadelphia Lace Fern. The *Nephrolepis* ferns are obtainable in a wonderful variety, all obtained by selection from the original Boston Fern.

Marshalli.—Very fine fronds.

Lycopoides.—Even more graceful than the above.

Rockfordii.—Dark green, beautiful for baskets.

Platycerum

grande.—The Staghorn fern. Single ferns that cling to trees and rocks from 2/6 to 7/6.

Alcicorne.—The Elkhorn. These grow in clumps which in the bush get to enormous size. 2/6 to 7/6.

Useful Palms

Kentia Palms

These are commonly known as Lord Howe Island Palms. They are used the world over for decorative purposes, and are very hardy.

Small plants from 1/6. Larger plants from 2/6, freight or postage extra.

For Garden Palms See Page 55.

Popular Flowering Plants

We do not supply seedlings of Annual and Perennial Bedding Plants
POSTAGE OR FREIGHT EXTRA—See Page 76.

Agapanthus

Blue and White. 1/- each.

Anenome Japonica

Autumn, in pots. 1/6 each.

Asparagus

Fern Leaved, useful plants for decorative purposes. They all do well in a bush house or under a verandah and the two first are hardy in the garden.

PLUMOSUS—(Climbing lace). 1/6 each.

SPRENGERI—(Emerald Feather). This variety is very fine for hanging baskets or rockeries. 1/6 each.

Aster Perennial (Michaelman Daisy)

All shades of mauve, lavender, rose and white in pots. 1/- each, 10/- doz.

Azaleas

Beautiful free flowering hardy shrubs that do well in shady positions. Good for verandah or bush-house plants.

The prices are: 2/- each, 21/- dozen.

ALBA MAGNA—Large white, occasionally striped. Single.

CHARMER—Amaranth, single.

COUNTRESS OF FLANDERS—Bright pink, single.

DAME MELANIE—Pink, white margin, single.

DEUTSCHE PERLE—Pure white, double.

D—DECORATIVE

H.C.—HYBRID CACTUS

C—CACTUS

1930 Speciality—5/- each; 3 for 12/6

Jane Cowl (D)

A massive well shaped dahlia on strong stem. Colour is a most striking blend of bronze, buff, and brilliant gold. One of the best introductions for years.

Novelties and Recent Introductions

3/6 EACH, 36/- PER DOZ.

Fordhook Bridesmaid (D)

A really beautiful flower of a lovely amaranth pink colour, shaded white with light lemon yellow centre, carried on rigid stems.

Regal (D)

Delightful combination of autumn shades. Bronze heavily suffused old rose shading to gold at base of petals. Enormous blooms, on stiff stems.

Judge Leon McCord (D)

Enormous flowers on long strong stems. Colour, deepest gold with reverse of old rose.

Fordhook Emperor (D)

Most glorious autumn tint—rich salmon suffused rose, permeated gold. A giant flower.

Other Choice Varieties

2/- EACH, 20/- PER DOZEN

Faith Garibaldi (D)

Large mauve pink flowers on strong stem.

Fordhook Chevalier (H.C.)

Beautiful large flowers, light buff suffused dark orange.

Fordhook Arlington (D)

Blooms of large size on strong stems. Mellow old gold shaded amber and yellow.

Fordhook Pearl (H.C.)

Deep creamy white with base of inner petals viridine yellow. Large, graceful blooms carried on long stiff stems.

Jersey's Beacon (D)

An outstanding flower of enormous size carried on thick sturdy stems. The deep heavy flowers are a particularly bright Chinese scarlet with a lighter reverse.

Margaret Masson (D)

Fine silvery rose pink flowers.

Telopea Dawn

A new seedling worthy of a place in any garden. Large bright pink flowers shaded lemon. Vigorous grower and long wiry stems. Best late in autumn. Previously listed as SI-29.

Treasure (D)

Large creamy pink blooms on erect stiff stems.

Valhalla (D)

Best of the deep maroon varieties—will always be popular.

General List

1/6 EACH, 15/- PER DOZEN

Bashful Giant (D)

Enormous drooping heads. Apricot shaded yellow.

Champagne (D)

Golden chamois, good size.

Daddy Buttler (H.C.)

Deep velvety rose carmine. Excellent florists variety. Excellent for cutting. 12/- doz.

Doris May (D)

Purple maroon—large flowered—free blooming variety.

Fordhook Marvel (D)

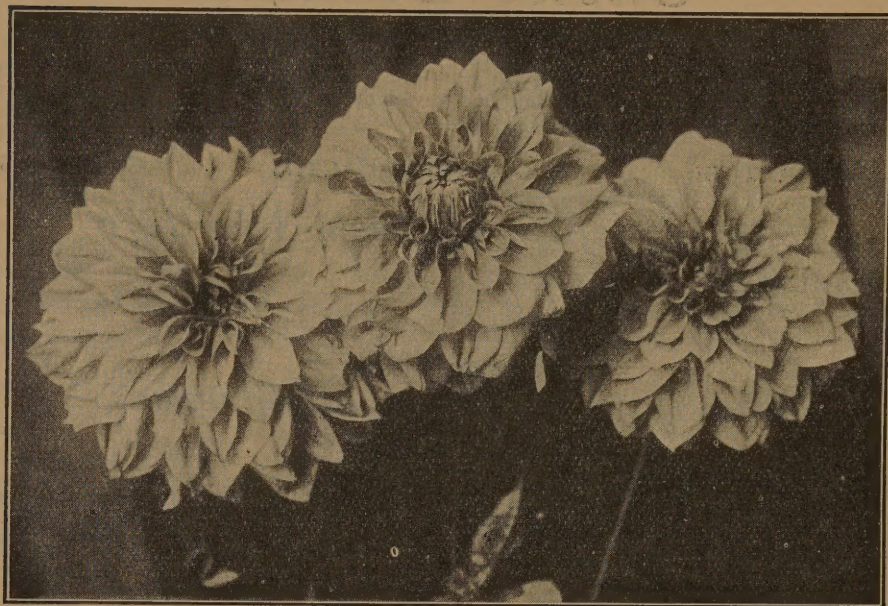

Giant flowers, peach red shading to strawberry pink with salmon orange sheen. Stems strong and cane-like.

Fordhook Crawfish (H.C.)

Very novel flower of exquisite form. Deep pink flushed white in centre. One of the best for cutting. 12/- doz.

Fordhook Model (D)

Enormous well shaped silvery lilac blooms.

Fordhook Radiance (D)

Peach red, suffused bronze—large, with good stems.

Garden Glow (H.C.)

Fiery orange scarlet, flowers produced on long stiff stems.

Halvella (D)

A beautiful mellow pink with Gold sheen. Stems good.

Jersey's Beauty (D)

An outstanding variety of remarkable growth, producing perfect rich pink blooms on long stiff stems. One of the best. 12/- doz.

Kitty Dunlop (D)

Deep rose colour. Stiff stems.

Lady Stonehaven (D)

An exceptionally fine rich yellow variety of Australian origin.

Lolita Velasco (C)

Very erect growing—pure white waxy flowers.

Mariposa (H.C.)

Delightful shade of pink deeper centre. Very free bloomer.

Mrs. I. de Ver Warner (D)

A great favourite and worth a place in any garden. Well shaped mauve pink flowers on long strong stems.

Mrs. Louisa Finger (D)

Large white blooms great for decorative work.

Mrs. E. Spencer (C)

Stiff stems free flowering. Flowers white overlaid with delicate heliotrope.

Octopus (C)

Free flowering—petals incurved orange shading to yellow.

Sagamore (D)

Bright amber gold with a slight touch of orange buff.

Thomas Hay (D)

Giant clear lilac. The blooms are carried on good stems.

Winsome (C)

Fine free flowering pure white cactus dahlia of good form.

Pompones

1/6 EACH, 15/- PER DOZEN

Bacchus

Bright crimson scarlet.

Clarissa

Pale Primrose.

Page Fifty

Canary Bird

Yellow.

Snowclad

Pure White.

Ornamental Trees & Shrubs

Remit Extra for Postage or Freight. For Rates see page 76. Approximate weights packed are 1 plant 3-lb., 2-lb. for each additional plant. Any balance will be sent in seeds or refunded.

The height is given in feet when grown under average conditions. Australian trees and shrubs marked (A); Deciduous trees (D); Evergreen (E).

NOVELTIES AND VARIETIES OF SPECIAL MERIT

Berberis Thunbergii Atropurpurea, D. 4

A compact bushy shrub which carries deep purple red foliage the greater part of the year. Purplish crimson berries in Autumn. One of the richest coloured dwarf shrubs available and is hardy in all cool climates. 2/6 and 3/6 each.

Bougainvillea Mrs. Butt

The foliage is quite distinct from all other varieties and the colour of the bracts is carmine crimson. A profuse bloomer, the flowering season extending over a long period. Until thoroughly tested for ability to stand cold it can only be recommended for climates similar to Brisbane, Rockhampton and Sydney. 7/6 each.

Christmas Bush, (A.) E. 30. (Ceratopetalum Gummiferum)

In early summer it produces small insignificant white flowers, that as they die swell their sepals, which as they enlarge turn into a glorious rich reddish pink, and remain contrasting with their most ornamental dark green leaves, a glorious sight right through the Christmas season. 2/- each. Large plants from 7/6 upwards.

Crataegus Gibbsi, E. 15

The evergreen Hawthorns have become very popular by reason of their ability to stand heat and cold and the bountiful crops of scarlet berries produced in Autumn. The flowers are white and of secondary consideration compared to the berries which follow. Hardy. 2/6 each.

Cupressus Lambertiana Erecta Aurea, E. 12.

A distinct and beautiful golden cypress. Upright habit. The colour is richer than in other varieties. Keep trimmed to 10 or 12 feet. 5/- each.

Cydonia Vermilion, D. 4.

A new variety of flowering Quince producing vermilion scarlet blooms. The brightest colour of the family and recommended with confidence. 2/6 each.

Cytisus Lilac Time, E. 5.

An improved variety, raised in Melbourne. Plants are vigorous and branching and are covered with masses of lilac pink blooms which pass to clear pink with age. Hardy everywhere. 2/6 each.

Eleocarpus Cyaneus, (A.) E. 30.

The common name sometimes applies to this beautiful tree is fairly descriptive—"Lily of the Valley tree"—as in early November of each year the tree is smothered from head to foot with a solid mass of sprays of fringed flowers, very much like the Lily of the Valley. Its beauty is enhanced by the deep Prussian blue colour of the berries and the occasional red leaves among the foliage. Plants 2/- each. Large plants in tins 7/6 each.

Flannel Flower (Actinotis Helianthi) (A.)

This pretty little flower not unlike a miniature sunflower with petals of a flannel like appearance is easily grown in any well drained soil. It is fairly hardy and is worth trying in all parts of Australia. Should be suitable for rock gardens. Small plants in pots 1/6 each, 6 for 8/.

Leptospermum Scoparium Alba Plena, (A.) E. 6.

A form of the native Tea Tree producing large double white flowers. A real acquisition which will be welcomed as a hardy evergreen shrub of quality. 2/6 each.

Malus Aldenhamensis, D. 12.

Purple leaved shrubs. The large semi-double carmine flowers are followed by purplish crimson apples which remain on the tree for a long time. Hardy where other apples thrive. 2/6 each.

Populus Monolifera Aurea, D. 30.

One of the finest golden leaved trees imaginable. It has a spreading habit and the foliage is ideal for introducing a little contrast in a dark landscape. Hardy in the coldest climates and will grow where other poplars thrive. Highly recommended. 2/6 and 3/6 each.

Waratah (Telopea Speciosissima) (A.) E. 10.

The Waratah grows naturally right up into the mountains so that it is quite hardy against frost to the extent we get it in Australia, but until it gets well up from the ground it should be sheltered in winter from cold winds. With plenty of leaf mould and an occasional saturation with water it makes a wonderfully fine flowering shrub. Plant in Spring in well drained soil. Fine plants well rooted from 2/6 each.

TREES AND SHRUBS. GENERAL LIST

Acacia

- 1/6 each, 15/- doz.
BAILEYANA (A.)—20. Cootamundra. Wattle.
ACCOLA (A.) E.—15. Very ornamental.

Hibiscus

EVERGREEN (16 Varieties)—Frost free climates only. 2/- each. Mixed dozens 21/-; doz. 1 sort for hedges 18/-.

The old red-flowered Hibiscus was one of the best shrubs used in garden work around the first settlement of Sydney. It proved quite hardy and very free in flowering, and is often used as a flowering hedge.

SELKIRK HIBRIDS—These have been raised near Sydney and are a distinct improvement on existing sorts. 2/- each.

H. Aureole, Apricot suffused Pink.

H. Gloria, Chinese Orange veined madder lake.

H. Madeline Champion, Apricot with dark eye.

H. Rosy Morn, Old Rose.

CAMDEN—A fine hardy variety; useful for hedges in coastal districts. Red, 2/-. 18/- doz.

SYRIACUS—A hardy deciduous species that will succeed in the cool mountain climates. Double or single 2/- each.

A very large collection of other varieties at 2/-.

Hydrangeas

Although we recommend these, no guarantee can be given as to colour of flower, except as to the whites. Colour depends on soil ingredients.

GERTRUDE GLAHL—Fringed flowers, 2/6.

IDEAL—Large and free blooming. 2/6.

LANCELOT—Large trusses of slightly fringed flowers. 2/6.

MARECHAL FOCH—Large trusses. Very free bloomer. 2/6.

MATADOR—Very attractive. 2/-.
NEIGE ORLEANAISE—White. 2/6.
PARSIFAL—Extra large trusses. 2/6
TRIUMPH—Large trusses. 2/-.
Hymenoporum

FLAVUM (A.)—20. A fragrant tree; yellow, 1/9 each.

Ilex

AQUIFOLIUM (E.)—15. English Holly. 2/- each.
AQUIFOLIUM—Grafted from berry bearing trees. 3/-.
VARIEGATED (E.)—10. (Grafted plants). Gold 3/-. Silver 3/-.

Inga

PORTORICENSIS—6. White tassel flower. 2/- each.

Jacaranda

MIMOSAEFOLIA—30. Lavender bell-shaped flowers. 1/9 each, 18/- doz.

Juniper

Various sorts (E.)—8 to 30. 2/- each.

Lagerstroemia

CREPE MYRTLE (D.)—8 to 20. Pink, 2/-, Red, 2/6. Mauve, 3/-. White, 3/-.

Lantana

1/6 each, 12/- doz.
CHELSEA GEM—4. Orange and red.
DRAP d'OR—4. Yellow.
SELLOWIANA—4. Mauve.
SNOWFLAKE—4. Pure white.

Lasiandra

Beautiful showy flowering shrubs; should be well pruned after flowering.

EDWARDSII—A new variety raised in Victoria. Of compact growth and has larger flowers than macrantha. 2/- each.

MACRANTHA GRANDIFLORA—Extra large flowers, deep purple. The best of the varieties. 2/6 each.

ROSEA—Pink. Very free flowering. 2/- each.

Laurus

NOBILIS—Sweet Bay. 2/- each.

Lavandula (Lavender)

SPICA—Common lavender. 1/- each. 10/- doz.
DENTATA—1/6 each.
STOECUS—French, for hedge. 1/- each, 10/- doz.

Lophostemon

AUSTRALIS (A.)—40. Tristania, Brush Box. Splendid shelter tree. 1/9 each, 15/- per doz.

Macadamia

2/- each, 21/- doz.
TERNIFOLIA (A.)—20. Queensland Nut.
INTEGRIFOLIA—See Nut trees.

Magnolia

FUSCATA—Port Wine. 2/- each.
GRANDIFLORA—Large white. 2/6 each.
DECIDUOUS—3/6 to 5/- each.

Malus

FLOWERING CRAB APPLE—Worked on Northern Spy Stocks to ensure blight proof roots. 2/- each. White, carmine, pink and double pink.

Melaleuca

HYPERICA (A.)—Red Flowering Tea Tree. 2/-.

Melia

AZEDARACH (A.)—20. White Cedar. Lilac flowers in Spring. 1/9 each, 16/- doz.

Metrosideros

TOMENTOSA—N.Z. Christmas Bush. 2/- each.

Murraya

EXOTICA (A.)—Native of Queensland. Pure white, scented flowers. 2/- each.

Nandina

DOMESTICA—4. The sacred Bamboo of Japan. 2/6 each.

Nerium

OLEANDER—6 varieties, including semi-double white, pink, and yellow, double pink, single red, white and pink. 1/9 each, 16/- doz.
SPLENDENS VARIEGATA—3/- each.

Oak

See "Quercus."

Ochna

MULTIFLORA—6. Yellow flowers in Spring followed by scarlet and black berries. 2/- each.

Philadelphus

MOCK ORANGE. 1/6 each.
VIRGINAL (D.)—6. Beautiful semi-double white variety. 2/-.

Photinia

SERRULATA (E.)—15. Chinese Hawthorn, 1/9 each, 16/- doz.
GLABRA RUBENS—A small shrub growing 8 to 10 feet. The young foliage is deep red turning to green as they get older. An excellent hedge plant. 2/6 each.

Pinus

INSIGNIS—60. Splendid shelter tree. 1/6 each 15/- doz. £5 per 100.

Plumieria

ACUTIFOLIA (D.)—12. Frangipanni. A beautiful shrub for warm climates will not stand frost. 2/6 and 3/6 each.

Pittosporum

(A) (E.)—20. Hedge or shelter trees.
EUGENOIDES VARIEGATA—Leaves white and green. 2/- each. 18/- doz.
UNDULATUM—One of our finest native flowering trees; strongly scented, useful for shade purposes. 1/9 each, 16/- doz.

Platanus

ORIENTALIS—50. Plane tree. 2/- each.

Plumbago

CAPENSIS (E.)—6. Blue and white. 1/9 each, 15/- doz.

Poinciana

GILLESII—Bird of Paradise. 2/- each.

Poinsettia

PULCHERRIMA (D.)—10. 1/9 each, 16/- doz.

Populus

POPULAR (D.)—50. (4 sorts). 1/6 and 2/- each.

Prostanthera Ovalifolia

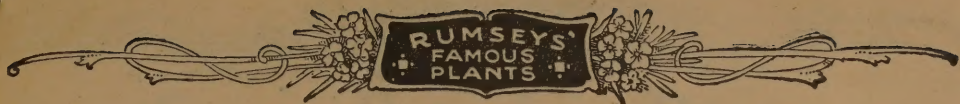

A native shrub. Simply covered in spring with rich purple blooms of distinctive character. Plants are always in great demand, and sell on sight. 2/- each.

Prunus

Flowering Plum.
MOSERII—Double Pink flowering Plum. 2/- each.
PISSARDI—Beautiful dark purple foliage, but the flowers are insignificant. 2/- each.
PISSARDI NIGRA—A darker foliaged form than the preceding. 2/- each.

Punica

GRANATUM—10. Common Pomegranate. 1/6 each.

Pyrus

AUCUPARIA—30. Mountain Ash or Rowan. A fine ornamental tree valued for its lovely autumn tints and scarlet berries. 2/- each.

Quercus

(6 Varieties)—Including English and red-leaved American. 2/- to 2/6 each.

ROSES. GENERAL LIST

1/6 each, 15/- per dozen. Carriage extra.

Pink Roses

Alice Amos

Dwarf American Pillar, single flowers, beautiful cherry pink, white eye, large trusses.

Cecil Brunner

Miniature, delicate salmon pink, with coppery centre.

Columbia (H.T.)

Rich deep pink, very sweetly scented. Requires plenty of water to grow it well.

Dame Edith Helen (H.T.)

Rose pink, sweetly scented.

Ellen Poulson (Orl.)

Brilliant pink Orleans, large, fairly full, sweetly scented.

Ethel Somerset (H.T.)

Shrimp pink, free blooming.

Gustave Grunerwald (H.T.)

Bright china pink with apricot centre.

Jonkheer J. L. Mock

Large size; perfect formation, perfumed; color carmine, changing to imperial pink.

Konigen Carola (H.T.)

Immense double blooms, satiny rose, reverse white.

La Tosca (H.T.)

Soft pink, shaded rosy white.

Lady Ashdown (H.T.)

Rich silvery pink, free flowering.

Madame Butterfly (H.T.)

A deeper coloured sort of Ophelia. Sweetly scented, and very beautiful.

Madame Abel Chatenay (S.G.B.D.)

Clear bright China rose. Long bud.

Madame Jules Grolez

Brilliant China rose, vigorous grower.

Madame Second Weber (H.T.)

Rosy Salmon double blooms of very large size. Most beautiful in bud, a splendid variety.

Maman Cochet (S.G.B.D.)

Flesh rose, shaded salmon yellow; fine long bud.

Maman Turbat (Poly)

China rose, shaded pink.

May Wettern (H.T.)

Said to be an improved Madame Abel Chatenay. Deep rose changing to rosy pink then bright rose.

Mrs. Bryce Allen (H.T.)

Rosy carmine. Sweetly scented.

Mrs. C. J. Bell (H.T.)

Shell pink, sport of Radiance.

Mrs. George Shawyer (H.T.)

Brilliant clear rose.

Oliver Mee (H.T.)

Deep salmon with heavy flush of clear fawn, changing to salmon pink. Flower large, semi-double, sweetly scented.

Radiance

Inside of petal silvery pink, outside carmine. Vigorous grower, free bloomer. Sweetly scented.

Rose Marie (H.T.)

Rose pink free blooming. One of the best garden roses grown.

Salmon Spray

Rich salmon-pink, borne in sprays, sweetly scented, lasts well.

Shot Silk (H.T.)

Bright cherry-cerise over shot with salmon orange, flushed rose.

Sunny South (H.T.)

A splendid semi-double rose. Pink flushed carmine on a yellow base.

Light Roses

Frau Karl Druschki

Finest white H.P. extant.

K. A. Victoria (H.T.) S.G.B.D.

White centre shaded cream; good show rose.

Madame Jules Bouche (H.T.)

Semi-double creamy white, tinted pink. Good garden variety.

Mrs. H. Stevens (H.T.)

Semi-double white. One of the best.

Phoebe (H.T.)

Creamy white, slightly deeper in centre, buds long, semi-double.

W. R. Smith (T.)

Creamy white, pale Maman Cochet. Robust.

White Ensign (H.T.)

Pure white, slightly flushed cream.

White Maman Cochet (S.G.)

Creamy white, sometimes tinted blush or pink.

Page Fifty-Eight

Red Roses

Charles P. Kilham (H.T.)

Brilliant Orient red, which fades to Lincoln red.

Earl Beatty (H.T.)

Deep crimson, sweetly scented; may be styled an improved General Macarthur.

Etoile de Hollande (H.T.)

Dark red semi-double. Very sweetly scented.

General Macarthur (H.T.)

Flowers richest crimson, shaded scarlet.

Hadley (H.T.)

Dark red with beautiful scent. One of the best.

Hoosier Beauty (H.T.)

Glowing crimson. Very sweetly scented.

Ideal (Orl.)

Beautiful dark crimson, best dark poly.

Joyous Cavalier (H.T.)

Crimson large long pointed buds. Vigorous and disease resistant.

K. of K. (H.T.)

Single scarlet.

Lady Helen Maglona (H.T.)

Bright crimson red with dark markings.

Laurent Carle (H.T.)

Brilliant velvety carmine, very large, perfect form.

Lord Castlereagh (H.T.)

Rich deep crimson, sheen on petals, semi-double, growth strong, sweet scent.

Lord Charlemont (H.T.)

Clear crimson. Sweetly scented.

Miss E. Cavell (Poly.)

A good crimson sport of Orleans.

Mrs. Henry Winnet (H.T.)

A beautiful double red rose, not quite so dark as Hadley. Good grower and free flowering.

Orleans Rose (Pol.)

Flowers freely produced in immense trusses, of a bright geranium red, with white centre.

Padre (H.T.)

Coppery scarlet flushed yellow at base, semi-double.

Red Radiance (H.T.)

A serise red sport from Radiance.

Rufus (Orl.)

Crimson, occasional white stripe.

Sensation (H.T.)

Scarlet crimson, very large, double, lasting.

Souvenir de Maria de Zayas (H.T.)

Deep carmine, of perfect form

Souvenir De Georges Pernet (Pern.)

Beautiful orient red, end of petals cochineal-carmine, shaded with yellow. Oval bud on erect stem, vigorous grower.

Una Wallace (H.T.)

Beautiful soft cherry-rose, free blooming and double.

Yellow Roses

Emily Gray (Wich.)

Golden yellow, double flowers.

Duchess of Wellington (H.T.)

Intense saffron yellow.

Fontanelle (H.T.)

Large, immense petals, beautifully formed flowers on long stems. Fine garden variety.

Golden Ophelia (H.T.)

Golden yellow. Not large, but very free blooming

Irish Fireflame (H.T.)

Orange fleshed crimson. Single.

Lady Hillingdon (T.)

Deep apricot yellow, long pointed buds; very fine.

Margaret Dickson Hamill (H.T.)

Deep golden yellow.

Miss Willmott (H.T.)

Soft sulphur, cream centre, semi-double, dainty.

Mrs. Harold Brocklebank (H.T.)

Creamy white, buff centre.

Mrs. Mackellar (H.T.)

Large, semi-double, primrose-yellow flowers, high centre, strong stems.

Rev. F. Page Roberts (H.T.)

Soft buff shading to rich yellow. Very good.

Richard E. West (H.T.)

A grand addition to the yellow shades Free blooming.

Roselandia (H.T.)

Improved sort of Golden Ophelia.

Souv. de H. A. Verschuren (H.T.)

Large, fairly full, singly on stiff stems. Cadmium yellow.

Souv. de Claudius Pernet (Per.)

A rich sunflower, yellow.

Souv. de Madame Boulet (H.T.)

Sunburst (H.T.)

Superb cadmium yellow with yellow-orange centre.

W. F. Dreer (H.T.)

Deep golden yellow shaded peach and old rose

Coppery & other Roses

Angele Pernet

Vivid orange yellow shaded fiery red, semi-double.

Betty Uprichard (H.T.)

Pink on outside of petals, salmon pink inside.

Edith Nellie Perkins (H.T.)

Outside of petals light orient red, inner side salmon orange to salmon pink.

Goldlachs (Dw. Pol.)

Fiery golden salmon of wonderful beauty.

Fascination (H.T.B.)

Rosy cerise shaded yellow.

Irish Elegance (H.T.)

Single, long buds of coppery salmon shade.

Lady Pirrie (H.T.)

Coppery salmon semi-double.

Margaret McGredy (H.T.)

Orange scarlet, flowers large and full, borne freely.

Mevrouw G. A. Van Rossem (H.T.)

Dark orange and apricot.

Mrs. A. R. Waddell (H.T.)

Reddish salmon. Free bloomer.

Mrs. Dunlop Best (H.T.)

Reddish apricot with coppery yellow base

Climbing Roses

Always write "Clb." where climbing variety is required.

American Pillar

Single, rich pink, with a well defined white eye.

The Bangalow palm. Fine for gardens in coastal or warmer locations. From 2/6.

Fruit Trees

Remit Extra for Postage or Freight. For Rates see page 76. Approximate weights when packed, 1 tree 3-lb., add 1-lb for each additional tree. Any balance will be sent in seeds or returned.

PLANTING

Deciduous trees, that is those that drop their leaves during Winter, should be planted while dormant, which is from May to August inclusive. June and July are generally best, but in some very cold districts later planting is advisable.

It is best to have land ready for trees before advising us to despatch. They may then be planted as soon as received. If for some unforeseen reason it is not possible to plant at once, unpack trees as soon as received, open a trench in a shady position, place trees in this, sloping at an angle so that the side of the trench will support them. Give the roots a good soaking and then cover with soil. Trees heeled in this way will keep in good condition until it is possible to plant them. If, as sometimes happens, delay in transit occurs and trees appear shrivelled on arrival, place them flat in the trench and cover the whole plant with soil for a couple of days.

Before planting work soil all over to a depth of 8 inches and when opening holes for trees only make them deep enough to allow highest roots to be just below ground level. Hole should be wide enough to admit all roots without bending and should be higher in the centre than at edges of hole. Fill in with fine soil round roots, giving the tree a slight shake to ensure soil being packed closely around them. When the hole is filled tread soil firmly, leaving a slight depression round the tree. In dry times this may be filled with water.

In windy positions it is advisable to stake trees. Stakes should be driven in before planting and trees tied to stakes. Fasten tie firmly round stake and then tie loosely round the tree.

All trees must be protected from rabbits and stock, either by good fences or individual tree guards.

Young trees must be pruned before coming into growth in the Spring.

Home Garden Collections

These varieties have been specially selected for their suitability to average soils and to home gardens.

No. 1.—SUBURBAN GARDEN COLLECTION

Where Space is Limited

- 1.—PEAR, Packham's Triumph.
 - 1.—APPLE, Jonathan.
 - 1.—PEACH, Elberta.
 - 1.—PLUM, Wickson.
 - 1.—LEMON, Eureka.
 - 1.—ORANGE, Joppa.
- 6 trees for 10/- freight paid to nearest railway station.

No. 2.—COAST AND INLAND COLLECTION

- 2.—APPLES, Granny & Jonathan.
- 2.—PEACHES, Watts Early & Elberta.

2.—PLUMS, Santa Rosa & Wickson.

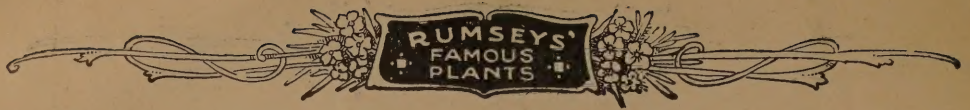

- 1.—PEAR, Packham's Triumph.
- 1.—APRICOT, Trevatts.
- 1.—NECTARINE, Goldmine.
- 1.—FIG, Blue Province
- 1.—PERSIMMON, Dia Dia Maru.
- 1.—QUINCE, Large Portugal.
- 1.—ORANGE, Late Valencia.
- 1.—LEMON, Eureka.
- 1.—MANDARIN, Beauty of Glen Retreat.

15 trees, 22/6 Postage or Freight paid in N.S.W. Add 2/6 extra to interstate orders.

No. 3.—TABLELAND & COOL CLIMATE COLLECTION

- 3.—APPLES Gravenstein, Rome Beauty, & Granny Smith.
- 2.—PEARS, Clapp's Favorite, Winter Cole.
- 2.—CHERRIES, Early Lyons & St. Margaret.
- 1.—APRICOT, Moorpark.
- 1.—NECTARINE, Goldmine.
- 2.—PEACHES, Elberta & Briggs Red May.
- 1.—QUINCE, Large Portugal.
- 1.—FIG, Blue Province.
- 1.—MULBERRY, Black English.
- 1.—PLUM, President.

15 trees, 22/6 Post and Packing free in N.S.W. To other States add 2/6 extra.

Apples

1/6 each, 15/- per doz.

Carrington

A very early apple for coastal districts only.

Cleopatra (N.Y. Pippin)

This is a fine prolific green apple, turning yellow as it ripens. It is earlier than Granny Smith, and will be superseded by that variety.

Delicious

This comparatively new apple is fast climbing the list for popularity. We introduced this variety to Australia about 25 years ago, and when once it became known it was very largely planted. The fruit is very handsome, a good keeper, and of fine rich spicy flavour. In a few years this apple is likely to rival Jonathan for second place.

Dunn's Favourite (Munroe's)

This is a good export and market apple for the highlands, and worth the price it has gained.

Fameuse (Fanny or Snow)

This is a very handsome desert apple good for market, fine white flesh and red skin.

Granny Smith

This apple was first grown at Ryde and has gradually grown in popularity until it heads the list. It is the best cooking apple, "The Australian Dumpling Apple." The best to cook at any stage, and the best keeping apple. The fruit is green, turning yellow as it is kept, with a red cheek when quite ripe. Granny Smith is a good cropper, and makes a fine tree. No collection should be without it.

Gravenstein

This apple is known as Carpenter in many orchards. It is the earliest commercial apple in the highlands. It is a beautiful waxy looking fruit of a creamy colour with bright stripes. The crop ripens just after Christmas, and carries well.

Jonathan

Just as the Granny Smith is the best late apple for export, Jonathan is the best early export apple. It is a beautiful looking striped apple, and is also good for local sale. It fruits as well in the coastal districts as in the highlands, though it does not keep as well.

King David

This is a fine showy dark-red apple, good for local sales and fair for export. It does well in both the coastal districts and the highlands.

London Pippin (or Five Crown)

Under its popular name of Five Crown, this apple is a great favourite, but although, as a young tree, the fruit is large, it takes good feeding to get market grades on old trees.

Northern Spy

Its greatest value is its almost complete resistance to woolly aphid. Bears first crop in 9 or 10 years.

Rome Beauty

This is the most precocious of all apples, quite a crop of large fruit being obtained from three or four year old trees. It is one of the best export apples, with its dark red streaks and fine cheek.

Statesman

Gold and stripes, good bearer.

Sturmer Pippin

An apple largely grown in Tasmania for export.

Tasma (Democrat)

This is a local apple that has come into prominence of late, as an export and market apple. It is a fine coloured fruit, and a good tree.

Yates

A good looking apple, but inclined to run small

Pears

1/6 each, 15/- per doz.

Buerre Bosc

A very large long pear, with a rich russetty skin, a good keeper.

Clapp's Favourite

A fine pear for early districts, ripens about 'Xmas on the coast.

Howell

Large, waxy yellow pear, heavy bearer.

Kieffer

A hybrid between Williams and the China pear.

Packham's Triumph

A fine locally raised pear, one of the most popular. The earliest to bear, and a fine cooking or eating pear.

Williams (Bartlet)

This with us, as with other parts of the world, is the most popular pear because it is a good canner and carries well. It is an early pear.

Winter Cole

A good medium size, greenish yellow pear, a good keeper and prolific. Late, dessert.

Winter Nelis

One of the finest flavoured medium-sized dessert pears. Late, the skin is well russetted.

Apricots

1/6 each, 15/- per doz.

Camden Early

A new apricot from the Penrith district; very early, and a good cropper. Said to be a great improvement on Allen's Early.

Colorado

Very large, handsome, and of good quality, heavy bearer; a splendid new apricot from the United States.

APRICOTS—Continued.

Hemskirk

Large, good bottler, flattened both sides, deep orange, middle December.

Moorpark

Large, juicy, reddish orange, end of December.

Newcastle

Early; a Californian variety; ripening end of November; large fruit of a fine yellow colour.

Trevatt's

A new apricot from one of the irrigation areas, and highly recommended by the Department of Agriculture; fruit very large and sugary; good for drying and canning purposes.

Persimmons

2/- each, 21/- per doz.

Dia Dia Maru

Fruit of large size, square or four-sided, rather flattened; skin deep orange; flesh yellow; almost seedless; a fine variety; late.

Haycheya

Fruit very large, oblong, rather pointed; skin light red; an excellent and highly-flavoured variety.

Jubilee (Seedless)

A very fine variety; raised in New South Wales; large, square shaped; picked when ripening, and stored late.

Tenanashi

A large heart-shaped seedless persimmon, early; very good.

Yemon

Large, flat, clear yellow, fresh orange; no seeds.

Plums and Prunes

1/6 each, 15/- per doz.

Angelina Burdett

See Excelsior.

Cherry

The earliest of all.

Coe's Golden Drop

Yellow slipstone, best in cool districts.

Damson

Heavy cropper, fine for jam and sauce.

Diamond

Very large oval plum, slipstone, good cropper; midseason.

Evan's Early

Very early, enormous cropper, oval, purple.

Excelsior

A more prolific strain of Angelina Burdett. Large dark purple free stone.

Giant

Enormous yellow plum, good cropper; midseason.

Grand Duke

Very large blackish purple plum, fine flavour, late.

Plums and Prunes (Contd.)

Greengage

Splendid dessert, yellowish green.

Lutherborrow (Jam Plum)

Very large, prolific almost black (C.).

Pond's Seedling

The Hungarian Prune. Large red slipstone, good cropper in some localities; midseason.

President

The fruit is large, oblong-shaped, over two inches long, beautiful purple colour, pretty bloom, and covered with white minute dots, flesh firm and sweet, and fruit perfect freestone.

Prune de Agen

The popular preserving variety.

Robe de Sergeant

Very similar to d'Agen in shape and colour, but larger and ripens ten days earlier.

Japanese Plums

1/6 each, 15/- per doz.

Beauty

It is the largest of the early plums, ripening early in December. Fruit beautiful oval, crimson, with amber-crimson flesh.

Blood (Long)

A very large preserving plum. Early, heart shaped.

Burbank

Fruit large, round, skin yellow, fine flavour.

Early Jewel

A good black purple fruit, ripens in December.

Kelsey

Large heart-shaped purple plum, heavy bearer, good carrier, suits cool districts.

Narrabeen

A fine plum raised at Mona Vale. Exceptional size, round, rather flattened skin yellowish, covered with dark rich red. Almost black when thoroughly ripe and covered with minute yellow dots. Flesh is yellowish white, juicy and sweet. Stone is small. Ripens mid January.

Paterson Late

The latest of all plums.

Santa Rosa

One of the best ever produced by Burbank. Deep purplish crimson coloured flesh, averaging six inches in circumference; clear golden skin shaded purple.

Satsuma

Rich, dark, red coloured flesh, medium size.

Shiro

Early. Fruit medium to large, clear light yellow, flesh firm and juicy.

Wickson

One of the best of this race; good flavour.

Wright's Early

The earliest Japanese Plum extant; fruit identical

Peaches

1/6 each, 15/- per doz.

Aunt Becky

Raised in Ryde, said to be an improved Royal George slipstone.

Blackburn

Yellow flesh, ripening before Elberta; highly recommended at Yanco as a first-class canning peach; splendid colour.

Brigg's Red May

Earliest market peach.

Carman

A large early free stone peach of good colour and quality

Edward VII.

Good market variety, medium size, ripens early in November.

Elberta

Queen of Peaches, fine for cooking or dessert, freestone.

Flat China

Fruit flat, freestone.

Golden Queen

A promising late canning peach, a good cropper; Fruit yellow to stone, cling.

High's Early Canada

This peach may be described as an improved Briggs' Red May; it is better than Briggs' in many respects, and comes in in the cool districts in time for the Christmas market..

J. H. Hale

Larger than Elberta; round, uniform shape; rich yellow, overlaid carmine; flesh texture of the cling, yet freestone, rine-grained; delicious flavour; grand shipper; first-class canner; ripens a week earlier than Elberta; Good bearer.

La France

A deep carmine juicy peach, ripe for Christmas.

Le Vainquer

Earliest of all large fruiting peaches. Blooms September 18th. Skin is cream tinted red. Freestone.

Mountain Rose

A large early peach of good colour.

Phillips Cling

Large late yellow fleshed canning peach; E.A.

Pullar's Cling

Highly coloured, magnificent, very large, heavy bearer and hangs late; one of the best canning, end of January.
Page Sixty-Four

Peaches (continued)

Red Bird Cling

A new early clingstone, ripe before Christmas, highly coloured.

Rowe's Champion Freestone

A distinct mid-season variety by its good constitution and productiveness; large and handsome with a brilliant crimson skin, highly flavoured

Royal George

Old favourite freestone.

Ruby Red

A splendid peach, coming in for Christmas market; bright red colour; good shipper.

Shanghai

Very large rich clingstone, third week in January.

Watt's Early Champion

Local production of great merit, raised by Mr. C. Watts, of Dundas. It is red freestone, ripening in favourable seasons before end of October. It is the first peach of the season in the Sydney market, and commands top prices. The tree is a strong grower and very prolific.

Tuscan Cling

The earliest yellow clingstone, good for canning. Ripe middle of January.

Wiggins

A large, fine quality slipstone yellow fleshed, regular cropper, late.

Nectarines

1/6 each, 15/- per doz.

Albert Victor

Large midseason slip, bright crimson, good flavour.

Early Rivers

Large bright red slipstone very early good.

Elruge

Large, roundish, rich, juicy, freestone, early in January.

Fertile du Poitou

Enormous fruit for a nectarine, attaining about 3 inches round; skin smooth, yellow ground, marbled with purple red, and entirely red on the sunny side; flesh white, very fine, juicy, sugary, aromatic, free-stone.

Goldmine

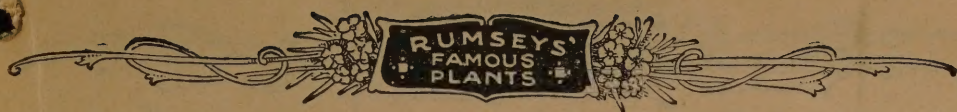

A New Zealand seedling, and said to be the largest nectarine grown.

New Boy

Large juicy slipstone, brilliant crimson; midseason.

Precoce de Concel

An early large fruited French Nectarine. Skin yellowish, with dark plum colouring.

Cherries

ON MAZZARD STOCKS

1/6 each, 15/- per doz.

Biggareau Napoleon

Large heart-shaped amber, juicy.

Early Lyons

Very large and solid, ripening early.

Florence

Large pale amber, bright red cheeks, late.

Ramen Olivar

Dark glossy red; flesh firm and sweet, very large, measuring up to $1\frac{1}{4}$ in diameter; called the up-right Lyons by some growers.

St. Margaret

The finest of all cherries, late, black purple flesh, very large.

Berries

Currant

Black, white and red. 1/- each.

Gooseberry

A dozen varieties. 1/- each.

Logan Berry

This has the appearance of a cross between Black-berry and Raspberry, but for Australia it is better than either. It has the raspberry flavour with the colour of the blackberry, makes a delicious preserve, and is fine for pies.
1/- each; 9/- per dozen.

Raspberry

Several varieties. 6/- per dozen.

Other Fruit Trees

Bananas

Several sorts, 1/6 each, 15/- doz.

Chinese Raisin

Flavour like raisin. 2/- each.

Custard Apple

Delicious large fine flavour. 2/6 each.

Figs

Black Genoa, Blue Province, Brown Turkey and others. 1/6 each.

Guava

Yellow and purple. 2/- each.

Loquat

Herd's Seedling, very large. 2/- each.

Mulberries

English, Cape, and others. 2/- to 3/6 each.

Pomegranate

Flourishing in Sydney and northwards. 1/6 each.

Quinces

Large Portugal, Missouri Mammoth Pear. 1/6 each.

Grape Vines

ON OWN ROOTS

AVAILABLE JUNE AND JULY

1/6 each, 3 for 3/6, 12 for 10/-.

Post Paid.

As grape vines may not be sent from the Countries of Cumberland and Camden, we have made arrangements to have these grown and despatched from a country nursery outside the phylloxera infested area. We can send vines to any part of N.S.W., but NOT TO OTHER STATES.

BLACK MUSCAT—Medium size, oval berries.

BLACK HAMBRO—Good for coastal districts.

BLACK SHERRY—Fine grape, valuable late in season.

BLACK MALAGA—Large bunches—berries large oval and good carriers.

BLACK PRINCE—Late grape, very rich and sugary.

BLACK ALICANTE—Very showy, late—hangs well. Oval berries and bunches large.

BUCKLAND'S SWEETWATER—Very early white—prolific.

BELL'S SEEDLING—Of Isabella type, but larger berries.

DORADILLO—Large berry, rich amber—late.

GORDO BLANCO—Fine white muscatel—grown extensively for raisins.

GROS COLMAN—Requires warm situation. Large black berries, late in season.

ISABELLA IMPROVED—Much larger than old favourite of this name. Hardy grape.

LADY'S FINGER—Long pinkish white berries. Requires dry climate and loamy soil.

MUSCAT OF ALEXANDER—One of the best. Large amber berries, splendid flavour.

MUSCAT HAMBRO (Snow's)—Probably best black variety in cultivation. Berries and bunches large and of superior flavour. Good cropper.

SULTANA—Medium sized oval berries—seedless—chiefly used for seedless raisins.

WHITE SHERRY—Popular market variety—good cropper.

WHITE MUSCAT—Large berries with strong muscat flavour—midseason.

WALTHAM CROSS—A large late grape for hot districts. Round berries are a clear amber.

WHITE ISABELLA—Well known, berries large, medium growth.

THE A to Z OF AUSTRALIAN FRUIT GROWING

(By Herbert J. Rumsey)

Gives full instructions for planting, pruning and all matters pertaining to fruit culture. Post paid, 2/2 a copy.

Australian Nuts

Freight Extra. See page 76. Weight packed, 1 tree 3-lb., 2-lb. for each additional tree.

Macadamia Ternifolia

An Australian Nut bearing tree that has been proved to produce one of the World's best food nuts. In Honolulu the value of this tree is so highly estimated that all lands used exclusively for growing it, has been freed from taxation for five years. Apart from its value as a Nut bearing tree, the Macadamia is one of our finest ornamental plants, growing in suitable positions to a height of 25 feet and with a fine bushy head. On the coast to the north of Sydney the growth is quick, and Nuts are produced in four to six years. In the cooler parts the trees require protection while young, and come into bearing in about seven years.

Seedling trees 2/- each, 21/- doz.

Macadamia Integrifolia

During our travels of investigation, in reference to the Australian Nut, we have discovered a variety or rather a species which has smooth edged leaves, and a different habit of growth to the common species, in native habitat, producing two distinct crops of nuts each year, in June and December, with occasional nuts between.

Seedling Trees of Integrifolia, 2/- each, 21/- doz.

Almonds

1/6 each, 15/- per dozen.

Bear best in dry atmosphere.

Burbank—Medium size, good bearer; being a late bloomer it usually escapes damage by late frosts.

Early Jordan—An upright growing variety, growing thin shelled nuts.

Eureka—Similar to Jordan.

I.X.L.—Large paper shell, heavy cropper, good grower.

Nonpareil—Thin shell, weeping habit.

Paper Shell—Large, good bearer.

Chestnuts

The Chestnut is a nut that does well and produces good crops in the mountains and southern districts. Price, 2/3 each.

Japanese—This is a quick growing tree that fruits in about three years after planting out.

Spanish—A more slow growing variety than the Japanese.

Filbert or Hazel

These are tall bushes that produce the small cob nuts of commerce. Seedling trees, 2/- each.

Pecan Nuts

Trees are well established and giving fine crops of nuts on the Clarence and Richmond, as well as in Queensland. At Dundas trees bear good crops annually, and on the mountains the trees are doing well. The best situations for Pecan nut trees are on deep loamy soils where plenty of moisture is available or can be applied. The tree is very ornamental, and is useful for places where too much shade is not desirable in winter.

The nuts of the Pecan are of great commercial value; though the shells are hardly as large as a walnut, they are so thin and well filled that there is much more meat in them.

On account of the difficulty of budding, only a limited number of trees of named sorts are available. Seedlings usually produce very heavy crops of smaller nuts.

Price of trees, named sorts, Success and Frotcher, 7/6 each. Small seedlings, 2/- each, 21/- doz. Freight or postage extra.

Seedling Walnuts

Suitable to cool moist climates.

Prices of walnuts, 2/3 each; 24/- per dozen. Freight or postage extra.

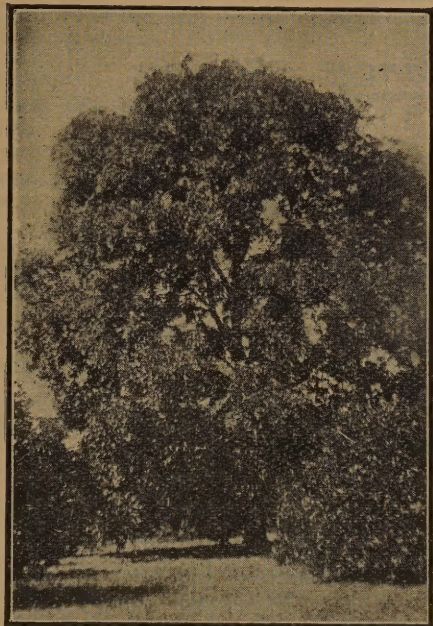

English Walnut (*Juglans regia*)

Large common walnuts, well-known.

Californian Black Walnut (*Juglans Californica*)

Large hard-shelled. A good timber tree.

Lovers of nuts should not fail to get Mr. Herbert J. Rumsey's book, "Australian Nuts and Nut-growing in Australia," which may be obtained from us or from booksellers through Australia for 2/-, or post paid for 2/1.

PECAN NUT AT GRAFTON

QUALITY TREES AND ROSES

Muswellbrook,

12/2/30.

"I might also add that fruit trees obtained from you have never looked back, and also roses, of which I have never had better results. They still have large buds continually coming."

(Signed) C.J.B.
Page Sixty-Seven

Citrus Fruits

Freight or Postage Extra. For Rates see Page 76. Approximate weight for shipment, 1 tree 3-lb.; 1-lb for each additional tree.

Planting.—In mild climates Autumn (March and April) are good months, especially when good rains are experienced early in Autumn. In cooler districts where there is danger of frost injury to young trees, Spring planting is recommended (August to September).

BUD SELECT STOCK

Realizing that organised improvement in varieties by selection of propagating wood, would be better than the individual efforts of a few nurserymen. The N.S.W. Nurserymen's Association last season formed, together with representatives of the growers and the Department of Agriculture, a committee of experts to carry out this work, and Late Valencia orange was the variety with which a start was made.

Sales for last season show that growers realise what it means to have trees worked from pedigree stock, and we have this season extended selection of Washington Navels.

Order early to be sure of getting some of the limited quantity available.

Bud select trees 2/6 each, 27/- doz.

Late Valencia

Worked with selected buds, "

Washington Navel

Bud select stock.

Oranges

1/9 each, 18/- per doz.

Joppa

A large oblong fruit with thin skin, a thornless tree and good bearer.

Late Valencia

Large oblong fruit, rich fruit of best quality.

Mediterranean Sweet

Remarkable for its early bearing and excellent flavour; very prolific.

Parramatta

Grown in this district for eighty years, most productive.

Siletta

Large, round, hardy, enormous cropper, juicy.

Washington Navel

Finest orange grown seedless.

Lemons

1/9 each, 18/- per doz.

Common

Hardy, persistent bearer.

Lisbon

The favourite market variety.

Sweet Rind

A variety well liked for its quality, fruit, skin, and growing to a good, even size.

Page Sixty-Eight

Grape Fruit

IMPROVED POMELO

1/9 each.

Marsh

Medium size, thin rind. Used largely as a breakfast delicacy, but makes delicious preserves.

Mandarins

1/9 each, 18/- per doz.

Beauty of Glen Retreat

An enormous cropper, of large size and delicious flavour: recommended for warm localities.

Canton, or Scarlet

Very large, flat, deep red colour.

Early Imperial

Medium size, sweet, thin yellow skin, requires deep rich soil, ripens April.

Ellendale Beauty

Huge size, with thin skin, pale in colour.

Emperor

Largest tree, spreading, market variety.

Fewtrell's Early

Flavour more like an orange; thin skinned and very heavy cropper.

Oonishu

Hardy, stands frost, suits mountain districts.

Thorny

Best flavoured, flat, medium sized.

PRESERVING AND OTHER VARIETIES

1/9 each, 18/- dozen.

Seville

This is considered much the best variety for preserves; the fruit is large, rather flat and solid, and makes excellent marmalade.

Common.—Large yellow juicy, very prolific, rough skin.

Flat.—Not nearly so bitter as common seville. May be eaten as a grape fruit. Skin is smooth.

Lime

PERSIAN (or Sweet).—Large roundish, yellow, sickly sweet, juicy.

TAHITIAN.—The best variety. Large greenish yellow, very juicy, almost seedless, high acidity, good flavor.

Strawberries

APRIL TO SEPTEMBER

We would advise our clients in all cases to choose two or more varieties of strawberry for planting, for the sake of pollination. Some sorts are naturally self-fertile, while most sorts set their fruit better when another variety is grown near them.

Six best berries for home garden and market:—Illawarra, Rhodes Special, Fendalcino, Ettersburg 89, Euresko, King Edward.

2/- doz., 3/6 for 25, 7/6 per 100, post paid in N.S.W.

2/6 doz., 4/6 for 25, 9/- per 100, post paid to other States.

Special Prices for Thousand Lots by Rail or Steamer

Our packing is so designed that we send plants safely to Africa and the Pacific Islands, or with long postal delays to any part of Australia.

COLLECTIONS—

12 each of 6 varieties for 6/6.

6 each of 12 varieties for 7/6

(Posted in N.S.W. 1/- extra to other States)

Captain Cook—(New)

The only new variety in our trials last season that is worthy of attention. A vigorous grower bearing medium sized dark red berries in shape somewhat resembling Fendalcino.

Rhodes Special

This is a strawberry for a special purpose; it is so hardy that in the milder parts along the coast it puts on marketable crops right through the winter, and in the cooler parts is the first to bear in spring. It is very prolific, but should not be relied upon for late fruiting, as the berries are tender in hot weather.

Fendalcino

This is becoming the most popular for market purposes of all the new varieties. Its beautiful form, large size and above all splendid flavour make it also a good home garden berry. It is not, however, self fertile, and must be grown with another variety in at least every third row. Under this method it is very prolific.

Euresko

Like Fendalcino, for which acts as a good polleniser. This is one of Etters hybrids from California. It is one of the everbearing type, and of unique appearance. The fruit is deep red and the seeds a golden yellow, making a fine contrast. A strong grower and very productive.

Ettersburg, 89

This is quite distinct from the so called tree strawberry which did not prove suitable for Australian conditions. 89 is the most prolific of all strawberries, and therefore must be grown on well enriched soil. It is the best of all berries for jam and preserves.

Illawarra

A locally raised berry bearing very prolific crops of large red berries. The plants are sturdy and stand hot weather well. If plants are put out late a good autumn crop may be secured.

King Edward VII.

Bears extra large, very fine long berries; continues its cropping for a longer period than most sorts. The colour of the fruit is a deep vermillion, and it is a very fine variety for home or market.

White Chilean or Hautboy

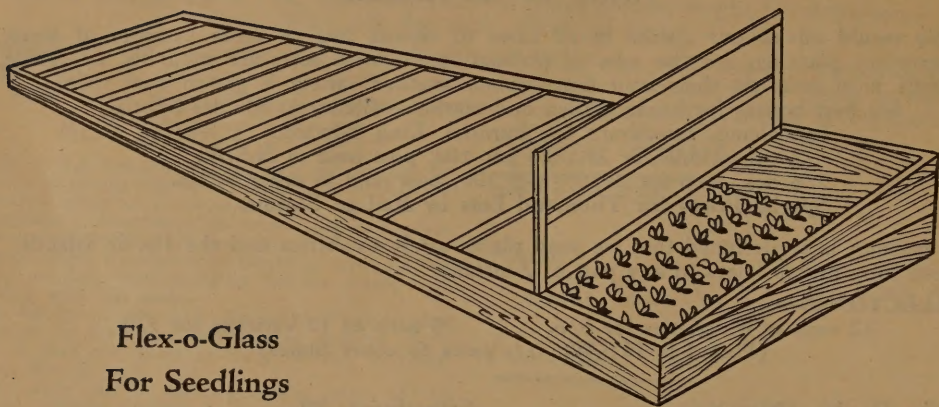

Suitable for cool climates. Stock limited.

As we are growing so many varieties of strawberry, it is not possible within the limits of a catalogue to describe them all. We would advise all our customers who care to know more about the different varieties of strawberry and their cultivation to obtain "The Australian Book of Berries," by Herbert J. Rumsey, which may be obtained post free for 1/1.

In addition to the above we grow small numbers of Klondyke, Annetta, Cresswell's Seedling, Aurie, Malakoff, Melba and Phenomenal.

We have tried Wilson's Pride and Wandin's Special and find them very similar to Rhodes Special, but not its equal.

Flex-o-Glass

**Flex-o-Glass
For Seedlings**

After testing Flex-o-Glass thoroughly for 2 seasons we find that in warm climates it is not satisfactory after the second year, and it therefore cannot be recommended for green-houses and tomato houses unless sufficient profit can be made one season to cover the cost of material.

Flex-o-Glass is still recommended for covering seedling frames and enclosing fronts of brooder and scratch pens for poultry in Winter.

Flex-o-Glass admits ultra-violet health giving rays which are excluded by ordinary glass. Price, 2/6 yard on rail, freight extra.

**Flex-o-Glass
For Poultry
Houses**

Rumseys' Shell Lime

Each year more people are realising the advantages of using shell lime. Shell lime contains necessary fertilising ingredients not present in ordinary lime. Our shell lime is burned from pure shells by the most up-to-date methods. Being so finely ground it more readily corrects soil acidity and improves the texture of soils.

Shell lime makes heavy soils more friable, and binds sandy soils.

7-lb., 1/6; 28-lb., 4/-; cwt., 12/-; on rail freight extra. For rates see page 76.

HOT KAPS

Hot Kaps are thin paper hoods for protecting seed and hastening germination. They are placed over a group of seeds and are later slashed, then removed as the season advances.

Hot Kaps are inexpensive and very effective and with methodical use they should more than pay their way.

Price :—10/- per 100; 95/- per 1,000, freight extra. 1 dozen 1/4, postage 4d. extra.

Mulching Paper

Pabco Thermo-gen

We suffer more in Australia, as a general rule, from a high percentage of evaporation, than from a shortage of rainfall, and anything that will help to conserve moisture is worth full consideration.

The latest garden aid is the "Pabco" Thermo-gen mulching paper: it is a bitumen treated paper which, placed on top of the ground between the plants, keeps the moisture just where it is wanted, and prevents weed growth.

Being black, Thermo-gen absorbs the sun's rays, and in early spring warms the soil up more quickly and induces earlier growth, without danger of injury from frost. Its use has made it possible to grow crops of sweet potatoes, for instance, in places where otherwise the season was too short.

Thermo-gen Paper Mulch has certainly "come to stay" with the vegetable grower and gardener. The wonderful results achieved by the pineapple grower may not be realised with all the varied crops of the vegetable garden, and only experiment at home will prove its full value. We have already seen it used with success in Australia for sweet potatoes, white potatoes, tomatoes, strawberries and young fruit trees.

CROPS IN GENERAL

Vineyardists, fruit growers and market gardeners in general are always anxious to lead the "early market," because pre-season produce, naturally, brings much higher prices to the grower.

The adaptability of Pabco Thermo-gen to a great variety of crops is now an accomplished fact. Earlier maturity and high quality together with increased yields are obtained through its use in cultivation of all kinds of berries, vegetables, nursery stock, grapes, etc.

In a recent survey, pineapples grown under Pabco Thermo-gen treatment had an average weight of 4 lbs. 8.24 ozs. Pineapples grown without Pabco Thermo-gen in the same soil adjacent to the treated plants had an average weight of only 3 lbs. 8.66 ozs. In addition to an increase of more than 3½ tons of fruit per acre per crop, the report estimates that weeding and cultivating costs have been reduced at least 60 per cent.

WHAT PABCO THERMO-GEN DOES FOR TOMATOES

An average yield of 324.68 bushels of tomatoes per acre was obtained from the plots treated with Thermo-gen; while on untreated plots of the same field an average yield of only 214.77 bushels was taken.

The treated plants matured and the tomatoes ripened on an average of nine days earlier than did the untreated.

Pabco Thermo-gen Mulch increases the soil temperature and obtains a proper balance of moisture in the soil.

UP TO 691 p.c. INCREASED YIELD

Here are the results from trials with and without Pabco Thermo-gen Mulch at the U.S.A. Government's experimental farms at Arlington, Virginia.

The percentages show the increased yield of the mulched areas:—

Per Cent		Per Cent	
White Potatoes	73	Green Beans	153
Cotton	91	Beets	409
Sweet Potatoes	122	Carrots	507
Celery	123	Cucumbers	512
Peppers	146	Sweet Corn	691
Eggplant	150		

REDUCED PRICES

PABCO THERMO-GEN comes in rolls 300 feet long by 3 feet wide, costing 20/- each. One roll will, therefore, mulch a three hundred feet row. Five rolls, costing £5, enable you to make a test over fifteen hundred lineal feet. Thinner grades are supplied in rolls at 18/9 and 15/- 100 yard roll.

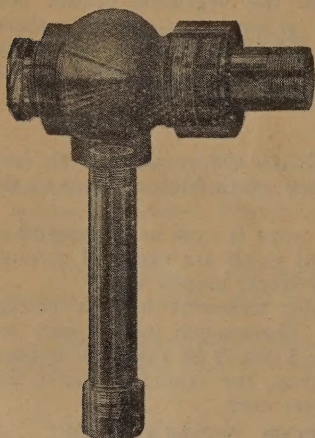

Make this test in your next planting and you will become a regular user of Pabco Thermo-gen mulch.

We can send on request a circular giving very much fuller particulars of this new garden help than we have room for here.

Skinner System of Irrigation

"RUMSEY'S RAIN"

With the use of this fitting for turning the pipe over and the Skinner silver spray nozzles fitted at intervals of three feet ordinary water pipe is turned into a sprinkling system that is equal to natural rainfall in effect, and better in that it may be turned on when required.

UNION TEE

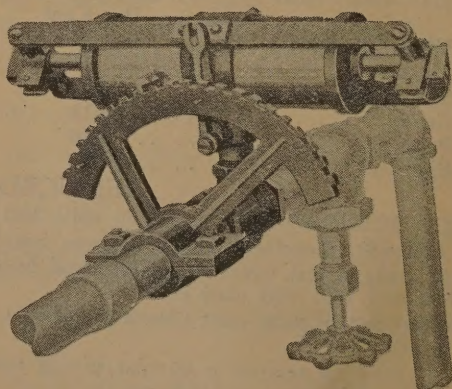

The water from a city supply, from an elevated tank or pumped from creek or river is distributed by the Skinner System over a strip fifty feet wide, and to the full length required up to 500 feet.

For a short line of 120 feet $\frac{3}{4}$ in. galvanised pipe is sufficient, for longer lines larger pipes must be used for the increased supply required.

This is an essential fitting for all garden lines. Besides having a packed watertight turning joint it contains a strainer scientifically constructed in the form of a cone. The area of the holes in the strainer more than equals the size of the outlet, preventing loss of pressure. Also the particles of rubbish hit the outside of the cone and fall down into the handle which can be flushed out occasionally. Without this strainer there is always the danger of the small spray nozzles becoming stopped resulting in unwatered patches. For prices see page 73.

SINGLE LINE OSCILLATOR PISTON TYPE C.

There have been a number of automatic turning devices made in connection with the Skinner System, hydraulic and turbine, each an improvement on the last, and the latest of the piston type is not only the least expensive, but the most effective and sturdy. There is nothing about it to get out of order, and it will turn the line back and forth all day or all night at any speed required and without attention. It is compact, and can be fixed with suitable couplings to change from one line to another quickly and effectively. The lines not in use with the oscillator having the ordinary hand-turning device for use on one side or in one position at a time.

Price from - - £9/-/-

SKINNER SYSTEM READY TO FIX

Although nearly 5,000 gardeners have already fixed the Skinner System, or had it fixed for them, there are perhaps twice the number who have delayed ordering on account of anticipated difficulties in fixing. For these we have worked out our ready to fix plan.

The ready-to-fix Skinner pipes are made up in lengths screwed, drilled, and fitted with O.D. nozzles every 3 feet. Complete with turning union and cap. Lines up to 120 feet are $\frac{3}{4}$ in. pipes. Longer lengths up to 200 feet have 105 feet of $\frac{3}{4}$ in. pipe, and the balance 1in. Above 200 feet any additional lengths $1\frac{1}{4}$ in.

50 ft. lines	
100 ft. "	
150 ft. "	
200 ft. "	
210 ft. ($\frac{1}{4}$ acre)	
250 ft. "	

We regret that owing to constant fluctuations in pipe prices it is not advisable to include prices in this, our Annual Catalogue. Current prices quoted on request.

Though the Skinner system is more effective when connected in permanent positions ready to turn on when required, it may be made portable with Automatic couplings.

The border sprinkler is most efficient for low pressure.

CORRESPONDENCE SOLICITED

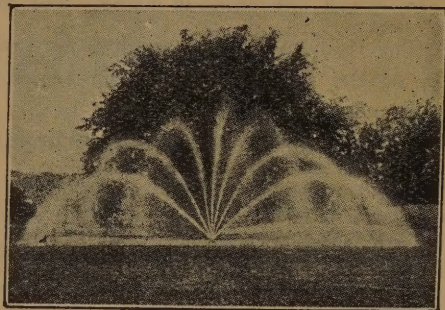

Let us know your watering problems. We can help you to a solution.

Nearly six thousand satisfied users of Skinner Irrigation in Australia are ready to testify to its great value to the gardener.

Portable Sprinklers

Skinner System

The "Peacock" type of Lawn Sprinkler is suitable for Large Lawns, Tennis Courts and Golf Links, as well as for public parks. Each section waters a strip 15 feet long and 60 feet wide. Two or three sections may be connected by a flexible joint to water an irregular shaped lawn. The "Peacock" section is 12½ feet long, mounted on a pair of wheels at one end, so that it may be wheeled from one stand-pipe to another. The nozzles are our O.D. Silver Stream in sets of seven. There is nothing to wear out about it. It is attached to the ordinary garden hose. Price, £2/15/- on rail.

"Peacock"

PEACOCK SPECIAL FOR TENNIS COURTS

The Peacock Special as made up for tennis courts has solved this difficult watering problem. The Peacock Special is about 18 feet in length and of 1 inch pipe. It requires at least 1¼ inch service from the main or water supply to provide sufficient water. Price, £4/10/-.

LAWN MIST

The Skinner Lawn Mist is a Skinner Sprinkler with Greenhouse nozzles fixed in sets of three in a pipe fifteen feet long, watering a lawn 16 to 18 feet square at the one operation. Price, £2/12/6.

BORDER SPRINKLER

The Border Sprinkler has a single row of nozzles in a pipe 15 feet long, mounted like the Peacock and Lawn Mist on a pair of wheels and a stand. The pipe will turn over so that a flower border on either side of a footpath may be watered without moving the pipe. The Border Sprinkler works with less pressure than any of the other types of Skinner Sprinklers and is suitable for use with windmill, tanks, or other low pressure supplies. Price, £2/-.

The border sprinkler may be wheeled from one standpipe to another and the whole garden watered with a few moves.

Border Junior.—7ft. 6in. on stands without wheels may be sent by passenger train, shipping weight 14-lbs. Price, £1/2/6.

All portable sprinklers are fitted with our special swivel joint to fit ordinary hose connections or any other connection necessary may be made.

PORTABLE LINES

The cost of Skinner installations is so small that whenever possible it is best to make permanent installations over the whole garden, only requiring a tap to be turned when the water is required. There are, however, circumstances where for financial reasons it is not possible to complete the installation right away. In those cases we advise at least one permanent line, and a second line, fitted with our quick acting couplings at all joints, or at least alternate joints to move about the rest of the garden.

WATERING A TENNIS COURT WITH SKINNER SYSTEM

These may be so arranged as to water a garden or shrubbery outside the netting of the court, O.D. Nozzles are used, and require at least one inch main to supply sufficient water for the court.

Portable Sprinklers for Special Purposes

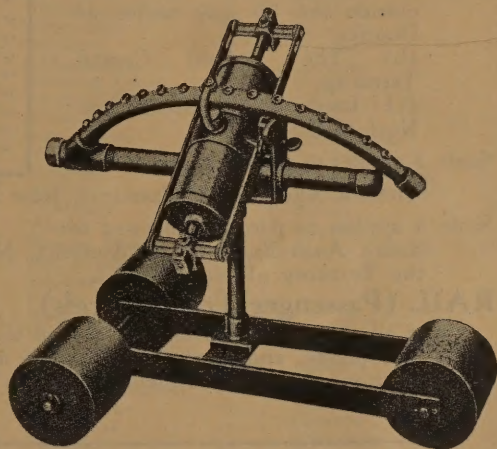

Though for commercial work, large lawns and gardens, the Skinner System is by far the most economical, there are sometimes places where a small spray may be used with satisfaction.

We have in stock a very fine assortment of tested sprinklers suitable for Tennis Courts, Golf Links, round garden beds and small gardens, and should be pleased to give demonstrations at any time.

The smaller sprinklers may be sent by post and exchanged if on examination they prove unsuitable.

RAIN WAVE SPRAY

The single line oscillator has been effectively applied to a portable spray for use on bowling greens, tennis courts and golf links and is already in great demand. It may be attached with special couplings to underground stand-pipes and removed when not in use, or moved from one position to another. With the rain wave the water is distributed evenly over a space of from 50 to 60 feet in width by the same length, from 2,500 to 3,600 square feet being watered at one setting. The sprinkler is light and may be easily carried about, while its broad wheel base prevents it damaging the turf.

Price - - - £10/10/-

On Rail Dundas

Other Sprays

Roto Rain

A large area sprinkler covering 80 ft. circle, very suitable for bowling greens and tennis courts. £3/15/-. Postage (in two portions) 4/3.

Mor-Rain

A sturdy rotary sprinkler with a spread of 50 feet or less. 15/-. Postage 1/.

Saucer Sprinkler

This is one of the most satisfactory of the cheap sprinklers. It sends the water in a circle of 30 to 40 feet in diameter. Price, 5/., post paid anywhere.

Lawn Life or Dome

A strong durable spray similar to the saucer but heavier, and more serviceable. Price 6/-. Postage, 9d.

Tu-Way

Two sprinklers in one for small lawns and odd corners. 6/-. Postage, 9d.

Misto

A cheap rotary or half circle spray, very effective. 9/-. Postage, 9d.

Hose

Good $\frac{3}{4}$ hose costs 1/- per foot and 2/- extra for connections. This is usually sent by rail where possible, by post it would cost 1/6 per 10 feet extra, and only 30 feet could be sent in one parcel. Thirty feet is the best length of hose to use in the garden. Freight to other States extra.

SHIPPING INSTRUCTIONS

Vegetable and flower seeds are carriage paid at prices quoted, unless mentioned otherwise. Trees, plants, farm seeds and sundries are carriage extra, and extra money must be remitted with order to cover freight or postage.

Rates are as follows: (Allow 1-lb. extra to cover cost of packing when assessing charges).

PARCELS POST

Scale 1 applies to parcels addressed to:
Places within a 30 mile radius
of Dundas.

Scale 2 applies to parcels addressed to:
(a) Places in New South Wales,
outside the 30 mile radius of
Dundas.
(b) The Federal Capital
Territory.
(c) Lord Howe Island and
Norfolk Island.

Scale 3 applies to parcels addressed to:

Victoria, Queensland, Tasmania, New Zealand and Fiji.

Scale 4 applies to parcels addressed to:

South Australia, Western Australia, North Australia, Central Australia, Papua, and
the Territory of New Guinea.

RAIL (Passenger Train Parcels)

For all parcels over 1-lb. sent to rail towns in N.S.W. this method is much cheaper. For seeds, plants, and small lots of trees it is most efficient. Customers convenient to railway stations are asked to mention nearest station when ordering.

RAIL (Goods Train)

This is most suitable for bulk seeds, potatoes, fertilisers, etc. Rates are the same whether prepaid or paid on delivery. Of course, where sidings are unattended prepayment is necessary and freight must be remitted with order.

C.O.D. (Cash on Delivery) SYSTEMS

WE CANNOT SEND PLANTS C.O.D.

Postal parcels over 1-lb. may be sent and paid for at your post office. For this service the postal department charges for collection 9d. up to 10/-, 1/- up to £1, 1/3 up to 30/-, 1/6 up to £2, and 3d. for each additional £1 or part thereof. Expensive for orders under 10/-.

Passenger Train Parcels—May be sent C.O.D. to any attended platform in N.S.W. Charges are 4d. per £, with a minimum of 6d., plus ordinary passenger train freight.

Seeds by Mail

Ours is essentially a mail order business. We have for upwards of 30 years been supplying seeds, plants and bulbs to customers all over Australia and the Pacific Islands.

Terms of Business:—

The terms on which our prices are based are cash with order. For the convenience of customers we also use the Post Office and Railway "Cash on delivery" systems, which is a little more costly than postal notes, but includes registration. For full particulars see Page 76. Plants are not sent "Cash on delivery."

For cash we accept Australian postal notes, money orders, and Commonwealth bank notes in registered letters. For larger amounts cheques or bank drafts should be used. Money orders and Postal notes should be made payable at Dundas. Please add 6d. to country, Melbourne and Brisbane cheques, and 1/- to other interstate cheques for collection charges made by the banks.

Substituting

Sometimes owing to crop failures or shortage of stock we sell out of some varieties early in the season. In such cases we substitute the nearest variety, and send to save disappointment, but in no case do we expect you to keep the substituted article if you do not wish to do so. If you put "do not substitute" we omit the variety, and return the balance. If you return the substituted seed we give you credit for the amount.

Registration

The safety of parcels can be assured by the payment of a small registration fee of three pence for amounts up to £2, four pence to £5, six pence to £10, which should be added to amount of remittance, and specially noted on order.

Promptness:—

As our first principle is promptness, it is advisable to inform us if your order does not come to hand or is not acknowledged within a reasonable time.

Situation

Our seed and plant warehouse and demonstration grounds are on Adderton Road, Dundas, right at Telopea Railway Station, on the Carlingford branch line. The office and seed store are open daily from 8 a.m. to 5 p.m., and on Saturdays 8 to 12. One of our irrigation experts is in attendance in the garden on Saturday afternoons for demonstration purposes only. No business transacted on Sunday.

No Agents

We have no agents for seeds or plants in any part of Australia, but in some districts we have fixing agents for the Skinner System.

We supply seeds, vegetables seedlings and roots, fruit trees, roses, ornamental trees and shrubs as catalogued, but have ceased to send out seedlings of annuals and perennial bedding flowers.

PLEASE TAKE NOTICE

CONDITIONS OF SALE—We believe that all Seeds, Bulbs, and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs, or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us. This non-warranty clause is not intended to cover the germination of Seeds. All Seeds are tested and at time of sale comply with the conditions of "The Agricultural Seeds Act," N.S.W.
